

**Figure 58.** Southern analysis of genomic DNA for the DdRPA2 gene. Genomic DNA was digested by: lane 1: *Acc* I; lane 2: *Bam*H I; lane 3: *Cla* I; lane 4: *Eco*R I; lane 5: *Hind* III; lane 6: *Kpn* I; lane 7: *Pst* I; lane 8: *Sal* I; lane 9: *Xho* I. The probe was *clr5* (sense) <--->*clr6* (antisense) PCR fragment.
