EERI Permission Clearance Form

Date: 10/25/2022

To: Kaleigh Yost
19 Patton Hall, 750 Drillfield Drive
Blacksburg, VA 24060

E-mail: kmyost@vt.edu

Permission is granted to Kaleigh Yost to use the following items for the research paper “Improving CPT-Based Earthquake Liquefaction Hazard Assessment at Challenging Soil Sites” by Kaleigh Yost, et al.

Author must include the full citation of the source document and credit the Earthquake Engineering Research Institute with permission to reproduce.

Permission is granted on a one-time basis for print and electronic use by:

Heidi Tremayne
Executive Director
Earthquake Engineering Research Institute
Federal ID no. 94-6082215
Requesting permissions for reprinting EERI material in PhD thesis

**EERI Admin** <eeri@eeri.org>  
**To:** Kaleigh Yost <kmyost@vt.edu>  
**Cc:** Maggie Ortiz-Millan <maggie@eeri.org>, Elizabeth Angell <Elizabeth@eeri.org>  

**Tue, Oct 4, 2022 at 5:23 PM**

Hi Kaleigh,

Thank you for reaching out! You do not require our permission for the 12NCEE paper, as per our agreement, you retain rights over the paper. We only hold permission to publish the paper as part of 12NCEE and on our website as part of the proceedings.

Regarding the monograph, all of our permissions are one-time use. I believe that if you are citing the same figure again, you will still need to obtain permission. If you are simply citing your own previous work, I am not sure. I've looped in Maggie and Elizabeth, who may be able to assist with this.

Maggie or Elizabeth, could you please weigh in on this?

Thank you,

Ethan W

Hello,

I am finishing up my PhD thesis at Virginia Tech and need to include some content I have previously published with EERI. I have some questions regarding copyright permissions that I’m hoping you can help me with!

First, I would like to include my 12NCEE paper as an appendix. The citation is:  

Second, I will be including an ASCE Journal of Geotechnical and Geoenvironmental Engineering (JGGE) paper in my thesis. My coauthors and I have previously obtained copyright permissions from EERI to reprint a figure from the 2008 Idriss & Boulanger EERI monograph (Figure 56a from Idriss, I.M., and Boulanger, R.W. (2008). “Soil Liquefaction during Earthquakes,” Monograph MNO-12) within this JGGE paper. Do I need to re-obtain permissions from EERI in order for this figure to be re-printed (within the context of the JGGE paper) within my thesis? The required permissions to reprint the JGGE paper will of course be requested from ASCE, but I am unsure about the reprinting specifically of the Monograph MNO-12 figure.

If either of these require copyright permissions through EERI, could we please initiate that process?

Thanks so much for your help!

Kaleigh

Question re: reprinting ASCE material in a thesis

Kaleigh Yost <kmyost@vt.edu>  To: PERMISSIONS <permissions@asce.org>  Sat, Oct 8, 2022 at 11:28 AM

Great, thanks for the clarification!

On Fri, Oct 7, 2022 at 1:56 PM PERMISSIONS <permissions@asce.org> wrote:

No, you do not need to submit a CCC request. You are good to go, provided you it does not account for more than 25% of the new work.

Regards,
Leslie

Subject: Re: Question re: reprinting ASCE material in a thesis

You don't often get email from kmyost@vt.edu. Learn why this is important

Dear Ms. Connelly,

Thank you for your reply. Just so I'm clear, do I still need to submit a request through the Copyright Clearance Center?

Kaleigh

On Mon, Oct 3, 2022 at 7:28 PM PERMISSIONS <permissions@asce.org> wrote:

Dear Ms. Yost,

Thank you for your inquiry. As an original author of an ASCE journal article or proceedings paper, you are permitted to reuse your own content (including figures and tables) for another ASCE or non-ASCE publication (including your dissertation), provided it does not account for more than 25% of the new work.

A full credit line must be added to the material being reprinted. For reuse in non-ASCE publications, add the words "With permission from ASCE" to your source citation. For Intranet posting, add the following additional notice: "This material may be downloaded for personal use only. Any other use requires prior permission of the American Society of Civil Engineers. This material may be found at [URL/link of abstract in the ASCE Library or Civil Engineering Database]."
Each license is unique, covering only the terms and conditions specified in it. Even if you have obtained a license for certain ASCE copyrighted content, you will need to obtain another license if you plan to reuse that content outside the terms of the existing license. For example: If you already have a license to reuse a figure in a journal, you still need a new license to use the same figure in a magazine. You need a separate license for each edition.

For more information on how an author may reuse their own material, please view: http://ascelibrary.org/page/informationforasceauthorsreusingyourownmaterial

Sincerely,

Leslie Connelly

You don’t often get email from kmyost@vt.edu. Learn why this is important

Hello,

I am finishing up my PhD thesis and am planning to include 2 of my previous ASCE publications as chapters. I am unclear on whether I need to submit permissions requests through the CCC Marketplace to include these papers within my thesis, and am hoping you can help me understand what process I need to follow.

There is one conference paper, and one JGGE paper:

https://ascelibrary.org/doi/10.1061/9780784483428.033

Thank you very much for your help!
