Allison,

Great. I am glad to know that you are continuing to work on the DR project. I look forward to seeing you in Seattle.

Hello Dr. Liu,

I appreciate you giving me permission to use the figure. I will send you a copy of my thesis as soon as it has gone through the second round of edits and is ready to be submitted to the graduate school. Yes, I am staying for my PhD at VT. I plan on continuing as Lisa's RA and working at L. Alejandro, and perhaps some sites from the eastern side of the DR. I cannot wait to get in the lab again!

Thanks again!

Allison

Quoting Kam-biu Liu <kliu1@lsu.edu> :

Hi Allison,

Sure, you have my permission to use that figure in your thesis. Congratulations on your successful defense! I would certainly appreciate receiving a copy of your thesis, as I am very interested in your research results. What are your plans after graduation? Are you going on to pursue a PhD at VT?

All the best,

Kam-biu

Hello Dr. Liu,

I'm not sure if Dr. Kennedy told you but I successfully defended my thesis last Thursday. Before I submit my thesis to the graduate school, I wanted to ask your permission regarding use of a figure in my thesis. I would like to use your figure showing the retrieval of sediment cores from coastal lakes containing overwash layers (Figure 3 on page 128 of article in American Scientist, figure attached). I have of course cited your paper. If you would not like me to use the figure please let me know. Also, please let me know if you would like a copy of my thesis so that you may see where the figure is used. Hope all is well with you. See you in Seattle!

Best,

Allison LeBlanc
