

Definitions and Abbreviations

Abbreviations

HR – heart rate

SV – stroke volume

CO – cardiac output

TD – thermodilution

LV – left ventricle/left ventricular

RV – right ventricle/right ventricular

ID – internal diameter

S – systole

D – diastole

IVS – interventricular septum

LVFW – left ventricular free wall

LVV – left ventricular volume

Definitions

CO Measurement – one single CO measurement at one point in time

CO Determination – the value of CO determined from the mean of 3-5 sequential measurements
