Mission of ARPAS

The American Registry of Professional Animal Scientists (ARPAS) provides certification of animal scientists through examination, continuing education, and commitment to a code of ethics, and disseminates applied scientific information through publication of a peer-reviewed journal.

Dear Jacquelyn Prestegaard-Wilson

Applied Animal Science grants you nonexclusive permission to use the article(s) listed below in your thesis, provided that appropriate credit is given to the original publication in the journal. Authors typically use a statement along the lines of “Used by permission of the American Registry of Professional Animal Scientists” and include identifying citation information; the DOI is included for this purpose. The journal acknowledges that your dissertation may be deposited into a repository and requires that a link to each original journal article is included and that the articles will not be sold or displayed separately from the dissertation.

Alternatively, if you access your article at this site:

You can click on the “Get rights and content” link above the abstract and obtain the rights to reuse the article.

Best regards,

Laura Esterman
AAS Managing Editor
