

Table of Contents

| | |
|--|-------------|
| Acknowledgement..... | iii |
| Table of Contents..... | iv |
| List of Figures..... | vii |
| List of Equations..... | xii |
| List of Tables..... | xiii |
| | |
| Chapter 1 Introduction..... | 1 |
| 1.1 Solar heating systems overview..... | 1 |
| 1.2 Objectives..... | 3 |
| 1.3 Assumptions..... | 4 |
| 1.4 Hypotheses..... | 4 |
| 1.4.1 Hypothesis One..... | 4 |
| 1.4.2 Hypothesis Two..... | 5 |
| 1.4.3 Hypothesis Three..... | 5 |
| | |
| Chapter 2 Literature Review..... | 7 |
| 2.1 Solar Technology..... | 7 |
| 2.2 Past investigations and relevant research..... | 7 |
| 2.2.1 Case studies of solar heating systems..... | 7 |
| 2.2.2 Solar system practice and theory..... | 8 |
| 2.2.3 Efficiency analysis..... | 8 |
| 2.2.4 Estimation and simulation..... | 9 |
| 2.2.5 OM Solar: its research and questions remain unanswered..... | 9 |
| 2.3 Solar roof system operational fundamentals and heat calculation..... | 10 |
| 2.3.1 Heat transfer fundamentals..... | 10 |
| 2.3.2 Thermal radiant properties..... | 12 |
| 2.3.3 Heat collection rate..... | 13 |
| 2.3.4 Solar radiation and heat collection..... | 14 |
| 2.3.5 Wind speed and heat collection..... | 14 |
| 2.3.6 Incident angle and heat collection..... | 14 |
| 2.3.7 Inlet Temperature and Heat Collection..... | 15 |
| 2.4 Conclusion..... | 15 |
| | |
| Chapter 3 Methodology..... | 16 |
| 3.1 Overview of methodology..... | 16 |
| 3.2 Experimental setup..... | 16 |
| 3.2.1 The integrated roof construction..... | 16 |
| 3.2.2 The integrated roof operation..... | 18 |
| 3.2.3 The data collection system..... | 19 |
| 3.2.4 The data collection period..... | 20 |
| 3.2.5 Calculation of incident angle..... | 20 |
| 3.3 Statistical Analysis..... | 21 |
| 3.3.1 Wind Speed Parameter..... | 22 |
| 3.3.2 Division of the Inlet temperature..... | 22 |
| 3.3.3 Model 1: temperature prediction at different locations..... | 23 |

| | | |
|------------|--|----|
| 3.3.4 | Test of Model 1's assumption..... | 23 |
| 3.3.5 | Model 3 linearity test - analysis of the scatter plots of the independent variables..... | 25 |
| 3.3.6 | Regression analysis..... | 26 |
| 3.3.7 | Test of the regression and its predictability..... | 27 |
| 3.4 | Analytical analysis..... | 27 |
| 3.4.1 | Typical House selection..... | 28 |
| 3.4.2 | Balance Point temperature estimation..... | 30 |
| 3.4.2.1 | The ranch house balance point temperature..... | 31 |
| 3.4.2.2 | The two-story house balance point temperature..... | 33 |
| 3.4.3 | Collectable area of the Solar Roof Collector..... | 34 |
| 3.4.4 | TMY 2 file alteration for annual energy saving estimation..... | 35 |
| 3.4.5 | Set criteria and apply Tdiff model..... | 35 |
| 3.4.5.1 | Heating season analysis..... | 35 |
| 3.4.5.2 | Cooling season analysis..... | 36 |
| 3.4.6 | Heating season energy-collecting calculation method of the two houses..... | 36 |
| 3.4.6.1 | The ranch house energy collecting calculation in heating season..... | 36 |
| 3.4.6.2 | The two-story house energy collecting calculation in heating season..... | 36 |
| 3.4.7. | Heating season energy collecting calculating procedure of the two houses..... | 37 |
| 3.4.7.1 | The ranch house heating season energy collection calculation..... | 37 |
| 3.4.7.1.1 | Calculation procedure for Collector 1 on the ranch house in the heating season..... | 37 |
| 3.4.7.1.2 | Calculation procedure for Collector 2 on the ranch house in the heating season..... | 39 |
| 3.4.7.1.3 | Calculation procedure for Collector 3 on the ranch house in the heating season..... | 40 |
| 3.4.7.2 | The two-story house heating season energy collection calculation..... | 41 |
| 3.4.7.2.1 | Calculation procedure for Collector 1 on the two-story house in the heating season..... | 41 |
| 3.4.7.2.2 | Calculation procedure for Collector 2 on the two-story house in the heating season..... | 42 |
| 3.4.7.2.3 | Calculation procedure for Collector 3 on the two-story house in the heating season..... | 43 |
| 3.4.8. | Cooling season energy-collecting calculation method of the two houses..... | 44 |
| 3.4.8.1 | The ranch house energy collecting calculation in the cooling season..... | 44 |
| 3.4.8.2 | The two-story house energy collecting calculation in the cooling season..... | 44 |
| 3.4.9. | Cooling season energy collecting calculating procedure of the two houses..... | 45 |
| 3.4.9.1. | The ranch house cooling season energy collection procedure..... | 45 |
| 3.4.9.1.1. | Calculation procedure for Collector 1 on the ranch house in the cooling season..... | 45 |
| 3.4.9.1.2. | Calculation procedure for Collector 2 on the ranch house in the cooling | |

| | | |
|---|---|-----------|
| | season..... | 46 |
| 3.4.9.1.3. | Calculation procedure for Collector 3 on the ranch house in the cooling season..... | 46 |
| 3.4.9.2. | Procedure of the two-story house energy-collecting rate in cooling season..... | 46 |
| 3.4.9.2.1. | Calculation procedure for Collector 1 on the two-story house in cooling season..... | 47 |
| 3.4.9.2.2. | Calculation procedure for Collector 2 on the two-story house in cooling season..... | 47 |
| 3.4.9.2.3. | Calculation procedure for Collector 3 on the two-story house in cooling season..... | 47 |
| Chapter 4 Results and Conclusions..... | | 49 |
| 4.1 | Hypothesis One conclusion..... | 49 |
| 4.2 | Hypothesis Two conclusion..... | 50 |
| 4.3 | Space Heating Energy Savings..... | 53 |
| 4.4 | Conclusion on Preheating the Hot Water..... | 56 |
| 4.4.1 | Savings on preheating the hot water in the heating season..... | 56 |
| 4.4.2 | Savings on preheating the hot water in the cooling season..... | 57 |
| 4.5 | Conclusions of findings in the statistical and analytical analysis..... | 58 |
| 4.5.1 | The X-Y plots..... | 58 |
| 4.5.1.1 | The incident angle versus Tdiff X-Y plot..... | 58 |
| 4.5.1.2 | The solar radiation versus Tdiff X-Y plot..... | 62 |
| 4.5.1.3 | The inlet temperature versus Tdiff X-Y plot..... | 62 |
| 4.5.2 | Conclusions of the imprecision of the regression model prediction..... | 62 |
| 4.6 | Conclusion about typical house selection..... | 63 |
| 4.7 | Final Conclusion..... | 63 |
