*Friendliness is a tradition of which V.P.I. can justly be proud. Visitors are greatly impressed by the courtesies and friendly atmosphere by which they are greeted.*

*Virginia Polytechnic Institute offers a beautiful campus to its students. The pride we take in our university determines our future roles as alumni. Our participation in organizations, whether it be in the Highty Tighties, student government, fraternities, or publications, makes for fond memories and a devoted concern for our school.*

*The V.P.I. co-ed is becoming a more intricate part of the student activities each year. We may be proud of the way the boys and co-eds work together to achieve school goals.*

*The Corps of Cadets and the Civilian Student Body, while functioning independently, have the common goal of making V.P.I. a better university. The ideals of both student bodies are brought forth in our school motto "Ut Prosim . . . that we may serve."*

# VIRGINIA POLYTECHNIC

INSTITUTE ....

# Dedication

Professor G. T. "Duke" Baird has, over the years, become one of the "pillars" of V.P.I. During his thirty-seven years of teaching at Tech he has added enrichment and fulfillment to the background of all his students.

How did the professor come to be known as "Duke"? Alumni will remember him as the man in the School of Business who, in the days of the Roaring Twenties, wore spats, a cane, and derby hat.

Professor Baird is a man dedicated to his profession; his integrity and individualism are inspirational. He is respected by his students as a great teacher and *friend*.

His achievements are many. At the University

of Alabama he was active in athletics both as a player and manager. He was also a member of Tau Phi and an "A" student for half of his undergraduate career. After graduation he went on to do graduate work at Columbia University. Upon completion of his master's degree in Business Administration "Duke" came to V.P.I.

Most important on his long list of achievements has been his dedication to his profession, his students, and his family. What more can be said—only that an education at Tech is not *complete* without having experienced the educational thrill that one of the Professor's classes does offer.

Known to the great, the average, and the small as a true measure of humility—"Duke" Baird.

Dr. Hahn, our eleventh president, is, at 35, the youngest president in Virginia Tech's history and is the youngest president at any Land-Grant university in the United States.

A native of Lexington, Kentucky, Dr. Hahn obtained his B.S. degree in physics from the University of Kentucky in 1945. He did graduate work at the University of Maryland. In 1950, he earned the Ph.D. degree in physics at the Massachusetts Institute of Technology.

Dr. Hahn has taught at the University of Kentucky, and was head of the physics department at V.P.I. from 1954-1959. He held the position of dean of arts and sciences at Kansas State University from 1959 until 1962 when he was appointed president of V.P.I.

Dr. Hahn is a member of Phi Beta Kappa, Sigma Xi, Omicron Delta Kappa, Sigma Pi Sigma, Pi Mu Epsilon, the American Association for the Advancement of Science, and the American Association of Physics Teachers, as well as many other educational, honorary, and professional societies.

### Our President Speaks

As young citizens in our free society, the most powerful, most prosperous society in the history of the world, the youth of our nation represents its greatest asset. Your opportunity for success is unsurpassed, but the challenge and responsibility you face is also a tremendous magnitude. The choices you make and the habits you form will determine the contribution of your lives and will certainly influence the capacity of our free society to continue to prosper and survive.

Our responsibility, then, is twofold. In the face of the increasing growth of knowledge and the accelerating advancement of technology, V.P.I. must continue to place ever-increasing emphasis on excellence and on providing the broad education which will enable its graduates to work tomorrow in fields which do not yet exist today. You, the educated leaders of tomorrow, must be ever-mindful of the fact that the fabric of man's progressive achievement rests on individual effort and that your individual contribution will help determine the society and civilization of tomorrow. It is for the future, then, that V.P.I. and its graduates exist; an educational institution with emphasis on quality and individual excellence can have no other goal.

T. MARSHALL HAHN, JR.

THE PRESIDENT

## THE VICE-PRESIDENT

A native of Scottsville, Kentucky, Dr. Pardue is a graduate of the University of Kentucky. He received his B.S. degree there in 1925 and his Ph.D. from Yale in 1931.

Dr. Pardue is a former Dean of Graduate School at the University of Kentucky. He was Research Associate and Senior Physicist on the Manhattan Project at the University of Chicago and Oak Ridge during World War II. Dr. Pardue is now a member and Vice-President of the Board of Directors of Oak Ridge Institute of Nuclear Studies.

A member of Phi Beta Kappa, Phi Kappa Phi, Sigma Xi, and Omicron Delta Kappa, Dr. Pardue has been Vice-President and Director of Graduate Studies at Virginia Polytechnic Institute since 1950.

**DR. LOUIS A. PARDUE**  
*Vice-President*

**MR. STUART K. CASSELL**  
*Business Manager*

## BUSINESS MANAGER

Mr. Cassell, a native of Wythe County, Virginia, was graduated from the Virginia Tech Corps of Cadets in 1932 as a 1st Lieutenant in Company L. He received his B.S. and M.S. degrees from Tech and was employed here as an Instructor in Agricultural Economics from 1933 to 1935. He was employed by the U.S. Department of Agriculture from 1935 to 1945, and was appointed to his present position as Finance and Business Manager of V.P.I. in 1945.

Mr. Cassell is a member of the Board of Trustees of Marion College, and he is Secretary-Treasurer of the V.P.I. Educational Foundation, Inc. He is also a member of Alpha Zeta and Phi Kappa Phi honorary fraternities.

LEFT TO RIGHT: Mrs. Henderson P. Graham, Mrs. E. Floyd Yates, Mrs. English Showalter, Mrs. Donald Wilhelm, Roderick G. Couched, ex-officio member, President of the Board of Agriculture and Immigration; Wyatt A. Williams, Mrs. Elva DeLaBarre Redding, Secretary;

G. M. Read, E. H. Lane, Harry C. Wyatt, E. H. Will, and George M. Cochran. NOT PICTURED: W. T. Rice, rector; Paul D. Saunders, and Woodrow W. Wilkerson, ex-officio member, Superintendent of Public Instruction, Richmond.

## BOARD OF VISITORS

The Board of Visitors, under the control of the General Assembly, appoints the president of the college and employs other necessary officials. The board fixes the salaries of professors and tuition fees, receives and holds in trust all donations to the college, and supervises the care, preservation, and improvement of college property. Other general duties are the awarding of scholarships, and prescribing values of loans to Tech students.

# SCHOOL OF AGRICULTURE

The School of Agriculture offers educational programs leading to careers in the fields of farming, supply and service agencies, the production of food and fiber products, and the assembling, processing, and marketing industries. Education in the sciences is emphasized, because agriculture and its allied industries depend upon the application of scientific knowledge and principles. The programs provide education in line with the changes which have taken place and now are occurring.

## SCHOOL OF ENGINEERING AND ARCHITECTURE

The School of Engineering and Architecture awards the bachelor of science degree in sixteen different fields. There are specially arranged programs for graduate study in many of these fields. Experimental training is given to graduates in the nuclear laboratories of the department of physics which include a 10KW Argonaut-type critical reactor; a natural uranium, graphite-moderated exponential assembly; a nuclear reactor simulator; and a two-million-volt nuclear accelerator. A cooperative engineering program with industry has been instituted for interested students.

The School of Science and General Studies furnishes service courses to all schools at V.P.I. The degree of bachelor of science is awarded in several major areas. Pre-professional curricula in this relatively new school include preparation for dentistry, medicine, veterinary medicine, and pharmacy. Students working on pre-professional curricula may transfer without loss of credit to the appropriate twelve quarter curriculum if they decide to work for a degree at V.P.I.

The faculty of V. P. I. is vast and varied. These are the many people who influence our lives by their advice and their actions.

A professor is an interpreter of knowledge who makes a complex problem understandable or gives clarity to a text on ancient Greece. He is always willing to help the student who seeks his help. He advises the student as to what courses to pursue and gives him the courage to continue in his major. Our professors help to build our character as well as our intelligence. They counsel us in the development of better citizenship and brotherhood.

We, the students of V. P. I., owe much to our faculty, and take this time to offer our thanks.

DAVID E. LOWE  
President

We, the Class of '63, have seen Virginia Tech take major strides toward assuming its position as one of the nations outstanding universities. Exemplary of Tech's progress has been the addition of four academic buildings, two dormitories, Shultz Dining Hall, and a 10,000-seat coliseum. Academic expansion included the increase from three to five schools and the offering of degrees in the Humanities. We were privileged to be a part of Tech's 90th-birthday celebration which coincided with the 100th anniversary of the establishment of America's Land Grant University System. We are proud to have been with Tech during this period of growth. We now take our place as alumni with great appreciation of, and admiration for, our alma mater and the educational opportunities it afforded us.

Each school at V.P.I. requires a great deal of hard work. Each one contains a number of general or cultural courses, the aim being to give the student a practical and theoretical knowledge of fields related to their respective fields of study.

In the School of Science and General Studies the curriculums are designed primarily for students who desire to prepare themselves for technical work in various scientific fields; particularly those which require for their best development close association with technical departments represented in agriculture and engineering.

Characterized by its rapid adoption of scientific and technical advances, agriculture is marked by a great increase in mechanization, efficiency and giantism.

The resident instruction in the School of Engineering and Architecture is organized to meet the needs of every type of student. The school includes 16 programs leading to the degree of science in various fields of architecture and engineering, specially arranged programs for graduate study, and an engineering cooperative program with industry in certain curricula. The master of science degrees in nuclear science and engineering are offered to meet the demands of industry.

# *Memories of our*

Every Junior and his date, dancing to the music of Stan Kenton, took a magical ride down the mighty Mississippi aboard the most beautiful ship in the South. The theme for the 1963 Ring Dance was Showboat and the decorations in War Memorial Gymnasium re-created the delightful atmosphere of life on the river. As you stepped inside you immediately found yourself in the gardens of an old Southern estate which you passed through on your way to the wharf, where the showboat was waiting. Looking down as you crossed a small wooden foot-bridge you saw the beautiful flowers which grew in the gardens. Placed in the back of the gym and tilted forward so that you might see it perfectly from any angle, was a replica of the beautiful '63 Ring that amazed you with its exactness in every detail, although it was large enough to walk through. What more fitting way to enter this dream-world than through the ring, which symbolizes the entire memorable week end?

Suddenly, as if by magic, you were on board the Showboat. The music had begun, and you and your date were drifting down the river. On both sides you saw the river towns with lights twinkling out of countless windows. Lights from every direction played on the dance scene, bright at first but gradually dimming until you were surrounded by only moonlight and stars. The river slipped softly by; lighted paddle-wheels turned slowly in the warm water; the river towns glided past in the distance and you, with your girl by your side, sailed lazily through the magic dream world of THE SHOWBOAT.

## FRESHMAN DANCE

The Freshman Dance is a special dance sponsored by the German Club for the Freshman class and its treasury. Only freshmen and their dates could attend the dance held December 1, 1962. Girls were imported from neighboring colleges for the dance at which the Southern Colonels provided the music.

Nice weather today, wasn't it?

Thank God. No brass buttons.

# THE TECH FESTIVAL

Rita Sutherland; James Gray, Treasurer; Charles King, President; Gene Wood, Vice President; Phil Hobbs; Madeline Ramsburg, Secretary; Bill Lewis.

The Tech Festival is a coordinated effort by the five schools to show V. P. I. at its best. The Festival ran from May 2 to May 4 and included the Agricultural Exposition and the Engineering Conference. Officers of the Tech Festival Committee included Charles B. King, Chairman, Gene Wood, Vice-Chairman, Madelyn Ramsburg, Secretary, and James Gray, Treasurer. The purpose of the Festival was to stress the academic and student life and the athletic activities of the school. The Festival started off with symposia within the individual schools. The Maroon Mask presented a play Thursday Night. Friday had a baseball game and at night a German and Cotillion Club concert. Saturday afternoon a scrimmage between the varsity and alumni was held, and the Dairy

Show and the Little International were held at the Dairy Center and at the Barns. Three banquets were held Saturday night under the sponsorship of the Schools of Agriculture, Engineering and Architecture, and Business. Princesses from each school were chosen and from them a queen was elected to reign over the dance held Saturday night. During the entire Festival student exhibits were on display on the floor of the Coliseum, and industrial exhibits were on display in the War Memorial Gym. The Blacksburg Art Association had a showing of its work in the ambulatory of the Coliseum. It was felt that the Tech Festival was a great success and served to unify the entire university.

## COTILLION CLUB

The V. P. I. Cotillion Club, in celebrating its 50th anniversary, is particularly aware of its tradition and purpose on the V. P. I. Campus. As in the past, we of Cotillion constantly endeavor to improve both the social conditions on campus and the social relations between the student body and the faculty. We feel that through our efforts emerges a formal atmosphere providing a rewarding social life for all V. P. I. students.

It is our sincere hope to advance, through our sponsorship of three formal dance week ends each year, the importance as well as the quality of social activities on the Virginia Tech campus. Traditionally we of the Cotillion Club have considered it a pleasure to serve you, the faculty and the student body.

## GERMAN CLUB

Since 1892 the V. P. I. German Club has had as its aim fine dances and social functions. Its members have continually strived to present for the students of V. P. I. a social life which is in keeping with the highest ideals.

It is the earnest hope of the German Club to furnish the basis for a rewarding social life at V. P. I. by sponsoring three dance week ends a year. Our tradition of providing a setting for the introduction of students to the benefits of on-campus social activities has made every member feel that the German Club is serving a worthwhile purpose.

Today as in the past the German Club is ever mindful of its tradition. It has been our desire to always provide a warm, congenial atmosphere for our social dances. This year, as in the past, it has been our pleasure to extend a cordial invitation to all V. P. I. students and special friends.

## SOUTHERN COLONELS DANCE ORCHESTRA

Having extended its name further throughout Virginia and the neighboring states and raising its reputation even higher, the Southern Colonels has completed another successful season upholding the fine heritage of Tech's oldest and most popular dance band. Now the largest band on campus, the Colonels' smooth and versatile music has been enjoyed by

many from Morgantown, West Virginia, to points east as far as Virginia Beach. The Colonels will continue in their efforts to provide the best in dance music on the V. P. I. campus by always striving to include the latest advancements in the field of music.

The COLLEGIATES were organized in 1953, and they soon became known as V. P. L.'s own dance band. The band remains in this honored position year after year by upholding the excellent reputation established by providing fine music for listening and dancing.

This dynamic band is composed of all Virginia Tech students, each a master in his own field. The combination of three trumpets, three trombones, four reeds, and four rhythm instruments has proven to be flexible and driving. The trumpet section holds a position of great importance in the band. Jim Ritter from Marion handles the rides; Bruce Burgess of Newport News accents with his driving trumpet, and the sound is carried home by Don Hunter of Arlington. Jim Davis of Waynesboro plays top trombone and shares the spotlight with Rusty Hodnett of Martinsville and Doug Montgomery of Radford. This year's director and lead alto sax man is Alan Beamer of Alexandria. Welford Coutts of Richmond, Jerry Moore of Appalachia, and Andy Campbell of Radford complete the full, rich tones of the big-band styles. With Blaine Gibbs of Richmond on piano, Hal Schad from Amityville, New York on bass, Butch Oliver of Appalachia also on bass, and Bill George of Richmond on drums, the band develops the drive and the rhythm for exciting up-tempo numbers or the rich solitude and depth for the lush ballads. The band's emphasis is on its brass. When the brass takes over, the band shows its bite and brilliance; and it swings rather than churns. More important than biography, there is an existing optimistic attitude and an active encouragement about this whole musical experience. THE COLLEGIATES are filled with enthusiasm. The flaring excitement it generates is overpowering. One thing is for sure; the Collegiates are for you!

## CONCERT BAND

The Virginia Tech Concert Band opened its 1963 season with a concert in Abingdon, Virginia. This performance was sponsored by the Southwest Virginia chapter of the Alumni Association. The band gave concerts at Bluefield, Salem Women's College, Southern Seminary, and Virginia Intermont.

Approximately sixty men of the marching band compose the concert band. Under the direction of Tom Dobyne, music ranging from the strictly classical to concert marches to light modern pieces is played. Chairman of the 1963 concert band is Cadet 2nd Lieutenant Harvey A. Phlegar of Pearisburg, Virginia.

Its annual spring concert in Burruss Hall is used to help finance the following year's trips and to provide a pleasant concert for Techmen and others interested in music.

*FIRST ROW: Derek James, John Phillips, Roy Dodson, Bill Madison, John Baidock, Oscar Harris, Ken Van Hook; SECOND ROW: Gary Colehamer, Ed Rhodes, Lewis Wilkins, Ed Simpson, Lee Kirkland, Jack Whitney, Ronnie Gibbs, Bruce Sharp, Guy Bryant, Jack Reynolds, Hap Phlegar; THIRD ROW: Jay Lodge, Tetty Blair, Bill Miller, Frank Wooldridge, Gerald Kinney, Lane Crafton, Joel Snyder, Chick*

MISS JUDY BROWN

## MISS V. P. I.

Miss Judith Wood Brown, a sophomore in biology from Newport News, Virginia, was selected last spring by the C. S. B. officers and the Regimental Staff to reign as Miss V. P. I. for the school year

1962-1963. Judy represented V. P. I. at the Harvest Bowl Festival where Virginia Tech played the University of Virginia. In addition to her duties as Miss V. P. I., Judy is a varsity cheerleader for Tech.

ROW ONE: Bonnie Page, Kathy Vogt, John Aracco, John Hunter, Wayne Nannally, Floyd Rowe. ROW TWO: Dennis Buckley, Wayne Johnson, Mr. Robert Mardis, director. ROW THREE: Bob Sweeney, Sally Carlson, Anne Lash, Mary Judkins, Cynthia Furtich, president;

Peggy Skinner. ROW FOUR: Marlin Patter, Spotswood Graves, June Werlwas, Harvey Atkinson, Betty Gibbs, secretary; Bob Smith, Robert Willison. Absent from picture is Carol Schuck, treasurer.

## MAROON MASK

The Maroon Mask, directed by Robert F. Mardis, presented *The Alchemist* by Ben Jonson on November 16 and 17. This play from the days of Shakespeare was given a fine interpretation by the Maroon Mask members.

On February 15 and 16 Tech students were treated to three one-act plays under the heading of The Absurd and the Sensible. The plays so classified were *The Sandbox* by Edward Albee, *The Bald Soprano* by Eugene Ionesco, and *God Likely Kept All the Sweet Apples* by V. P. I.'s own Robert Morton.

Throughout its '62-'63 season the Maroon Mask did much to bring fine drama to the V. P. I. campus.

# the 1963

This year's BUGLE staff has experienced its fair share of ups and downs throughout the '62-'63 academic year. The Administration, Features, Extracurricular, Athletics, and The Corps sections were carried by the efforts of completely new staff personnel and the timely advice of their editor.

At times the spastic notes of a half dozen typewriters and the unintelligible noises of twice as many people made the final production of the BUGLE seem impossible as well as only a dream in the minds of each of us.

The final goal of any annual staff is to represent all the people of the organization from which it originates. This task would be significantly removed from the shoulders of any college annual staff if the students would take it upon themselves to report the formation of any new clubs or societies and the activities of all the existing ones. The duty of an annual staff is to compose the material they receive into a logical, descriptive report on the life of the college as it exists—not to gather the information, thus assuming the role of a news agency. Our apologies to any organization that sought representation within these covers and failed to receive it.

As editor, Dave Clemons extends his personal and wholehearted thanks to everyone who contributed to the success of the 1963 BUGLE, particularly the indispensable typists and salesmen.

## THE VIRGINIA

*The Virginia Tech* is the weekly newspaper produced for and by the students of V. P. I. The goal of the newspaper is to entertain and inform the student body of V. P. I.

This year, under the guidance of Townsend J. Smith, Jr., editor-in-chief, *The Virginia Tech* expanded from 8 to 12 pages to allow greater coverage of campus events and voicing of opinion than ever before.

# TECH

For the staff, it was a year of controversy; about editorial freedom, and misunderstood satires; and of tragedy, in the death of Townsend Smith. But it was also a year of fellowship and creativity, of hard work and of good clean fun, and in the end of the feeling of a job well done.

## CAMPUS RADIO

This year, our sixteenth anniversary, we would like to take this opportunity to thank all who have made WUVT possible. Thanks go to the following in particular: to the students who have given their unending support; to the members of the faculty who have given their approval; and to the advertisers who have helped to make WUVT a success by their excellent support.

We the staff of WUVT believe that campus radio stations are assets to every college. It is an asset, not only to the college as a whole, but also to the students who participate in this activity.

# STATION WUVT

It helps the college in that it provides publicity to the institution and helps to bind college activities closer together. It helps the individual student in that it gives those interested in the different phases of broadcasting a chance to gain experience. For those not interested in the actual work connected with the broadcasting field, it offers one of the best modes of entertainment and education. To the businessmen of the town, it brings them closer to the students through the medium of radio advertising.

## TECH-NIQUE

Since 1954, agricultural students of Virginia Tech have published the *Tech-nique* for the enjoyment and enlightenment of students, faculty, Virginians, and anyone interested in Virginia's agriculture. Since the formation of the School of Home Economics, the *Tech-nique* has represented two

schools. Thus the *Tech-nique* is devoted to the promotion of agriculture and home economics on the campus and throughout the state. This purpose was diligently pursued by the staff during the '62-'63 school year. This year saw circulation increased to include parents of the students in both schools.

## VIRGINIA TECH ENGINEER

Published by and for the students in the School of Engineering and Architecture five times a year, the editorial policy of this year's magazine was directed toward the freshman in engineering.

Technical articles by Tech students, a discussion of each engineering department at Tech as it pertains to Tech, re-

ports of activities of student sections of professional societies to stimulate student interest, fudge factors, mathematical problems contributed by students, and various articles of interest were contained in the 1962-63 volume of the *Tech Engineer*.

A fraction of the editorial, art, and business staffs.

# *Honoraries*

The honorary fraternities recognize Tech students who have made outstanding contributions of leadership, academic achievement, and service to the college. They are indeed an integral part of Virginia Tech and the college man.

# WHO'S WHO IN AMERICAN UNIVERSITIES AND COLLEGES

Thirty-five senior students of Virginia Polytechnic Institute were named to the 1962-1963 edition of "Who's Who in American Universities and Colleges" after a thirty-day period of investigation, evaluation, and final selection by a special faculty-student committee.

The task of selecting these thirty-five outstanding students

was assigned to Dean Laura J. Harper, Dean G. B. Johnston, Dean W. B. Bell, Dean S. H. Byrne, Dean H. H. Mitchell, General M. W. Schewe, Dr. J. W. Dean, Cadet David Lowe, Cadet Tom Young, Cadet Sykes Dehart, George Chandler, III, Seward Foote, and Philip Hobbs.

*Sharon J. Allen, William E. Babcock, John W. Bates III, Sydnor H. Byrne Jr., George F. Chandler III, David A. Cuddington, H. Sykes, Dehart, David Finkleman, Selwyn Lee Flournoy, Seward R. Foote,*

*Albert B. Godfrey, W. Derald Hagen, Roger W. Hall, William E. Hall, William P. Hardy, James E. Hill, Phillip E. Hobbs.*

Prerequisites for consideration for this honor are bonafide membership in the senior class, minimum QCA of 1.00, and no previous record of conduct, disciplinary, or military probation. The thirty-five students were selected by the committee on the basis of academics, extracurricular participation, personal evaluation, contribution to the college, and the student body, and outstanding representation of the eligible members of the entire senior student body.

# ALPHA PHI OMEGA

Alpha Phi Omega is a national service fraternity founded in 1925 at Lafayette College, Easton, Pennsylvania, by Frank R. Horton. It is an organization recognized by the officials of the over 300 colleges on whose campuses chapters have been established, as an outstanding organization of young men dedicated to aiding the college, the community, and the nation through unselfish service.

There are two fundamental requirements for active membership: First—the students must have had previous experience in the Boy Scouts of America; second—the students must prove an earnest desire to render service to others.

## ALPHA SIGMA MU

Alpha Sigma Mu was founded in 1932 at Michigan College of Mining and Technology to honor metallurgy students of high scholastic standing. Following this first chapter, a second was started at the University of Illinois and a third was started here at Virginia Tech. Since then the fraternity has grown and is now being supported by the American Society for Metals.

The purposes of this Honorary Fraternity are: The furtherance of the arts and sciences of metals; the promotion and recognition of scholarship, professional attainment, and high social and moral culture of its members; the maintenance of the highest and best objectives of the profession to which they (the students) aspire; and the furtherance of the free relations among schools and colleges of metallurgy.

# ALPHA ZETA

Alpha Zeta, the national agricultural honorary fraternity, was founded at Ohio State University on November 4, 1897. Its purpose is to recognize outstanding work done in the agricultural curricula. The Tech chapter was founded on May 28, 1932, and has been one of the most active organizations in the School of Agriculture since that time. The fraternity presents a scholarship to an outstanding junior in the school and presents an award to the freshman with the highest QCA at the end of Spring Quarter. The fraternity also sponsors several dances during the year.

## ARNOLD AIR SOCIETY

The Arnold Air Society is made up of cadets enrolled in advanced ROTC who have distinguished themselves by their academic, military, and leadership achievements. The society is dedicated to the advancement of air power, and has as its purpose the furthering of the ideals of the U.S. Air Force.

The society is named in honor of the late General H. H. "Hap" Arnold, Commander of Allied Air Forces in World War II and five-star general in the U.S. Air Force. The Society was organized in 1947, as the Arnold Society of Air Cadets; the name was changed in 1950 to the present title, Arnold Air Society. The Virginia Tech squadron, designated Squadron A-2, formed in 1949, and has the distinction of being the second such squadron in the nation.

Squadron A-2 is presently responsible for directing and coordinating the activities concerned with staging the annual VTCC Military Ball.

# ASSOCIATION OF THE UNITED STATES ARMY

Penn State University organized the first ROTC Company of the Association of the United States Army in 1956. The V.P.I. Company of AUSA was formed in 1958. The V.P.I. Company is composed of Cadet Army ROTC Seniors who have shown a sincere and lasting interest in the military work of the college, and who, furthermore, possess qualities which will make them good and efficient officers in the United States Army.

The purposes of AUSA are the following: to find incentives for increasing military skills, to attend meetings which will add to general Army background, to acquire information about the place of the Army in the defense of the nation that can be passed on to other students and to citizens generally; and to associate under favorable circumstances with fellow cadets and military personnel who consider patriotism an important attribute to character.

## SOCIETY OF AMERICAN MILITARY ENGINEERS

Chartered in 1957, The V. P. L. post of S.A.M.E. is an honorary society for cadet students enrolled in engineering curriculums or related sciences who have displayed general excellence in personal qualifications and ability in both military and academic courses. Meetings are held to advance the knowledge of the science of military engineering, to encourage, foster, and develop between military engineers and other arms of the military service a spirit of cooperation and mutual understanding of their respective duties, powers and limitations, and to preserve the memory of services rendered by the engineering profession throughout the wars in which the United States has been engaged.

# SCABBARD AND BLADE

Scabbard and Blade, a national honorary military society, was organized at V. P. I. in May of 1938. Company "L", 7th Regiment, as the company is now designated, seeks to promote ideals that might contribute to the development of those qualities necessary in an officer and a gentleman; to prepare the members to take a more active part and have a greater influence in the military affairs of the communities in which they may reside; and to spread intelligent information concerning the military affairs of our country. Its membership is restricted to those senior officers in the Corps of Cadets having an advanced ROTC contract and who have demonstrated proficiency in academics and leadership.

## ETA KAPPA NU

The purpose of Eta Kappa Nu is to bring into a closer union students of electrical engineering so as to foster a spirit of liberal culture among them, and to mark in an outstanding manner those who have conferred honor upon V. P. I. by distinguished scholarship, activities, leadership, and exemplary character; and to aid these students to progress through association with alumni and faculty. The membership of Eta Kappa Nu is composed of those in electrical engineering and campus activities.

## OMICRON DELTA KAPPA

Omicron Delta Kappa, National Leadership Honor Society for college men, was founded December 3, 1914, and the Alpha Omicron Circle at V. P. I. received its charter on June 2, 1923.

The Society encourages and recognizes achievement and leadership in scholarship, athletics, student government, social and religious affairs, publications, and speech, music, and other arts. Qualifications for membership are exemplary character, leadership, and service in campus life, scholarship, and consecration to democratic ideas. Through its recognition of these qualities, ODK brings together members of the student body and the faculty in a cooperative effort of service and leadership in campus activities for the general welfare of the college.

# PHI KAPPA PHI

The Honor Society of Phi Kappa Phi was founded in 1897. There are 31 Chapters in the United States. Its purpose is to emphasize scholarship and character in the thought of college students, and to foster the significant purposes for which institutions of higher learning have been founded. Phi Kappa Phi has tended to stimulate mental achievement by recognition through election to membership. This membership is limited to those students who are among the upper one-eighth of their class. Only one-tenth of any class, however, may be elected. The V. P. I. Chapter was installed in 1921 with fourteen charter members. Since that time there have been 2179 members elected.

## PI TAU SIGMA

Pi Tau Sigma is the National Honorary Mechanical Engineering Fraternity. It was founded to establish a closer bond of fellowship, which will result in mutual benefit, among those men in the study and profession of Mechanical Engineering. These men, by their academics or practical achievements, manifest a real interest and marked ability in their chosen work.

The aim of the organization is to foster the high ideals of the engineering profession, to stimulate interest in coordinated department activities, to promote the mutual professional welfare of its members, and to develop in students of mechanical engineering the attributes necessary for effective leadership and the assumption of the responsibilities of citizens in a democracy.

# PI DELTA EPSILON

Pi Delta Epsilon, the oldest national honorary collegiate journalism fraternity was founded at Syracuse University in 1909. The Virginia Polytechnic Institute chapter was established in 1930, the second-oldest fraternity on the campus. The local chapter was instrumental in establishing the ODK leadership fraternity on the campus in 1933 and has many worthwhile projects to its credit. To the workers on student publications who sacrifice the lighter pleasures of college life to labor upon a worthy campus publication for the sake of the student body, the student body owes much, and it is as a reward to those student workers that Pi Delta Epsilon operates.

## CHI EPSILON

The purposes of the Chi Epsilon Fraternity are to contribute to the improvement of the Civil Engineering profession as an instrument for the betterment of society, to recognize the fundamental characteristics of the successful Civil Engineer and to aid in the development of those characteristics, and to encourage whenever possible any movement which will advance the best interest of engineering education.

Membership is chosen from students registered in Civil Engineering who have completed at least one-half of the work required for their Bachelor's Degree.

To be eligible for membership, an undergraduate must rank in the highest one-third of those in his class who have satisfied other requirements.

Among current accomplishments, Dr. William A. Parsons, Professor of Civil Engineering, was chosen as a Chapter Honor Member of the V. P. I. Chapter, and a listing of the Civil Engineering Professor's books has been collected and is available for use in the Reading Room of the Civil Engineering Building.

## BLOCK AND BRIDLE

The Block and Bridle Club is composed of students in agriculture who are interested in some phase of Animal Husbandry. The objectives of the organization are to promote a higher scholastic standing among students of Animal Husbandry and to bring about a closer relationship among persons pursuing some phase of Animal Husbandry as a profession.

The Virginia Tech Chapter, formed in 1935, is one of the most active organizations on campus. It supports the V.P.I. student livestock and meat-judging teams, and each year it sponsors two dances, a student livestock and meat-judging contest, and several barbecues. The highlight of the club's year is the Little International, a student livestock show.

# TAU BETA PI

The main function of Tau Beta Pi is to elect eligible members to the society, recognized as the nation's leading engineering honor society by President Kennedy on the occasion of the 57th national convention. To be eligible for election, one must be in the upper one-eighth of his junior class or upper one-fifth of his senior class. Women are not eligible but may be awarded the "Women's Badge" in recognition of outstanding achievement.

Annually an award is given to the outstanding freshman in the engineering curricula based primarily upon his academic average.

Buzz Foote this year won first place in national competition in an essay contest sponsored by the national organization. With a pledge essay on conformity, he won the local contest within the chapter and then won over 33 other essays.

In 1962 George Zuidema, Colonel of the Corps, was awarded one of eight to ten annual fellowships presented by Tau Beta Pi to graduates of engineering colleges. For that purpose, he is now studying civil engineering at the graduate school of Georgia Tech.

## SASH AND SABER SOCIETY

The Sash and Saber Honorary Military Society was formed at V. P. I. There were six charter members: C. B. Dix, R. G. Durkovic, R. G. Hermann, K. H. Johnson, C. R. Schindler, L. Zagar. The faculty advisor is Captain Van Deusen.

The society was developed with the purpose to provide organization among those cadets who have shown leadership and interest in the Corps of Cadets. The society limits its membership to "military only" cadets of the junior and senior classes, who are exempt from the ROTC program at Tech.

## SIGMA GAMMA EPSILON

The membership of Sigma Gamma Epsilon is composed of students in the earth-science curriculums. It is devoted to upholding the high standards of scholarship in all of the earth-science curriculums. These earth-science curriculums are: mining engineering, metallurgical engineering, geology and ceramic engineering.

## SIGMA GAMMA TAU

Sigma Gamma Tau is the National Aerospace Engineering Honor Society. It was founded at Purdue University in 1953 to recognize and honor those individuals in the field of aeronautics who have, through scholarship, integrity, or outstanding achievement, been a credit to the profession.

## XI SIGMA PI

In November of 1961, Phi Sigma Xi, Forestry Honorary Society at V. P. I., petitioned Xi Sigma Pi Fraternity for a charter authorizing establishment of a chapter of the National Fraternity at V. P. I.

This charter was granted and Phi Sigma Xi was taken into the National Fraternity as the Chi Chapter of Xi Sigma Pi on October 26, 1962.

Chi Chapter, in cooperation with the Alumni Association, plans to frame a large map and to show by means of pennants where our alumni members are located. This map will be placed in the lobby of Price Hall.

## THE NEWMAN CLUB

Composed only of students of the Catholic faith, the Newman Club exists to deepen the spiritual and enrich the

temporal lives of the Catholic students by a balanced program of religious, educational and social activities.

### V. P. I. HILLEL COUNSELORSHIP

The V.P.I. Hillel Counselorship is devoted to instilling the Jewish student with a greater appreciation of his religion. This goal is approached in weekly meetings, sabbath services and various other social and cultural programs for the expression of the student's interest.

*SEATED: Douglas H. Rothenberg, President; Barry S. Rindler, S. Wayne Stiefel, Secretary; Ivan M. Platnick, Treasurer; Martin D. Fink. STANDING: Stephen J. Rappaport, Mark S. Savelling, Stephen A. Brandt, Gary E. Blanken, Charles B. Colton, Paul J. Kay.*

## Y. M. C. A.—Y. W. C. A.

The Y.M.C.A.-Y.W.C.A. is made up of students, faculty or friends of V.P.I. who are members of an evangelical church or accept Jesus Christ as He is offered in the Holy Scriptures as God and Saviour. The organization seeks to understand the will of God and strives to realize it both in personal living and in working toward a just society, through faith in Christ, and in the fellowship of the Christian Church.

The Virginia Tech Y.M.C.A. is responsible for Y.M.C.A. Freshman Camp and the Freshman Council. In conjunction with the Y.W.C.A., Religious Emphasis Week, Y-Chapel Services, the Danforth Study Seminars are held. It also sponsors a Travel Board in the S.A.B., keeps a file of available lodgings for students' dates and visitors, and participates in the annual Hollins Retreat.

## CHRISTIAN SCIENCE ORGANIZATION

The Christian Science Association exists to afford the college community an opportunity to learn the truth about Christian Science, to welcome those in the college interested in Christian Science, to represent Christian Science fairly on the college campus, and to cooperate with other student and college groups in inter-religious interest and activity.

Active members are faculty or students who are members of the Mother Church, The First Church of Christ, Scientist, in Boston, Mass. Associate members are those on the campus who are not members of the Mother Church, but who are interested in learning more about Christian Science.

## LUTHERAN STUDENT ASSOCIATION

One of the Basic purposes of the Lutheran Student Association is to afford a means whereby its members may deepen and express their Christian faith; and to carry this faith, as confessed by the Lutheran Church, into the encumbral ventures of the student world. To this end we plan regular dinner-program meetings which provide many hours of fel-

lowship and an opportunity to make new friends and acquaintances of the same faith.

We welcome students from all branches of the Lutheran Church, as well as those of other faiths who wish to worship with us.

The main purpose of the V.P.I. Student Chapter of the A.S.C.E. is to enable the civil engineering student to enrich his college career through contacts with the professional civil-engineering field. The student gains a professional awareness with the aid of lecture, symposiums, field trips, and conferences of the professional society and other student chapters.

The chapter promotes a closer and better student-faculty relation through activities which are of mutual interest to both groups.

The chapter was chartered in 1922 and is one of the oldest student chapters in the nation. Membership is open to all students in the Civil Engineering curriculum.

# SOCIETY OF MECHANICAL ENGINEERS

Chartered on January 3, 1915, the Virginia Tech Chapter of the American Society of Mechanical Engineers is the oldest student section in the South.

The purpose of this Society is the presentation of the proper perspective of engineering work and the promotion of professional awareness and fellowship.

Included in the activities of the Student Section are in-

dustrial inspection trips, technical speech competition, regional conferences, symposiums, active participation in the annual engineering conference and other college activities. There are regularly scheduled meetings of the Student Section consisting of speeches, discussions, and movies.

All students enrolled in Mechanical Engineering are eligible to join the Student Section and are encouraged to participate in the activities of the Society.

## ASSOCIATED GENERAL CONTRACTORS OF AMERICA

Guest speakers and symposiums help to bring professional men of the construction industry into contact with the AGC members. In so doing, the AGC members can develop a better understanding of the construction field.

One of three in the nation, the V.P.I. student chapter of the AGC helps to prepare Building Construction students for the professional field of construction. This club was chartered in 1924.

## AMERICAN INSTITUTE OF INDUSTRIAL ENGINEERS

The A.I.I.E., composed of those interested in industrial engineering students, exposes the student to practical industrial application through speakers. Also the chapter offers the student a chance for development in leadership and through social activities.

The Va. Tech chapter was the first chapter in the southeastern area to host an area student conference. All schools in the southeastern area having I.E. departments attended.

## AMERICAN SOCIETY OF AGRICULTURAL ENGINEERS

The purpose of the A.S.A.E. is to promote the interests and fellowship of the students in Agricultural Engineering.

Our society contains honorary and associate members. To

become a member one must be enrolled in the Agricultural Engineering Curriculum, as well as be an active participator in club projects.

## AMERICAN INSTITUTE OF ARCHITECTS

The main purpose of the Student Chapter of A.I.A. is to bring to the student of architecture a closer realization of activities of the profession through the activities of the state

and national A.I.A. and to bring members of the profession as guest critics and lecturers. Membership is composed of all classes in architecture and architectural engineering.

## AMERICAN INSTITUTE OF CHEMICAL ENGINEERS

The A.I.Ch.E. is a student chapter of the National American Institute of Chemical Engineers. A graduate in chemical engineering may join this national organization to meet other people in his field and to help him keep abreast with the current events in his field. Members are introduced to a career in industry through speakers, films and field trips.

The V.P.I. chapter has won second place in the exhibit display in the annual Engineering Conference at V.P.I. for the past two years. A member of the local chapter holds the office of Treasurer of the Southern Region of American Institute of Chemical Engineers.

## AMERICAN CERAMIC SOCIETY

The society was established to keep abreast of new developments in the field of ceramics. Meetings are held monthly and either a speaker or a film is the program. Most of the speakers are faculty members in related fields that apply to

ceramics. Field trips to nearby industries are also undertaken by the society. The branch on campus is a member of a nation-wide organization and receives all literature from the national headquarters.

## AMERICAN SOCIETY FOR METALS

The American Society for Metals chapter at VPI consists of undergraduate and graduate students enrolled in Metallurgical Engineering. Faculty members and members from local metal industries complete the membership.

The purpose of the chapter is to promote the arts and sciences connected with the manufacture and treatment of metals.

## NAVAL ARCHITECTS AND MARINE ENGINEERS

The Society of Naval Architects and Marine Engineers was established to promote interest in and exchange knowledges of the sciences associated with shipbuilding. The membership is composed of all persons enrolled in naval architecture and marine engineering or related fields who are interested in

shipbuilding. The students are benefited by becoming better acquainted with the personnel and methods used in the shipbuilding industry and with other students studying the sciences connected with shipbuilding.

*Shank, Fred Whipple, M. F. Ellmore, Thomas H. Hammond, Jane R. Pierson, G. C. Graf, David M. Lawson, J. Samuel Silver, James L. Stamp, Paul M. Reeves.*

## AMERICAN DAIRY SCIENCE ASSOCIATION

The dairy-science students first organized a dairy club in 1921. In 1933 they became a member of the American Dairy Science Association and have always placed high in recognition programs sponsored by the A.D.S.A.

Club activities include the dairy career day, a cheese sale,

a club trip, the dairy show, and the publication of a dairy annual consisting of between 60 and 70 pages with a circulation of approximately 500 issues.

The aim of the club is to bring the members closer to the dairy industry in the state.

## AGRICULTURAL ECONOMICS CLUB

The purpose of the Agricultural Economics Club is to foster interest in agricultural economics, to develop fellowship among the students in the curriculum, and to promote a better professional bond between students and faculty.

*SEATED: Roger Littlefield, Aslie Saunders, Secretary; Emmett Spiers, Vice-President; William C. Shiflet. STANDING: Samuel G. Sturt, Reynoldson B. Zehmer, James G. Yager, President; Thomas B. Cleaton, Reporter; Jimmy Lawson, Treasurer; George I. Jones.*

## THE ACCOUNTING SOCIETY

The purpose of the Accounting Society is to promote fellowship among members, to learn more about the accounting profession, and to promote an understanding of and an

interest in accounting.

Membership is composed of students in the senior accounting class.

## AMERICAN ROADBUILDERS ASSOCIATION

In order to accomplish its objectives of promoting and encouraging student interest in the highway-engineering field, the American Road Builders Association each year brings many movies dealing with the many and varied aspects of the highway field and also outstanding speakers to the campus for the interest and entertainment of its members.

*SEATED: Michael P. Rucher, Vice-President; John A. Lessley, Secretary; Lester M. Safriet, Jr., President. Richard B. Rountree, Treasurer. STANDING: Abbas Nayabi, Marshall W. Nay, John R. Bradner, Laurence W. Akers, Thomas F. Butler, Jr., Robert W. Farris, Owen K. Smith.*

## AMERICAN INSTITUTE OF PHYSICS

The V.P.I. student section of this national organization was formed in 1961 as an outgrowth of the existing physics club. The immediate purpose of this section is the furtherance of the study of physics. Films, lectures, and tours are

scheduled to inform the students of current problems and activities in this field.

In addition, a spirit of understanding and cooperation between the faculty and the students is promoted through social events held during the year.

## HOLDEN GEOLOGICAL SOCIETY

The purpose of the Holden Geological Society is to promote more professional understanding between student geologists and their geology instructors; to discuss and to become familiar with phases of geologic science beyond the scope of classroom instruction; and to foster among the members a desire for high scholastic and scientific achievement.

Membership consists of all students majoring in geology

or geophysics at V.P.I., all geology faculty members, and other persons who, after careful consideration and majority vote of the society, were found to possess standards and objectives commensurate with those of the society, and whose participation in the society's activities would be mutually beneficial.

*FIRST ROW: R. L. Jackson, President; R. E. Francis, Jr., Vice-President; C. T. Rightmire, Secretary; R. T. Pritchard, Secretary. SECOND ROW: J. A. Pritchard, J. R. Fisher, J. R. Murphy, T. J. Jeffries, C. H. Martin, Jr., J. W. Webb.*

## HORTICULTURE CLUB

The Horticulture Club, a long-standing club at V.P.I., has for many years attempted to enlighten the people of Virginia as to the activities and functions of V.P.I. and the agriculture college. This year as a civic project, the Horticulture Club is donating the landscaping of Camp Easter Seal. The club also sponsors the annual football mum sales at the homecoming game.

The Horticulture Club won first place in the 1962 Agriculture Exposition, placed a display in the State Fair, and won fourteen out of eighteen places in the Flower Judging Contest.

*SEATED: Mary Anna Minogue, Secretary; Robert M. Means, President; Charles Mullins, Treasurer; Sara Hale. STANDING: James Kambourian, James E. Davis Joseph Vaska, III. SECOND ROW: William J. Phillips Jr., David E. Laird, Jr., Thomas G. Finney, Jr.*

## INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS

The AIEE-IRE, American Institute of Electrical Engineers-Institute of Radio Engineers this year became the Institute of Electrical and Electronic Engineers. Participation in events such as the Homecoming Float Contest and the Tech Festival gave the students an opportunity to work creatively together.

Guest speakers from various branches of industry were scheduled regularly to give talks and demonstrations which acquainted the student with the latest advances in research and production.

*FIRST ROW: Ralph R. Wright, Otten K. Trench, Jim Smith, J. R. Batchelor, Doug Drumheller, William J. Caine, Frederick W. Whitaker, Carroll G. Dudley. SECOND ROW: Ben F. Fairfax, Gene H. ## POULTRY SCIENCE CLUB

The purpose of the Poultry Science Club is to promote interest in all fields of Poultry Science and social relationships between the staff and the students.

The membership is composed of Poultry students, Poultry staff, and those who are interested in Poultry Science.

## DISTRIBUTIVE EDUCATION CLUB

The purpose of the D. E. Club is to train future teachers of D. E., to develop leadership, to promote scholarship, to encourage recreational and educational activities, to encour-

age cooperative effort among Va. Tech D. E. Students, and to promote respect for the vocation of the teacher-coordinator of distributive education.

## CO-OPERATIVE ENGINEERING SOCIETY

The society was founded to promote public interest in the cooperative program, to act as a liaison between the administration and the co-op students, and to aid freshman co-op students.

The members are the students at V. P. I. enrolled in the

co-op program at the present time. The program includes the following curricula: Aerospace Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Engineering Mechanics, Mechanical Engineering, Metallurgical Engineering, and Physics.

*FIRST ROW: Michael Owen Greene, Robert F. Disney, Ronald L. Barker, Robert A. Wright, Alfred H. Franz. SECOND ROW: Albert F. Zirkle, David Finkleman, Cordelia A. Bennetch, Richard K. Scholz,*

## PHI BETA LAMDA

The Gamma Iota Chapter of Phi Beta Lambda is composed of students enrolled in the School of Business who desire to supplement their academic education through direct contact with elements of the modern business community.

Currently, Gamma Iota is the leading chapter in the State

of Virginia. It sent two contestants to the national convention to represent the State in national business contests. The Tech chapter received recognition from the national office for organizing a competitive chapter-rating system which may be adopted on the national level.

## FOOTBALL

Having led an almost all-sophomore and junior team, Jerry Claiborne was able to finish the season with five wins and five losses.

Upon completion of his second year as head coach, Claiborne once again displayed fine coaching and leadership.

Tech fans can look forward to a bright season next year when Claiborne coaches this same team for their second year together.

# THE GRIDIRON

A combination of injuries to both coach and players aided in Gobbler miscues, holding Tech to a five-and-five season.

Tech's Gene Breene was injured early in the opener against William and Mary, and the all-conference tackle had to be taken out. An Indian field goal in the final period broke the stalemate and was the game's only score.

Two quick touchdowns by GW in the first period were not enough to contain Tech as the Gobblers exploded in the second period with a 53-yard kickoff return by Sonny Utz setting up the Gobblers' first touchdown and subsequent two-point conversion. In the closing moments of the first half, an 80-yard Tech drive was climaxed by a 19-yard pass to Tommy Edwards who made a spectacular end-zone catch. Aster Sizemore's conversion proved to be the margin of victory as the second half was a bitter defensive struggle.

In the Tobacco Bowl, West Virginia scored twice in the first half and managed to kill any Gobbler offensive. Individually the Gobblers played well, but collectively they couldn't come up with a play that would penetrate the Mountaineers' defense.

In spite of being the underdog against U. Va., Tech was able to rise above the dire forecast and keep a perfect record of Harvest Bowl victories.

In the Homecoming game against Richmond, Tech scored in the final period to break a 7-7 deadlock and managed to kill the clock for a hard-fought victory.

Quarterback Bob Schweickert played his first complete game against Tulane as he led Tech to victory by scoring twice himself and passed for another score.

At West Point, the "Black Knights of the Hudson" shackled Tech's running game and used a margin of two fumbles to overcome the Gobblers' passing attack.

The defensively tough Seminoles of FSU overcame the shock of an early Tech touchdown and battled back to defeat Tech—holding the Gobblers to their one touchdown.

The high point of the season was the overwhelming victory over Wake Forest in which Schweickert passed for two touchdowns and climaxed the game with a record-smashing 96-yard touchdown run.

The annual Thanksgiving Game with archival VMI was a battle of fumbles, with the Gobblers contributing more than their share while VMI capitalized on them.

## 1962 BASKETBALL

The 1962-63 basketball season began with a new coach and a new record. Tech's new head coach Bill Matthews' first game was a victory over Kentucky, who was third in the nation; it was the first time Kentucky had been beaten in their home opening game.

After wins over William & Mary and Richmond, the Hokies overcame fifth-ranked Mississippi State, and Tech was off to what seemed national ratings.

Then came the stumbling blocks. A loss to Vanderbilt in a fruitless overtime was followed by losses to Georgia Tech and Rice in the Gator Bowl Tournament at Jacksonville, Fla.

After these losses, Tech's playing was erratic. Furman ended Tech's 41-game winning streak at home, with West Virginia and Wake Forest adding to Tech's defeats at home.

Tech's biggest assets in scoring were usually Howard Pardue, Lee Melear, and Frankie Alvis, with Barry Benfield and Bobby Vicars aiding the cause when the rest of the team was not up to par.

With a high-scoring, large, and fast freshman team, the prospects are bright for a great season next year.

A very tough schedule made the going rough at times, but all considered, a very young team with only two seniors reacted well to the tough competition and came through in many instances when defeat seemed almost certain.

The Southern Conference Meet was perhaps our best as the competition was very experienced. The Techmen carried off a respectable third place, beating teams that had beaten and tied them in the regular season.

## SWIMMING

At press time the swimming team's record stood at one win and four losses. Although the season has been a disappointment to the team, individual merit cannot be overlooked. Team Captain Tommy Tomlinson was able to break the pool record at West Virginia in the 200-yard butterfly, along with Bob Buie who broke the pool record for the 200-yard orthodox breaststroke. Tech's diver, Ron Phares, thus far has taken first place in three meets.

Tech's 1962 baseball record was 12 wins and 6 losses. Pacing the hitting for Tech were Dee Dalrymple and Eddie Hite with .330 and .300 batting averages, respectively.

Tech lost only two seniors due to graduation (Eddie Hite and Gee Gee Dix), and should have a good team this spring as ten lettermen return to action.

Lee Melear and Sam Jenkins will probably be the leading

pitchers since both made the All-Southern Conference second team last year.

The main trouble last season was the club's hitting, which is hoped to be improved this season as the schedule includes twenty-four games with a quarter-break trip to the University of Alabama.

## WRESTLING

This year Tech wrestlers swept the Southern Conference Tournament, winning four individual championships, and becoming the first team in S-C history to win four consecutive championships.

It was hoped that this year's team would be even stronger, but a host of injuries and the death of one of its champions, Towney Smith, weakened the team. With good luck, instead of bad, next year's season holds a lot of promise.

DR. JAMES W. DEAN

Since coming to V. P. I., Dr. Dean has gained the respect and the admiration of both faculty and students. Dr. Dean is a man of keen insight and perception and no problem is too small or too large to take to him. He is a friend to each student.

## DIRECTOR OF STUDENT AFFAIRS

Dr. Dean came to V. P. I. in 1959. He came with a wide background of association with colleges and college students. He attended the University of Pittsburgh, Grove City College, Bucknell University, and Pennsylvania State University, obtaining a Ph.D. from the latter. During World War II, he was a major in the China theatre with the famed "Flying Tigers." Among his awards are the Silver Star, five Distinguished Flying Crosses, five Air Medals, and two Purple Hearts. He has worked with students at Bucknell University, Penn State University, and Coe College, and was Assistant Manager of the Westinghouse Educational Center in Pittsburgh.

## STUDENT DORMITORY COUNSELORS

The Residence Counselling program at V. P. I. provides students with the guidance required to meet the problems of college life and exerts a great effort to deepen the bond between the individual, his environment, and all of the other facets of a vast, growing university. Each counselor is responsible for seeing that the interest of both the school and the student are rightly directed towards each other. The program itself grows each year in both manpower and scope as it seeks to meet the needs of those whom it serves, the students.

## CIVILIAN STUDENT BODY

The Civilian Student Body Senate is composed of students interested in improving the academic and general welfare of the entire student body by representing the civilian students.

Senators are elected by dormitories in the fall. One Senator is elected for every 100 civilian students. This year there are 35 Senators.

The function of the Senate is to serve as the legislative body of the Civilian Student Body Government. It is concerned with a variety of problems, from dining hall difficulties to unrealistic decisions of the Board of Visitors.

# SENATE

The principle goal of the Senate this year has been the establishment of a policy of self-government for the students. The first step towards this goal was taken during winter quarter with the initiation of an amendment to make the C. S. B. Constitution self-amending. Since then the Civilian Student Officers and Senators have worked hard to take advantage of this amendment by getting new and greater responsibilities for many student organizations.

# ASSOCIATION OF MARRIED STUDENTS

The association of married students is an organization which in many ways is unique to the Tech campus. Organized at Tech in 1935, the goal of AMS is to provide for the social needs of the married students and their families. This goal is attained through the quarterly dances and banquets held for the membership at large and through the classes and socials of the wives' group where in the wives become acquainted and integrated into the college community.

The club has grown to be the largest student organization on campus and certainly one of the most active. The AMS will continue in the effort to provide quality entertainment for the Va. Tech married student and his family.

## THE COMMANDANT

Marion William Schewe was born at Marshack, Nebraska, on May 16, 1906. He was graduated in 1929 from the University of Nebraska as a bachelor of arts and received a master of arts degree from the Colorado State College of Education in 1937.

He was commissioned a second lieutenant in the United States Army Reserve upon graduation from the University of Nebraska and was called to active duty from Denver, Colorado, in December 1940 as a captain.

Following study at The Infantry School, Fort Benning, Georgia, he was assigned to the Infantry Replacement Training Center, Camp Wheeler, Georgia. In May, 1943, he joined the cadre of the 63rd Infantry Division as executive officer of the 253rd Infantry Regiment. He remained with that unit until the end of the war, becoming regimental commander.

After the war, General Schewe was assigned to US Forces, European Theatre, in Paris, France. He returned to the United States in February, 1946, and was assigned to the Troop Information and Education Division, Department of the Army. In 1947, he attended the Armed Forces staff College. Following graduation in April, 1948, he served as G-3 Executive Officer (operations) in the Far East.

He next assumed command of the 31st Infantry Regiment, 7th Infantry Division, returning to the United States in July, 1950, to attend the Army War College.

Upon graduation, General Schewe was assigned to G-3 (Operations), Department of the Army, returning to Europe in July, 1954, as Chief of Staff, 4th Infantry Division.

In August, 1955, he became Chief of Staff, V Corps, U. S. Army, Europe. The following month he was promoted to the rank of brigadier general.

In January, 1956, General Schewe assumed the duties of deputy post commander of Fort Polk, Louisiana, maintaining in this position until May, 1957.

In May, 1957, he was transferred to the Far East and appointed special assistant to the Acting Chief of Staff, Army Forces Far East and Eighth Army. He was subsequently named Deputy Chief of Staff for Plans and Operations, Headquarters Eighth Army, and occupied this position until November, 1958.

On 12 November, 1958, General Schewe assumed command of the U. S. Army Garrison, Fort Polk, Louisiana, remaining there until June, 1959, at which time he was reassigned to the Department of the Army General Staff in Washington and assumed the duties of Deputy Assistant Chief of Staff for Reserve Components. On 1 July, 1961 General Schewe assumed the duties of Commandant of Cadets at Virginia Polytechnic Institute, Blacksburg, Virginia, as a retired Army Brigadier General.

## CORPS OF CADETS

Virginia Polytechnic Institute, one of the seven essentially military colleges remaining in the United States, takes pride in its Corps of Cadets. The objective of the Corps is to contribute to the general educational development of its members by helping prepare them to take their places as useful citizens of their country. It has been producing outstanding Armed Forces officers since 1872.

The Cadet Corps, now numbering some 2300, is a self-governing organization. Its Senate, Honor Court, and Executive Committee work diligently toward the betterment of the Corps and V. P. I.

With the V. P. I. motto—"That We May Serve"—ever before it, the Virginia Tech Corps of Cadets aspires to continue its contributions to the unique and rich heritage of V. P. I.

## CADET HONOR COURT

The Cadet Honor Court, while complex in organization, was instituted by the students at V. P. L. to uphold the basic principles of Honor under which each student must abide. It is based upon the common belief that "No gentleman will lie, cheat, or steal. Every cadet is a gentleman." The Cadet Honor Court is simply an administrative function designed to uphold our Honor Code, nothing more. Its main objective is to keep the Honor Code before the student at all times so that he will not succumb to temptation.

The Virginia Polytechnic Institute Pershing Rifles, Company C-15, is a National Honorary Military Society and one of the most respected on our campus. Its qualifications include a high scholastic average and a high degree of military proficiency in addition to outstanding drill and leadership abilities. Its purpose is to recognize those individuals in basic ROTC who have met the above qualifications.

In the past, the Pershing Rifles' many accomplishments have included six first-place finishes in the Apple Blossom Festival in Winchester, Virginia, participation in the past two presidential inaugural parades, numerous first-place awards at the Regimental Drill meets at College Park, Maryland, and

for the past several years, as escorts for the Tobacco Festival queens and princesses at the National Tobacco Festival in Richmond, Virginia.

They performed at the Harvest Bowl game in Roanoke, the Homecoming festivities, the Wake Forest game, the Tobacco Bowl in Richmond, and the Thanksgiving day game with V. M. I. in Roanoke. Their performances were mostly pre-game ceremonies consisting of traditional trick drill manuals and special sequences originated by the V. P. I. Pershing Rifles alone. In every case both types of movements were combined to present a breathtaking performance of dignified, precision drill.

A black and white photograph of a large, multi-story stone building, likely a university hall. The building features Gothic-style architecture with tall, narrow windows, some with pointed arches and tracery. A central entrance is visible, flanked by stone pillars. In the foreground, a vintage car from the late 1940s or early 1950s is parked on a street. The sky is overcast. The word "Underclassmen" is written in a large, white, cursive script across the bottom of the image.

We are the Junior Class. Truly, there have been many changes at V. P. I. in our brief stay here, but even more important have been the changes in us as individuals. Here we have sought and found answers to the questions of inquiring minds; these questions have gradually matured and probed deeper into the mysteries and marvels of man—his God, his world, and his life. This in itself has made V. P. I., her leaders and her students, respected in today's technological and highly competitive world.

Now we are fast approaching the status of seniors—a seemingly distant and intangible goal. May we always be capable, not only as seniors, but as American citizens, to be a lasting credit to ourselves, our school, our predecessors, and those Techmen yet to come.

F. DAVID MAGILL  
*President*

## *Poly-Scientific Corporation Offers Challenge . . .*

*in Science . . .*

*in Engineering . . .*

*in Manufacturing and  
in Management . . .*

People have few limitations when it is the objective of management to see that they are enthusiastically inspired, intelligently oriented, and thoroughly trained. This is true of Poly-Scientific and its people.

We believe these elements have not only secured for our company a position of leadership but will provide limitless opportunity for the future.

Executive Vice President,  
General Manager

# Paper and Careers *for the future*

TODAY there are more than 100,000 different uses for paper . . . and the search for new uses never ends. That is why this fast-growing industry is now the fifth largest in the country . . . and why it needs trained researchers and technicians for future growth.

Our company, a pioneer kraft manufacturer, joins with other mills in sponsoring college scholarships in paper technology. It also offers scholarships for study in a subject of the student's choice. For information, write: Public Relations Department —

## MEN OF PROGRESS

"The men most sought after today are those who have the qualities of self-reliance, courage, resourcefulness and independence of judgment that all through history have distinguished superior men from their inferiors. Business needs the contributions of men who can escape the bonds of conformity to recognize new problems and offer fresh solutions. What is progress but successful adaptation to new problems and opportunities?"

## THE MOON... and beyond!

Bright, new horizons await today's students . . . new technologies . . . new medicines . . . even the moon and whatever lies beyond.

How far today's students go in this space age depends partly on their imagination but primarily on their training. Conquering new horizons will demand more of today's graduates — more knowledge, more skills, more training and more specialization.

Our Free Enterprise system, with its high living standards, gives everyone an opportunity to "shoot for the moon" in any field. Whether or not our target is reached depends on how well trained we are to launch ourselves.

## ***A Memorable Year***

•

• Congratulations to the Student Body and Faculty of VIRGINIA TECH upon the completion of another outstanding year of accomplishments.

• The Staff of your annual has worked exceedingly hard to give you a superb book that portrays the highlights of memorable activities. To preserve this excellent literary and photographic record, the best grades of material have been combined with skilled workmanship to provide the finest quality yearbook.

• We are very proud that the 1963 Staff selected us to design, print and bind the BUGLE. We have earnestly endeavored to fulfill the confidence placed in us.
