FROM: Virginia Tech Institutional Review Board (FWA00000572, expires October 29, 2024)

PROTOCOL TITLE: Measuring the Usability of Multi-Modal Displays in Autonomous Vehicles

IRB NUMBER: 19-088

The Virginia Tech Human Research Protection Program (HRPP), has reviewed your COVID-19 Resumption of HSR plan and determined that the plan is acceptable. You can now implement your plan and resume your in-person Human Subjects Research activities.

Please remember to provide all research participants with:

1. A copy of the COVID-19 Consent Addendum and obtain signatures. Please retain a copy for your research records.
2. A lay language version of the COVID-19 Risk Mitigation Plan.

Any minor changes to your mitigation plan will NOT need to be submitted to the HRPP for review. If you need to make substantial changes that are inconsistent with recommendations or guidance released by the university, state, or other or other authorized entity please re-submit a new plan for review.
