

## **ACKNOWLEDGEMENTS**

I would like to thank ResMed Corporation (San Diego, CA) for supplying us a grant to perform this research and SensorMedics (Yorba Linda, CA) for working with us and supplying a gas exchange system. This is for my daughter Alexis Rachaele, who is a tremendous inspiration to me and keeps me striving to do the best I can in life.

## LIST OF TABLES

### Chapter 3: Journal manuscript

Table 1: OSA patient characteristics and clinical measurements	35
Table 2: Exercise test results at 60% of apparent maximal functional capacity	36
Table 3: Quality of life, physical activity history and sleep quality changes in OSA patients	39

### Thesis

Table 1: OSA patient characteristics	68
Table 2: OSA patient clinical characteristics	68
Table 3: Changes in health related quality of life questionnaire after CPAP therapy	69
Table 4: Changes in the Pittsburgh Sleep Quality Index questionnaire after CPAP therapy	69
Table 5: Changes in the Baecke physical activity questionnaire after CPAP therapy	69
Table 6: Heart rate response to ramping exercise in OSA subjects before and after CPAP therapy	70
Table 7: RPE response to ramping exercise in OSA subjects before and after CPAP therapy	70
Table 8: RPP response to ramping exercise in OSA subjects before and after CPAP therapy	70
Table 9: $\text{VO}_2$ response to ramping exercise in OSA subjects before and after CPAP therapy	71
Table 10: $V_E$ response to ramping exercise in OSA subjects before and after CPAP therapy	71
Table 11: SBP response to ramping exercise in OSA subjects before and after CPAP therapy	71
Table 12: RER response to ramping exercise in OSA subjects before and after CPAP therapy	72
