

Open Access and republication of data from *Arthropod Management Tests*

As of Jan. 1, 2015, *Arthropod Management Tests* became a fully open access journal. Authors should note that this does not prevent them from reusing data published in *AMT* in a future paper in a peer-reviewed journal. Because *AMT* is published open access, no permission is required to republish data or reuse tables previously published in *AMT* in a peer-reviewed journal article; the author must simply cite the original *AMT* paper as the source of the data or table.

If an author wishes to reuse tables from *AMT* in a commercially published book, he or she should contact the Oxford University Press Permissions team at journals.permissions@oup.com.
