DANTE DOWNTOWN MASTER PLAN

VA DEPT. OF FORESTRY

Daylighting Lick Creek is a creative way to utilize an existing natural asset in a way that creates a new attraction to Dante's downtown. Community members get a unique perspective of the creek with a viewing platform, accessed by steps or an ADA ramp, while a pedestrian bridge and crosswalk connects the park (right) to Lower Bearallow Road (left). A half-court basketball area and picnic shelter are two of several new destinations.
