FEATURES

Our Purpose..

Unlimited opportunity for students exists here at Virginia Tech. Our purpose is to illustrate this Tech Opportunity in an interesting and informative yearbook.

We have chosen six of our most outstanding alumni to represent success in each of the divisions of this book. By their messages and accomplishments we wish to show how it is possible for any student, with the desire to work and strive for the best, to grasp this opportunity and use it as a springboard to success in life. When a person comes to Tech as a student, he can choose from many things both curricular and otherwise and go forward to great things in his chosen field. It is up to the student to select his goal and then utilize the many opportunities which V. P. I. offers as a means of achieving that goal.

It is with this thought in mind that we present to you this yearbook with its theme of "Opportunity at Virginia Tech."

VA. TECH

We Dedicate

WE have chosen the dedication for THE 1952 BUGLE in conjunction with our aforementioned purpose.

We did not single out one person to honor, but instead we felt that we should recognize ALL Technicians who have profited and will continue to profit from their attendance at this institution.

It is with great pleasure that we dedicate this, THE 1952 BUGLE, to the endless number of Alumni, Students, and Future Students of Virginia Polytechnic Institute who have taken and will take advantage of the Tech Opportunity as a means of achieving success in their chosen fields of endeavor.

To The Students

To many of us the immediate future may appear dark and confused. The very old conflict between the East and the West has been brought into sharp relief in Korea. On our side there is an interrelation between faith, hope and democracy. On the other side there is atheism, despair, and totalitarianism.

It is our hope that through your experiences here in your classes, your participation in clubs, sports, and other activities, including your religious life, you have gained some more definite concept of what is involved in our American way of life and our responsibility to maintain and improve it. If this objective has been achieved, the future is not too dark. The struggle between the East and the West will continue, but faith, hope, and free men are on our side.

Many V. P. I. men and women have helped to make our country economically strong and great. In many other respects most of you will have an even greater opportunity—that of helping to bring about peace and understanding among the nations and peoples of the world.

A Message...

TO THOSE WHO ASPIRE:

Memories of V. P. I. for me are memories of teachers and classmates, books and the campus. But strongest of all are my memories of teachers.

The warmth of their welcome on the day I first rode from Christiansburg through the scenic countryside to Blacksburg, set the feeling which carried through my years at V. P. I.

This friendliness which began with the teachers, extended through the student body and pervaded the whole town of Blacksburg. The thought that I still have close and understanding friends in Blacksburg remains today, through memories of the beautiful campus, of long walks in the country to Brush mountain, to Tom's creek, Lovers Leap, the Horseshoe Bend of New River, and old Kanodes Mill. The rigid but fair military discipline under which we lived seems in retrospect to have helped us adjust to the world after graduation.

Middleburg, Va.

Second Lieutenant, Battery K; Treasurer I.F.C. Club, '05-'06; President, Agriculture Club, '06-'07; Assistant Business Manager, Boyle, '06-'07.

To represent the classes we have chosen Dr. E. B. Fred who is President of one of the largest colleges in this country. His memories of V. P. I. and his views on education serve to emphasize the importance of the many little things which go to make up the complete college career. These things are all part of the great opportunity offered to students of Virginia Tech.

I took from V. P. I. some ideas on education which have stood the test of years. Let me list a few of them:

Higher education points the way; real education is the product of a life-time of study.

As his education increases, the responsibilities an individual must accept, increase.

Only when he is constantly learning can a teacher adequately teach.

The good teacher opens the student's mind; he does not cram it.

Academic freedom is the freedom of the student to learn.

The student must know as a friend and counsellor several members of the faculty.

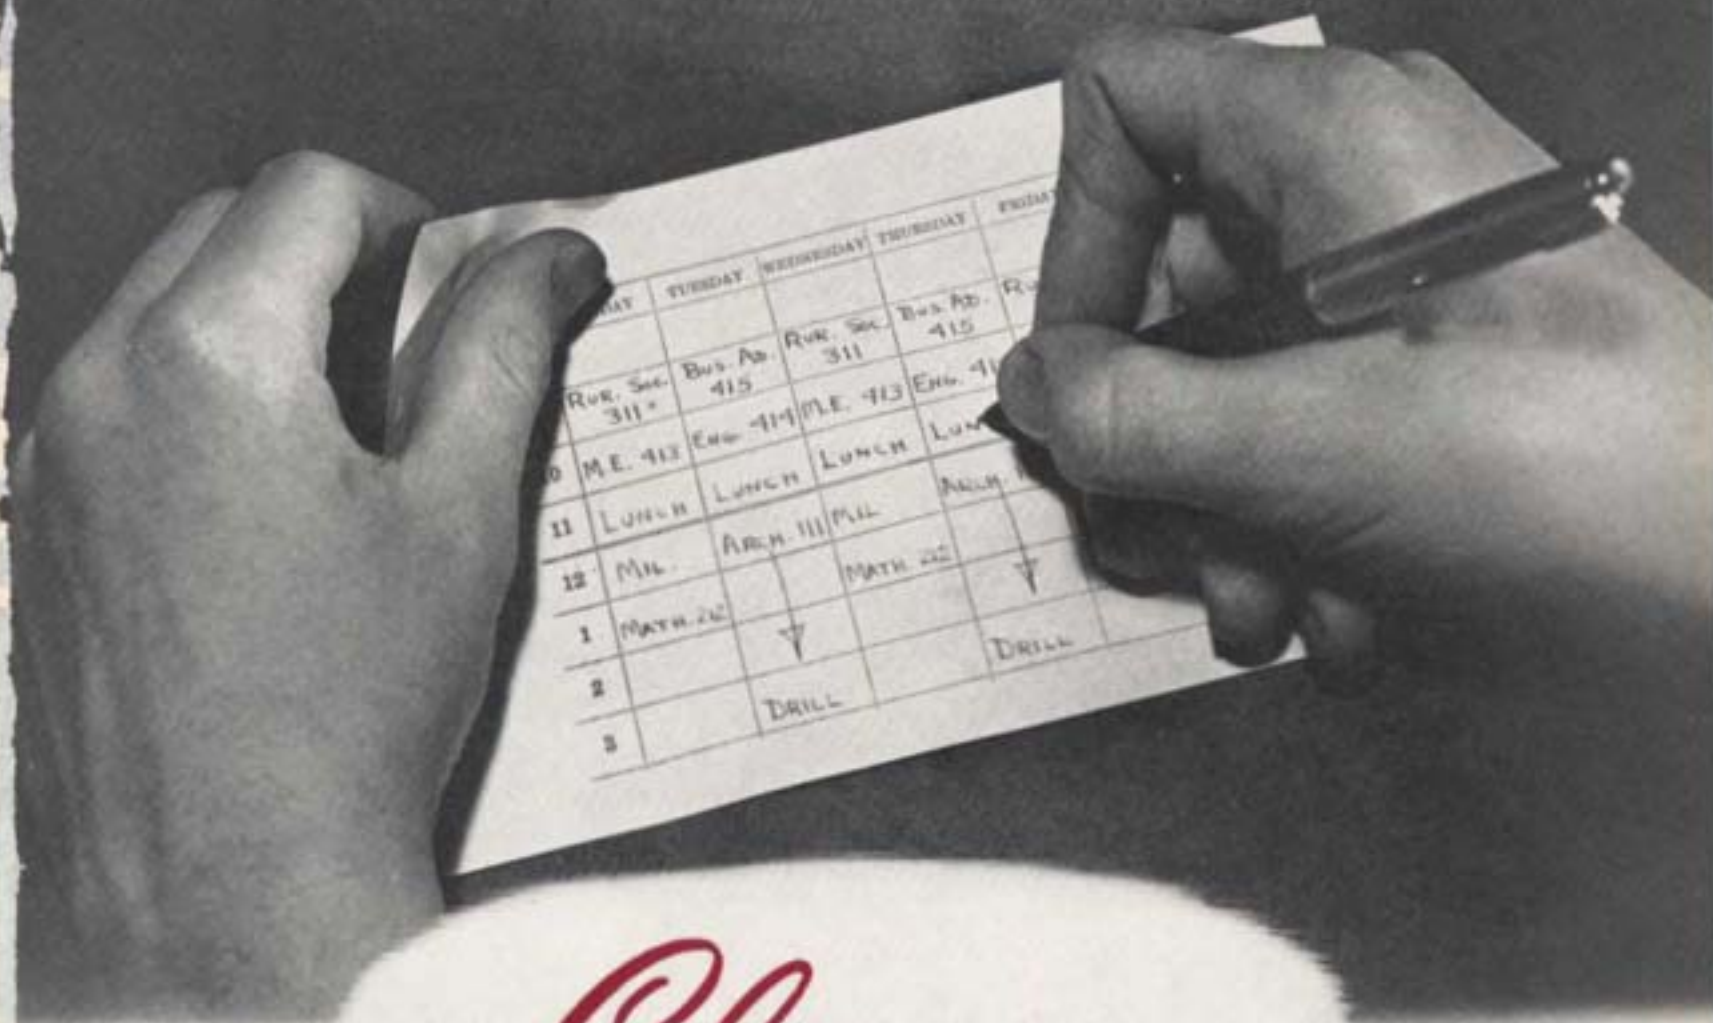

Perhaps this final point, friendship of teacher and student, is my most cherished memory of V. P. I.

A Message...

TO THOSE WHO ASPIRE:

If there is any one single factor more important than another in determining the future of America, it is our educational system.

Our alma mater is a case in point. V. P. I. is but one of many American institutes of education. Yet for nearly four score years a brilliant procession of distinguished men and women have gone forth from the academic calm of our campus to win success in all fields of human endeavor. How many industries, how many great agricultural ventures, how many scientific advances, how many projects of engineering genius, how many social institutes—yes, and how many battalions and regiments—have received their guidance and their inspiration from those who have been graduated from Virginia Polytechnic Institute!

For the future—even more than for the past—the state, the nation, the world will offer great opportunities for those

General Lewis Fick was chosen to represent alumni in the field of military because of the high position he has attained in being Chief of the United States Army Engineers. He has exhibited exceptional leadership qualities which place him among the outstanding military leaders of our country. During his rise to the top he has carried with him those things which he learned while a student at V. P. I.

who have been trained to know and to think; to solve problems by means of ideas; to profit consciously from past experiences, and to be guided not alone by the immediate and the material but also by intelligent and unselfish purpose—*Ut Prosim*, "That I may do good."

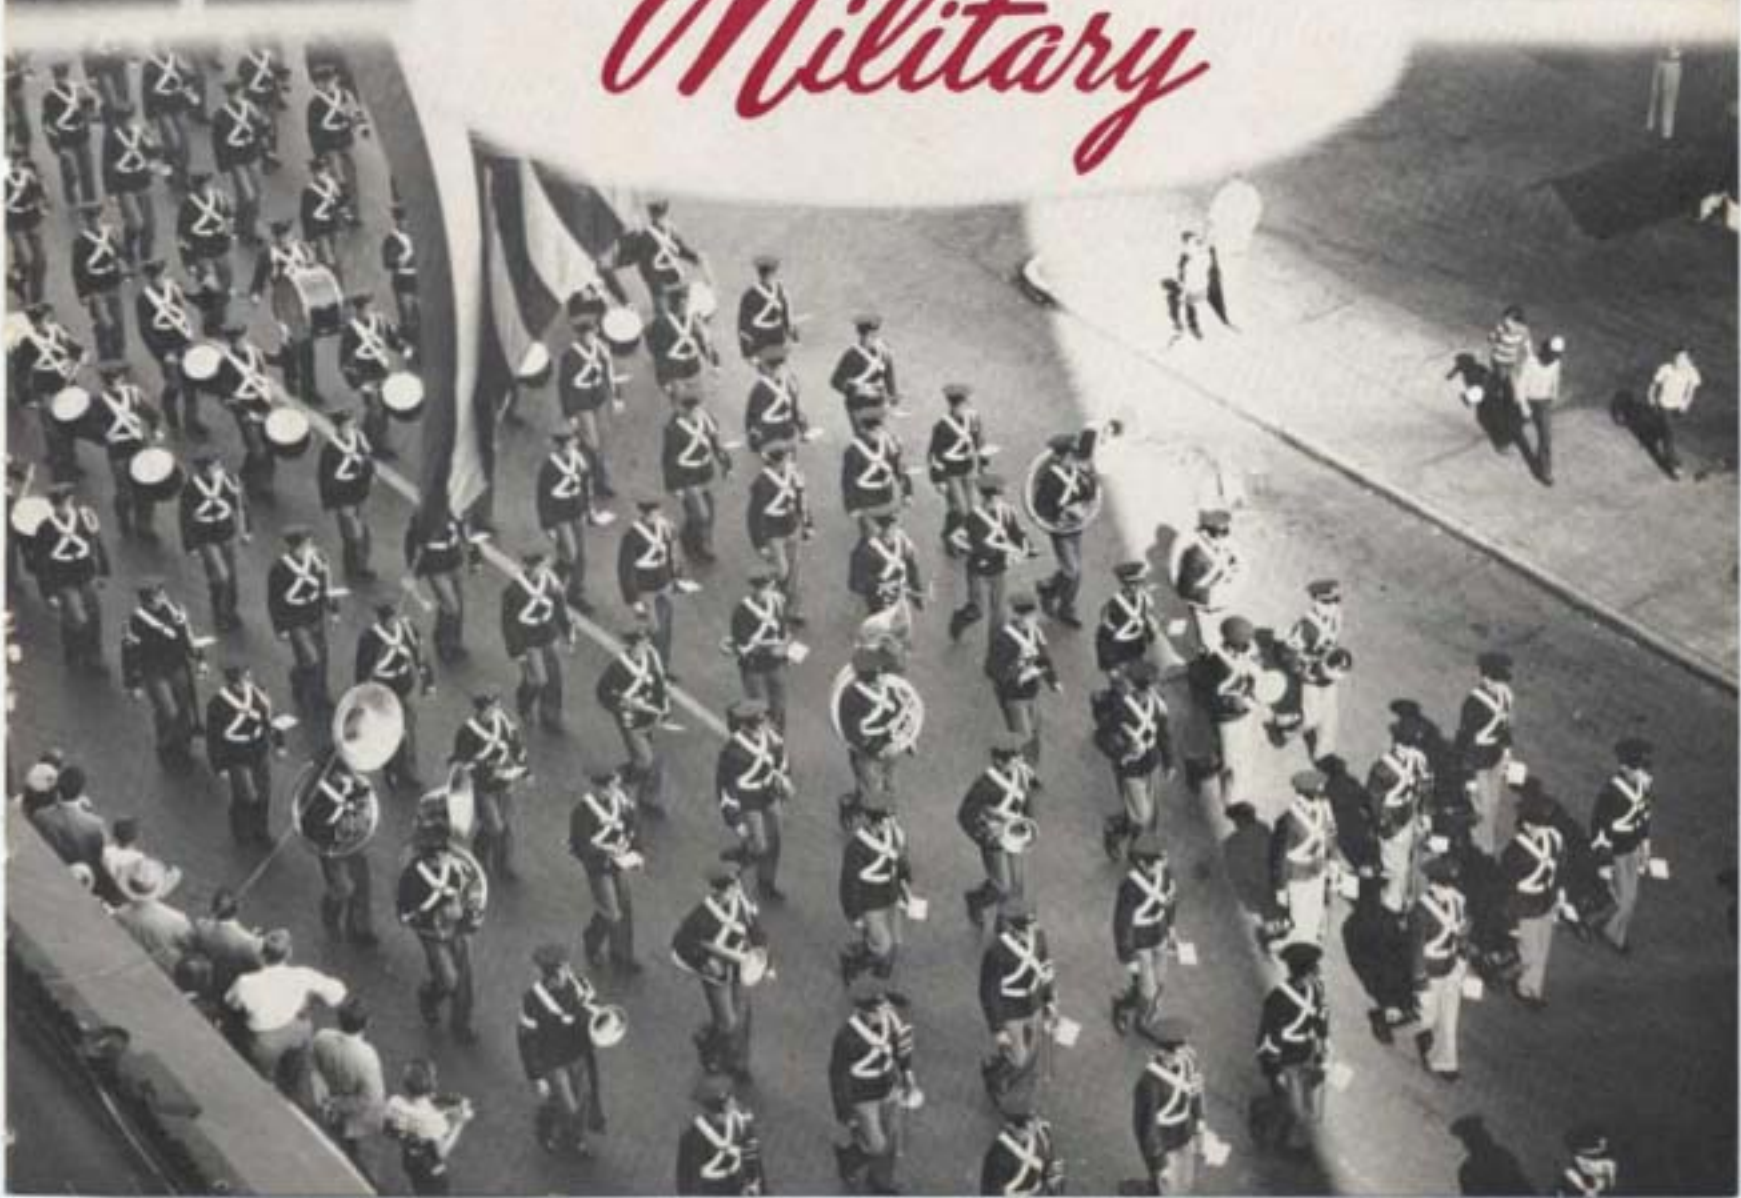

The men and women of V. P. I. will always make the grade outside, if they have made the most of the opportunities of their undergraduate years, because they will be well trained to make decisions, to act, and to execute the skills required for action. These attributes, coupled with a will to work, are the rock-bottom foundation of success and of leadership in any field of future endeavor.

To The Corps

The Corps members of the Class of 1952 will soon leave V. P. I. As they prepare to do so they must remember that they are not leaving the Corps. The Corps consists not only of the members of the four undergraduate classes in residence. It includes also the thousands of cadets—many of them now passed on—who have graduated in all the years since the college was established in 1872.

As you of the Class of 1952 follow in their footsteps, you must be guided as they were by the code of life, the principles, and the lessons you learned from your life as a cadet. That code, those principles, and those lessons have helped them solve the problems with which they have been faced as leaders in industry, in business, in agriculture, and in the armed forces of our country. They will help you too to do your part in solving the even more serious and more difficult problems with which you and the world are faced today.

We of the Military Department feel that you are ready to face those problems and we wish you success in doing so.

The Society of American Military Engineers was organized to advance the science of military engineering, and to foster a better spirit of cooperation between military and civilian engineers in an effort to provide a reserve of trained personnel from which to draw in time of war. Each year in recognition of his outstanding achievements, an ROTC student of the Corps of Engineers is awarded a medal by the National Society. Important parts of the functions are discussions, visiting speakers, and films made available from the Department of the Army Film Library.

The Regimental Staff, for the year 1951-52, has taken great pride in working with the members of the Virginia Polytechnic Institute Corps of Cadets. We feel that whatever accomplishments we have made are due only to the cooperation and interest shown by the men with whom we have worked.

The staff, commanded by David M. Rainey (better known as "Ram-rod") has been ably assisted by: D. Gene "Bubble" Sutherland, the senate fireball; Dan W. "Back-em-back" Cheatham, who thrills all hogs within thirty miles; W. Phillips "Twinch" Brown, who knows all, hears all, and sees all; Kenneth L. "One Beer" Motley, still proving to Nancy that "German" is best; John M. "Gimme-more-stripes" Eliff, still on the trail of that missing rifle; and Sam T. "Leaflets-on-VMI" Isaac, with a law-book in each hand.

The Corps Today - - -

Since the close of the Second World War the Corps of Cadets has been faced with the very difficult task of regaining its prewar position. Today the Corps boasts sixteen hundred cadets, composing fifteen companies and the Band.

True, the Korean War has thinned our ranks considerably. We have seen many friends and buddies leave the Corps to serve our country, some of whom will never again be running out of the barracks in time for minute call at Retreat. But we are sure we shall always see one thing here at V. P. I., and that is a proud Corps of Cadets. For the Corps of Cadets IS V. P. I. The two cannot be separated, and they will grow larger and better together as the Corps continues to turn out outstanding young officers and men for our country.

The V. P. I. Cadet Regimental Band returned to dear old number one barracks this year where it all began some years ago. To most of us it was just a shack, but after a few weeks and several gallons of paint it turned out as a real "Home In The Corps".

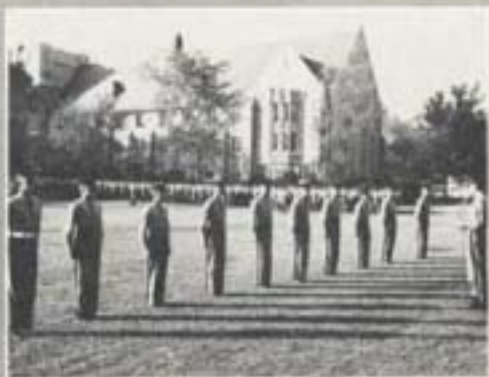

Some of the major accomplishments throughout the year, along with leading the Corps and cheering the football team, were trips to Alexandria, Norfolk (Oyster Bowl Game), Winchester (Apple Blossom Festival), and other concerts throughout the state.

This has been one of the most successful years in a long line of great Highty Tightly Bands at V. P. I. It is with thought in mind that we bring our college career to a close with a "Highty Tightly"

We, Colonel Hansrote's chain gang, composed of five highly-blitzed, stainless steel links bid adieu to our college days with a sigh of relief, (completed staff work). Yet the links of fellowship and hard work that bound this chain together will always remain as memories of our last year at old V. P. I.

The big link was Commander, Larry "Coach" Hansrote; followed by Executive officer, Landon "Buy a Bugle" Short; and Adjutant "Romco" Roger Gray. Supply Officer, J. B. "Zebra" Holland and Sergeant Major R. Q. "Married Man" Williams were the two links that completed the chain.

It was certainly a pleasure to work with the five excellent A. F. Squadrons, composing the First Battalion, commonly known as "groosoup", and we appreciate their cooperation in upholding the standards of A. F. R. O. T. C. We hope that future staffs will derive as much experience and pleasure from their duties as we have from ours.

"Firstest with the mostest", is "A" Company, the oldest Company in the Corps, and the best Company in the eyes of all those who are, or ever have been in, "The Pride of the Corps". This year has been one of continued success in academic, military, social, and athletic work for all the men in "A" Squadron.

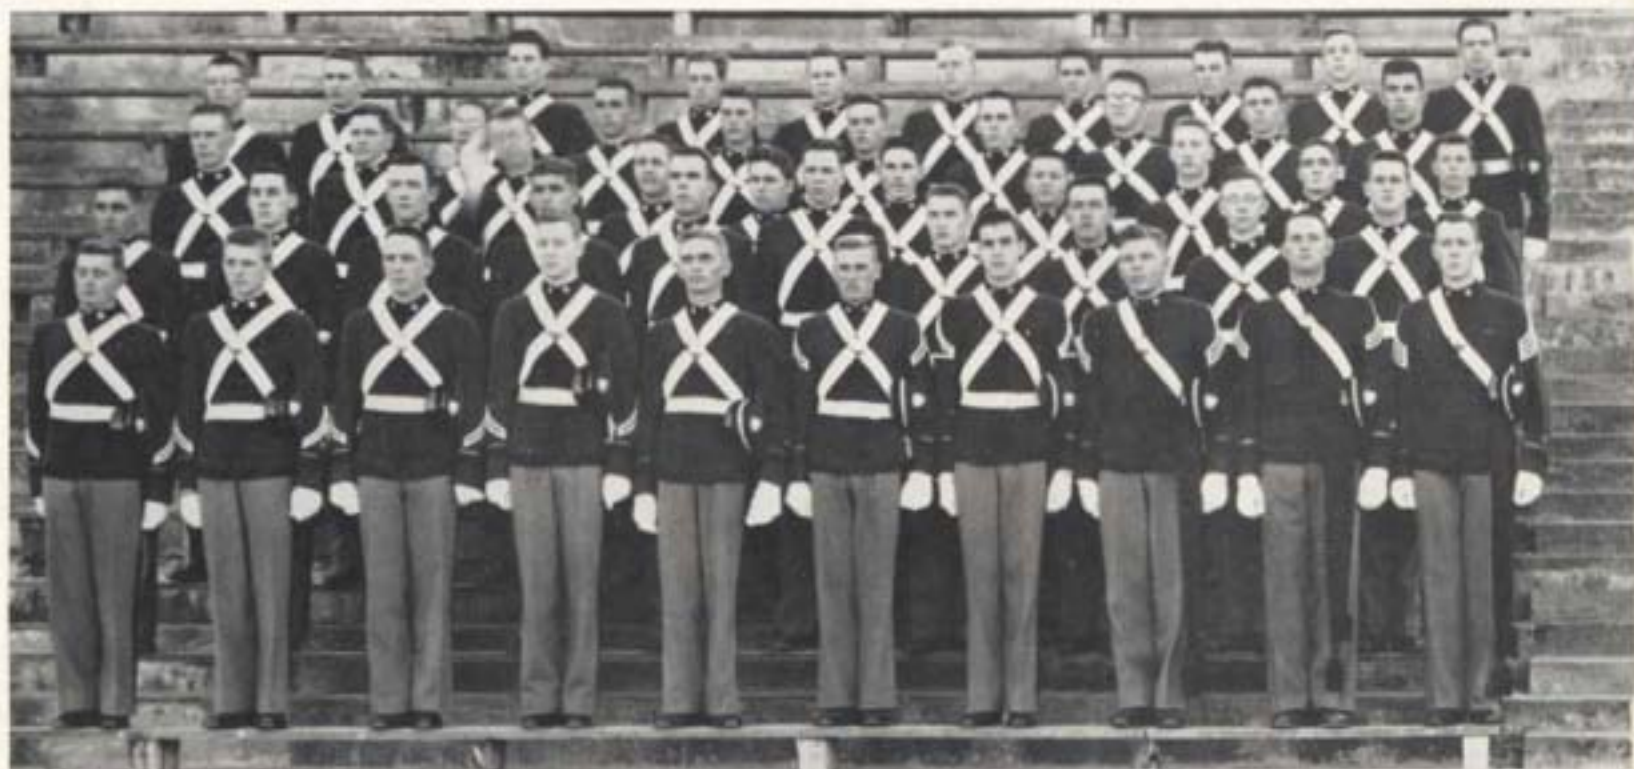

During the past five years "A" Company's teamwork, and winning spirit have won for them three battalion Citation Cords, and the Kohler Cup. As the year closes the men of "A" agree that we had the best Company Captain in the Corps, Walter Smith, and a peerless staff of Senior Officers.

We will always remember our Company, its Officers, and the words of an old "A" Company man, the late Captain Lloyd W. Williams, "Retreat, Hell! ! We just got here."

Under the guiding hand of our captain, "JP" Rector, we, the men of Company B have set a pace and record in the Corps of Cadets that has kept other companies constantly on the alert. We have forged the way for others and have undertaken many projects which were only to be copied by our rivals. We are proud, however, to be the leaders and to have these many followers, for by doing so we have made a contribution towards the Corps of Cadets at V. P. I.

We wish to leave one thought with our successors. We have proved that a company can be run strictly, sternly, and forcefully, and still have spirit, fun, and happiness.

"B" Company's captain, John "fall in the lake" Rector, believes in military and fun, each in its own place. The first lieutenant is D. R. S. "the little monster" Peters who is definitely too much in love (with D. R. S. Peters). The platoon lieutenants are J. D. "red-head" Clendenen, L. T. "just one more" McKimney, and J. W. "the great platoon marcher" Holcomb. Our first sergeant is J. S. "pencil" Deutsch who neglects duty and then has heart trouble. J. W. "no supplies" Way carries the shaft instead of receiving it.

Throughout past vicissitudes, it has been the aim of every Company in the Virginia Tech Cadet Corps to achieve the highest possible level of "Espirit de Corps."

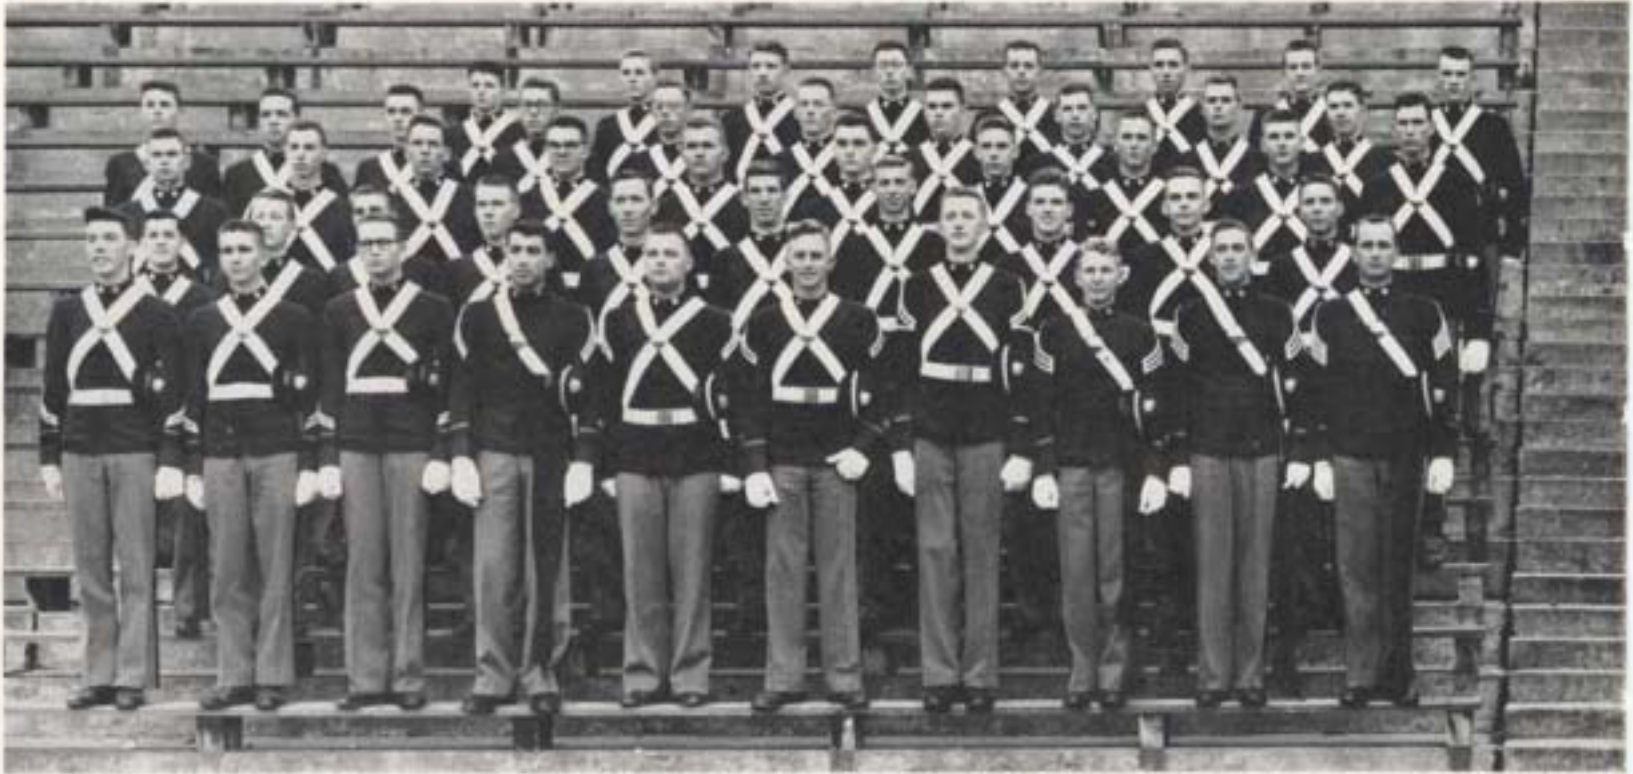

The inspiring leadership of the Cat Company officers linked with the wholehearted cooperation and assistance on the part of the underclassmen has made it possible for the company to live up to the ideals and standards set by their predecessors, and approach their ultimate goal.

"Amazing"—That is the characteristic of our organization in one word. Dubbed by many in the past "The Country Club", D Company this year is doing the unbelievable. To the happy-go-lucky attitude has been added a spirit of determination which is unequalled in the Corps. Every man is working with undying efforts towards the Citation Cord and Kohler Cup. The result: Company D is leaving the rest of the Corps in a cloud of dust.

Newly formed as an air squadron this year, Squadron E has shown cooperation, spirit, and the determination to excel; all of which are characteristics essential to the attainment of our goal—the unit Citation Cord and the corps Kohler Cup.

Squadron E shall long be remembered by the men who have shared in its activities and close fellowship throughout the year.

The Second Battalion Staff has endeavored to make our battalion the best in the Corps. Through interest and cooperation we feel that we have gone a long way in accomplishing this goal. This has been clearly shown by the outstanding performances of the companies of the battalion. Our efforts have been overshadowed by their accomplishments.

Our staff, commonly known around the campus as "Brammer's Q. C. Kids", is composed of four Artillerymen and one outcast from the Ordnance unit. The "kids" are led by "Rabbit" Brammer from Chigger Ridge in the free state of Patrick County, Virginia. The "exec" is "Donkey" Riddick who hails from among the "swamp-rats" of Suffolk, Virginia. From Washington, D. C. comes the staff's only damnyankee, "Schlitz" Ward, the adjutant. Next is our "Rebel" supply officer, "Judge" Tignor, from Atlanta, Georgia. And lastly, the only sane man on the staff, "Lover" Glenn, Sergeant Major, from the Mountain Empire of Virginia.

Since we too will soon be donning the army khaki, we'd like to pay tribute to these our superior officers, who have guided our actions and demerit grades through this our senior year:

Lt. Colonel "Old Corps" Ripley
Major "Eager Ed" Beda
Major "McNo-hair" McNair
Major "Smiley" Myers

The 1952 F Company, holder of the artillery citation cord and the intramural championship of 1951, will endeavor to uphold the honor and prestige of the '51 Company. Under the command of "Chick" Dyson it will strive to add to its collection of trophies the coveted Kohler Cup. It is not the sole purpose of Company F to win material honors, but also to develop a high standard of leadership and comradeship among its men.

The 1952 edition of "G" Company, capably led by "Cap'n Ed" Petty, has its sights set on nothing short of the best. It is the ultimate aim of every man, from the last rat in the rear rank up through the "ole man" himself, to get that citation cord, and at the same time to aid in the development of better citizens and better leaders for tomorrow.

Our motto is "GET IT DONE," and if anybody can do it the Petty boys can!

Company H, comprised of the men who formed last year's Company E, feels proud of the fact that in addition to having a great military organization, we possess more elected Corps officers than any other company.

We have always strived to attain the high standard of leadership and cooperation for which V. P. I. cadets are famous; and in the years to come, we shall be proud to say, "Sure, we were in Company H."

"I" Company has had a very successful year in which all the classes, from the lowly freshman to the highest senior, have cooperated to obtain a common goal. We have worked hard and played hard, and together we have made "I" Company one to be honored and respected throughout the Corps. We hope and believe that "I" Company will continue to maintain itself as a company in which every member has the highest feeling of pride.

Company K is the only Signal Corps company at V. P. I. The unit appeared on the campus for the first time last year and definitely is here to stay.

Many thought that there would not be a large enough enrollment in Signal Corps R. O. T. C. to assure the continuance of the company. In fact, last year the company was padded with twenty-five Artillery cadets to bring it up to full strength. However, the addition of thirty-five new freshmen, all enrolled in the Signal Corps, is a good indication of things to come.

The scarcity of men qualified for such a technical unit as the Signal Corps has made it a privilege to be a member of Company K. The men are proud of their distinction and look forward to a bright future as Signal Corps cadets and Signal Corps officers.

We, the members of the Third Battalion Staff, take much pride in leading the two Engineer Companies, the two Infantry Companies, and the latest addition to our Battalion and the Corps, Company "S", the Athletic Company. Our companies are composed of the ground force soldiers, the men who do the dirty work in combat that wins victories. We feel confident that the fine spirit and hard work displayed here at Tech by them, will shine on as future victories in years to come.

At this time, we wish to express our appreciation to our commissioned and non-commissioned officers for their co-operation in making our Battalion a great success.

This efficient staff, "commanded" by Col. Dick "Webster" Stevens, "executed" by Nick "Nockie" Andre, "agitated" by Mac "Q-ball" Kilgour, "supplied" by Ray "red on the head" Huntington, and "staffed" by Dan "L" "bottomless" Overbey, has again come through with top honors.

In closing this, our Senior year (we're safe now!):
"We wish to give credit where credit is due,

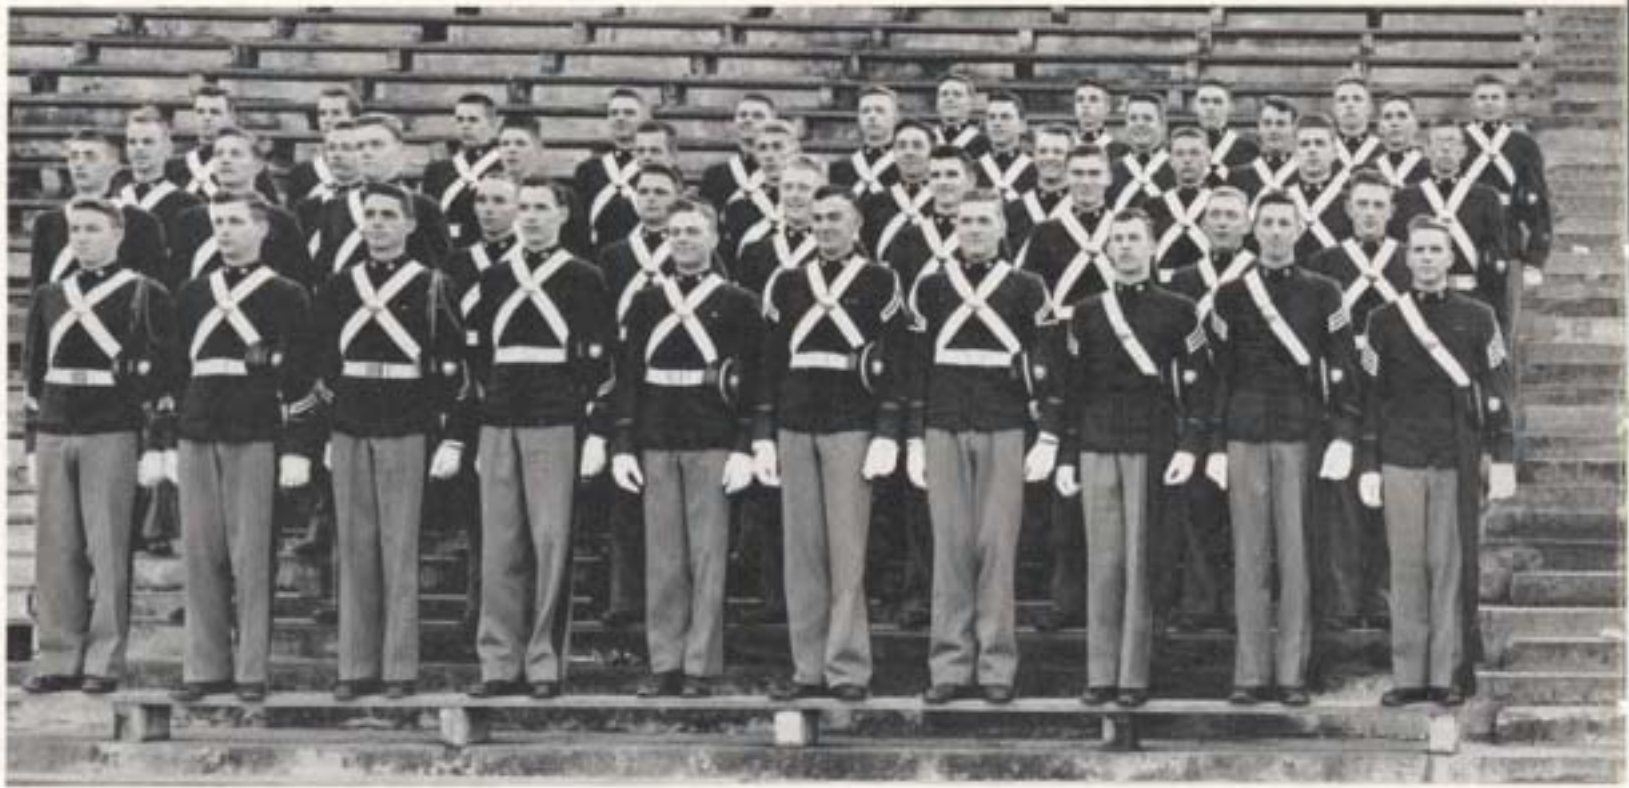

So hats off to the men who have led us through—"

Composed strictly of engineers (thank the Lord), Co. L is rapidly taking its place as the outstanding Company on the campus, envied by all and enviers of none.

Ablly led by Captain "Pook" Urdike, the spirit of cooperation and closeness throughout the year has been the deciding factor that will eventually lead the L Co. Engineers back to the red and white citation cord that they so justly deserve.

During the past the Engineer companies here at V. P. I. have set high standards for the rest of the Corps to follow. Striving forth this year under the capable leadership of Captain Gus W. Dyer, Company M of the Engineers has shown to everyone what high morale, determination, and cooperation can do.

The company has proved its purpose by producing men of high caliber having the outstanding qualities of leadership, fellowship, and character. Yes, they felt cocky, they looked cocky, and they were cocky!

It will be noted by all that the year 1951-52 was one that saw many changes in the Corps of Cadets. The formation of a company to be made up entirely of athletes became a reality. With the opening of school last September, "Sugar" Company made it known to all that it was to be heard from during the year that followed. We think that we have succeeded in this fore-warning.

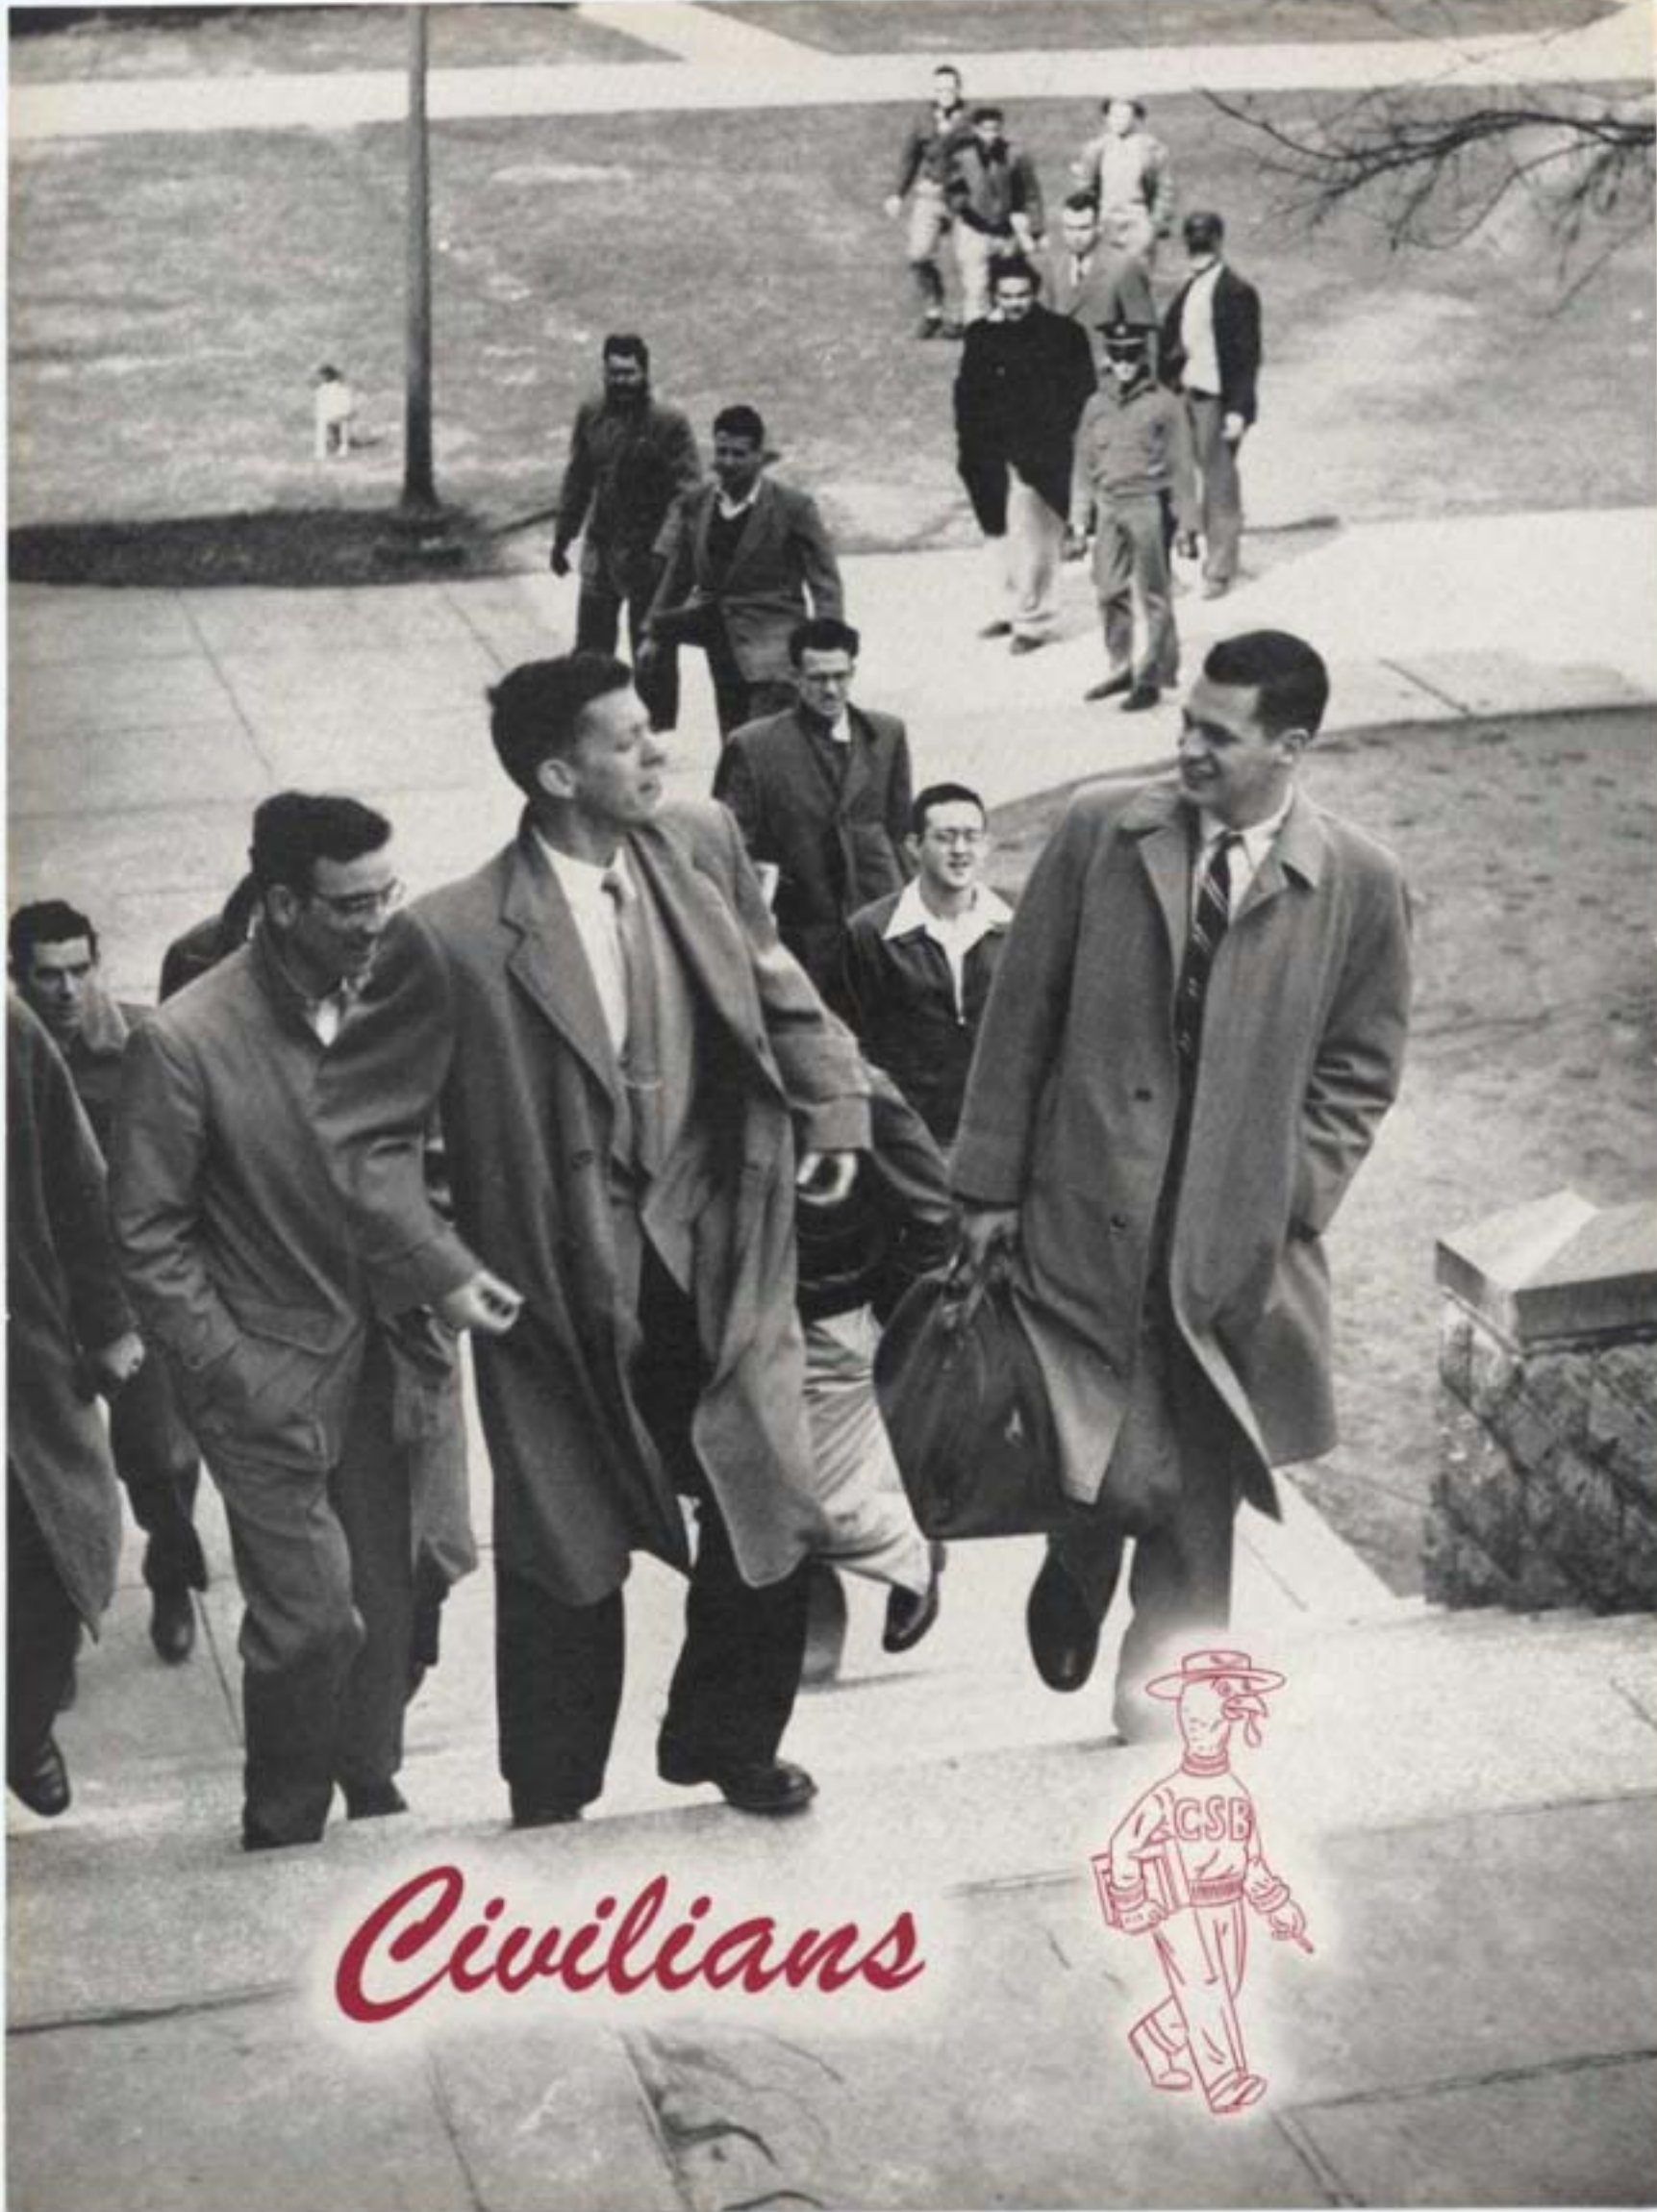

Looking back with pride upon our energetic participation in Corps activities, the credit for a job well done belongs to—not one, but all the men of Company "S". We have learned the meaning of friendship, cooperation, and teamwork. Now as the college year comes to a close, each of us feels justifiably proud of the organization of which he is a member.

Student Life

A college education that is gained almost exclusively from formal academic instruction is woefully incomplete and is wholly inadequate preparation for the later achievement which should be expected of college graduates.

Personality traits which demonstrate stability, leadership, and an ability to get along congenially with one's associates are equally essential. These are developed, primarily, by activities outside of the classroom or laboratory.

Students who, in addition to their academic work, engage in the activities of student government, the Corps of Cadets, student publications, athletics, or curricular, religious, and social organizations are making

the most of their college opportunities. On their own initiative they are developing abilities and acquiring experience in areas of human endeavor which others choose to forego.

They are doing more than that. They are also contributing greatly to the college community by providing services essential to its well-being and occasions for enlightenment and recreation which enhance its richness and breadth.

The students participation in these activities are to be commended for their efforts for self-improvement and are to be thanked heartily for their contributions to student life at V.P.I.

TO THOSE WHO ASPIRE:

The ambitious young man goes to college to increase his stature so that he can see over the heads of the crowd and choose for himself a preferred position in life. At Virginia Polytechnic Institute he will find every necessary facility for making the required growth. The courses offered in the field he has selected will give him the essential grounding. Diligent application to his studies will develop his mind and train him to think, reason, analyze and solve technical problems. But he should not confine his efforts to the classroom. He should welcome opportunities for debate and discussion to the end that he may be able to express his thoughts clearly in speech and

Thompson Brown truly stands at the pinnacle of engineering success as an alumnus. He rose to the position of Vice-President of the DuPont Company and is now a member of the Board of Directors of that company. He has also been active in the V. P. I. Alumni Association having served as President and as a member of the Board of Directors. Success has failed to dim his view of the fact that the opportunities which he took advantage of while at Virginia Tech have helped him to be what he is today.

writing. He should participate in athletics and other campus activities in order that he may come to accept both success and reverses gracefully. He should learn to get along with others and to cooperate with them in any organized attempt to accomplish a purpose. Having built through such a rounded college experience a broad foundation he can stand on it in his chosen field or use it as a stepping stone to other fields if they look greener, assured of reaching his goal.

The wide variety of activities sponsored by the V. P. I. Agricultural Club provides training for each member in leadership, parliamentary law, public speaking, community activities, and cooperation among members and faculty in the school of agriculture. All members are constantly reminded of the latest advances in agriculture through books, magazines, and speakers secured by the club. With an organization designed for the development of the individual, all members upon graduation feel that they are much better equipped to serve their country as agriculturists.

The Dairy Club was organized in the spring quarter of 1921. In the spring of 1938, the club was granted a charter by the American Dairy Science Association and has since been known as the Virginia Tech Chapter of the American Dairy Science Association.

The objectives of the club are: To develop and encourage leadership in the field of dairying; to bring the dairy students closer to the problems in the field of dairying by having educational programs; to promote fellowship among its members; to encourage activity by sponsoring both dairy cattle and dairy products judging teams; and to bring students and dairymen of the State closer together by sponsoring Dairy Day.

The V. P. I. Collegiate Chapter of the Future Farmers of America is an organization which is primarily for those students in Agricultural education, but it also welcomes as members those agricultural students who were formerly F. F. A. Members in high school.

The highlights of last year's work were a fish fry, a Father and Son Field day and banquet, and an F. F. A. annual which was published by the chapter and distributed to each local F. F. A. Chapter in the state.

The Horticultural Club was organized to promote educational and social fellowship among its members, both faculty and students. The club endeavors to stimulate interest by means of exhibits, movies, lectures, discussions, and many other activities. Each year the club makes an award to the outstanding horticulturist in Virginia. The principal event of the year's activities is the Horticulture Show which is presented each fall.

The club is actively supported by the professional and commercial interests in the state.

The American Ceramic Society is a student branch of the national organization. Its purpose is to acquaint the students with the various branches of Ceramic Engineering and to give them a wider knowledge of the problems and opportunities in the field of Ceramics. The society offers the students in Ceramic Engineering an added incentive to develop leadership, scholarship, and the art of working together. The various activities of the society tend to form a closer correlation between the students and their future work in the Ceramic industries.

The V. P. I. Chapter of Student Affiliates of the American Chemical Society, the second oldest in the country, was organized in 1938 to enable students majoring in chemistry to become better acquainted with their field. Guest speakers, motion pictures from different chemical firms, and plant inspection trips, help to further an interest in various aspects of chemistry. Through the Student Affiliate Chapter, chemistry majors are urged to participate in the activities of the American Chemical Society, and they acquire a better understanding of the applications of chemistry in industry.

Membership in the student chapter of the American Institute of Chemical Engineers offers an opportunity for a broader and deeper education in this technical field and for fellowship with students of all classes in this curriculum. This membership also affords an introduction to association with the national society after graduation.

These professional alliances made during student days aid in acquiring the professional attitude necessary to set the pattern for later life.

The society also gives recognition to outstanding students in the chemical engineering field.

The AIMME is an association organized to promote the arts and sciences connected with the mineral industries and to elevate the welfare of those employed in those industries. These purposes are stressed in business meetings through the reading and discussion of professional papers, while greater understanding and friendship are created through social activities of the chapter.

The Student Branch of A. S. A. E. offers the opportunity to its members for leadership development, fellowship among students, and a closer relationship with the faculty. Weekly programs are designed to be of special interest to students who have a desire for the advancement of agriculture through engineering. The club keeps abreast with the latest news in agriculture and especially those current technical topics related to farm power and machinery, soil and water conservation, rural electrification, and farm structures. A. S. A. E. is active in the School of Agriculture as well as in the School of Engineering.

The V. P. I. Student Chapter of A. S. C. E. has a three-fold purpose. First, it seeks to round out the Civil Engineering students' education by acquainting them with topics of engineering interest through talks by competent engineers and through movies and field inspection trips. Second, it offers students and faculty members the opportunity of becoming acquainted. Third, the chapter strives to promote a professional spirit among the students.

All Civil Engineering students are eligible for membership and are urged to join the society.

The Holden Society, an organization of the student geologist, has as its object the promotion of further understanding between the geology students and their geology instructors by the presentation of discussions beyond the scope of classroom instruction. By this contact with additional phases of the geologic sciences, it is hoped that a desire is fostered among the members for a higher scholastic and scientific achievement.

A Message...

TO THOSE WHO ASPIRE:

College athletics were designed to give a student physical and mental training, the appreciation of clean living, the development of a competitive will to succeed, and the development of the spirit of fair play.

High pressure athletics are generally accompanied by evils of competitive recruiting, lowering scholastic standards, requiring an excessive share of the student's time and the outright payment of money for services. These evils have contributed to the present scandals in many sports.

Athletic games must be fun to play. When participation ceases to be fun and becomes grim physical drudgery, many benefits are lost.

The confidence one gains from the possession of physical stamina and the mental attitude to work against odds, and the thrill of winning a hard but cleanly fought game is known only to those who have experienced it and is preserved in their memories.

It is fitting that "Winnie" Legge represent alumni in the field of athletics since he is the only person in the history of V. P. I. to win 16 letters in the four major sports. And more important than being just an athlete he was a true sportsman in all he did. Since graduating he has taught and coached and is now with the State Board of Education. He is active in civic affairs, has served as representative to the Virginia Tech Athletic Council and is on the Board of Directors of the V. P. I. Alumni Association.

The American Ideal, "To compete without hate, to lose and yet smile, to win and still be gracious."

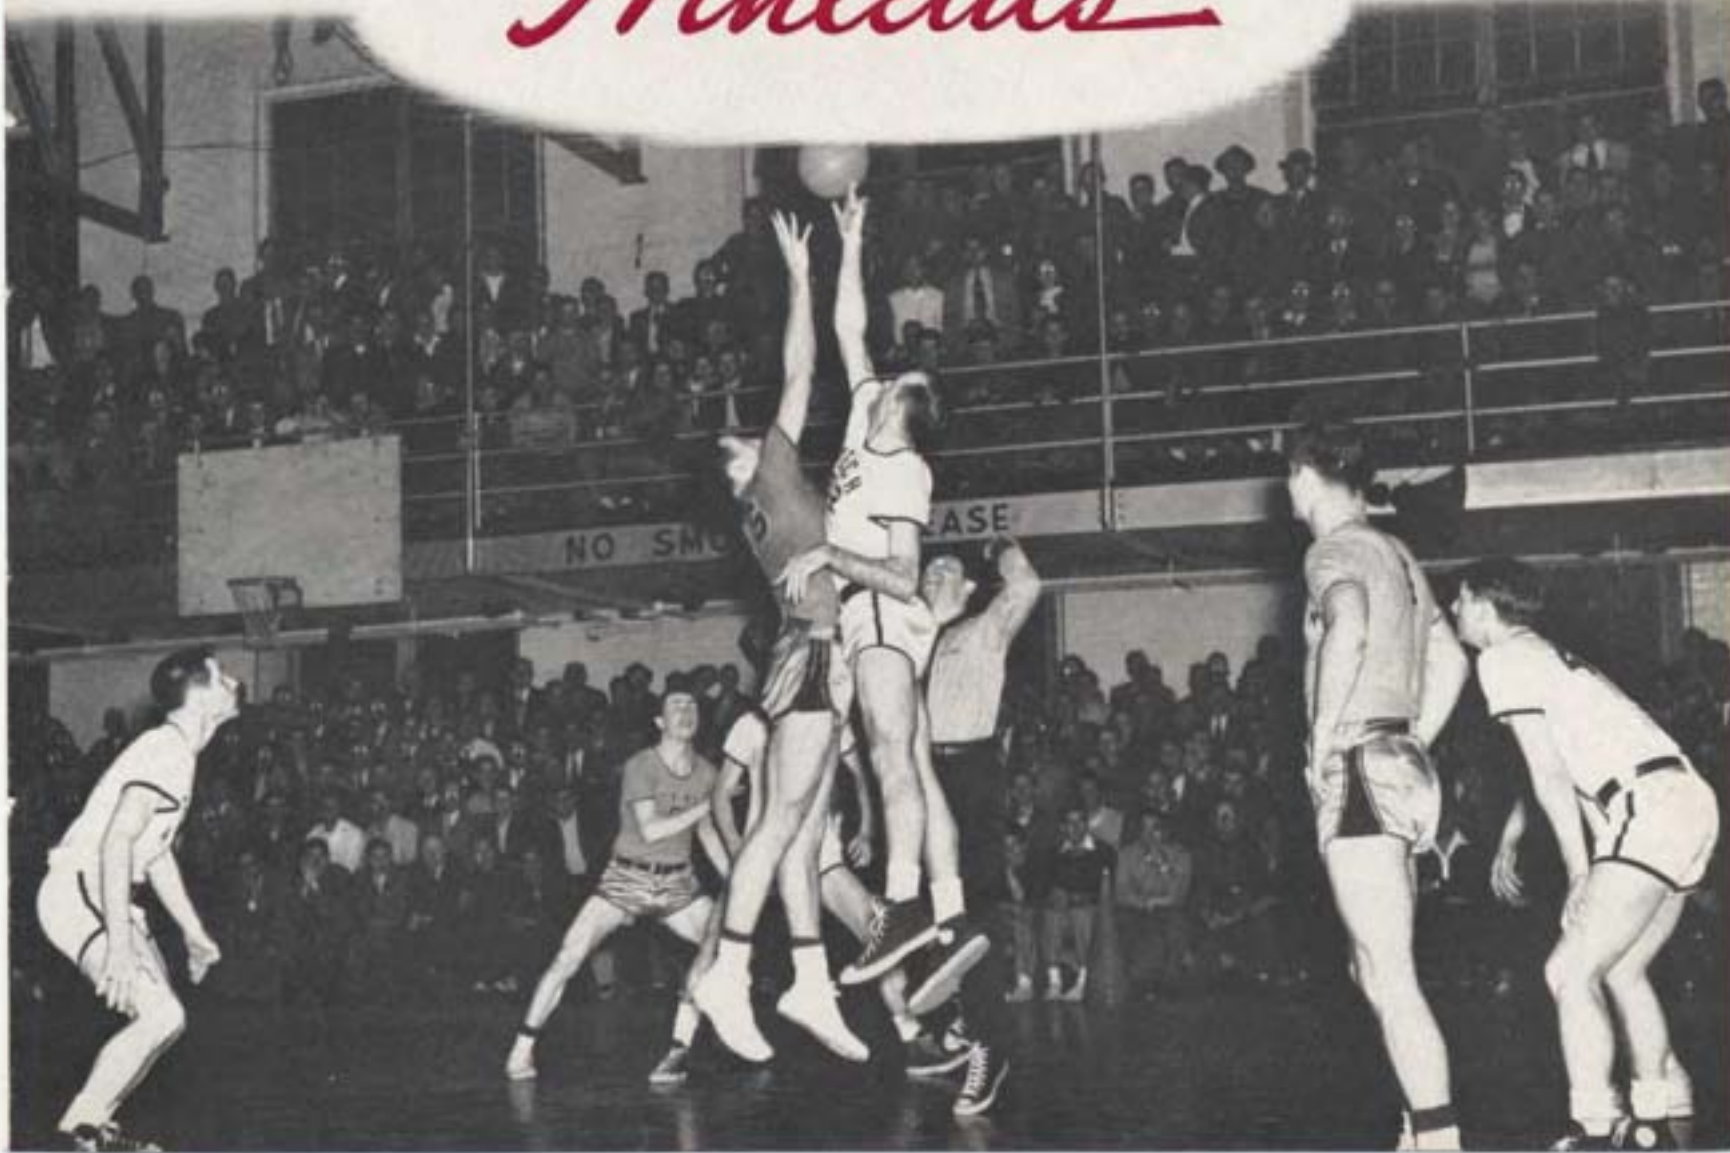

I believe that participation in a program of athletics conducted in a wholesome atmosphere by men of character to be a valuable experience and would heartily recommend it.

The Virginia Tech Monogram Club is composed of men who have been awarded a monogram in one of the varsity sports. Letters and sweaters are given to the members by the club in recognition of their achievement in sports. The purpose of the organization is to maintain a close bond of fellowship among varsity athletes at Virginia Tech; to foster and promote athletics at Virginia Tech in every way possible, and to encourage prospective athletes of good character to attend the institution.

FRANK O. MOSELEY
Athletic Director

Athletic Director

Frank O. Moseley during his first year at Virginia Tech, brought to this campus an added spirit which this school has not seen in many a year.

Moseley as Athletic Director and coach, has scouted football talent from all over the nation, and he has brought to this campus players who will make Tech proud of their football team.

Coming from the University of Kentucky, as backfield coach on Bear Bryant's Kentucky powerhouse, Moseley found the Tech squad in the doldrums of the defeated. He recruited several new faces to school over the summer months, and built up the team's spirit, which in years to come should be a part of some of VPI's finer teams.

The drive and enthusiasm which Frank O. Moseley has brought to this campus, is typical of this hard-working amiable coach, and an outstanding Athletic Director, who deserves a world of credit.

Football

The Virginia Tech football squad for the 1951 season looked as if they were going places when Jack Williams hit Howard Cowan with a first play from scrimmage touchdown pass against Davidson, but instead of rising the Gobblers sank deeper into the ranks of the defeated.

Supported mostly by freshmen and sophomore linemen, besides some returning lettermen, the Tech eleven couldn't shake loose Bryant, Welsh, or Gates, all freshmen, enough to put the Gobblers on even terms with their opposition. Inexperienced linemen plus, the newly introduced coaching methods of Frank O. Moseley, made the

line weak in the earlier games of the season, but toward the end of the campaign, when VPI beat Richmond, the line and the backs were functioning smoothly as a well balanced team.

Led most of the season by the passing and brilliant quarterbacking of Johnny Dean, plus the superb running of All-Southern Conference Freshmen Backs of the Week, Ducky Welsh and Tommy Bryant; the Maroon and Orange in future years have much to look forward to. Such defensive stalwarts as Hughes, Onderko,

Couch Moseley with the four seniors who just completed their last game of college football, losing to VMI, 20-7. Reading from left to right are guard Frederick, quarterback Petty, Couch Moseley, defensive halfback Boyle, and line-backer Luczak.

and Laczak, gave many opposing quarterbacks a hard time in calling the right plays.

Although Tech lost all their games except one, which was a 20-14 victory over Richmond, the spirit of the boys while on the gridiron never slackened. Spirit was the keynote of this squad's achievement, and when the boys have the experience behind them they will be a tough aggregation to beat.

Besides losing a close, hard-fought battle to N. C. State at Homecoming, leading VMI at the half was one of Tech's brightest points of the season. The highly touted squad from Lexington was co-champion of the Southern Conference and had an impressive record of 7 wins and 3 losses. At the half, VMI was behind a vastly improved squad from Tech, 7-0. However, their depth and the brilliant running of Tom Birge were too much for the Gobblers, with the Keydets winning 20-7.

In a sports writers poll conducted by the Tomahawk Club of Roanoke, Ki Laczak was selected as the State's outstanding football player. Laczak bested such men as All Southern Conference Gil Bocetti, W & L, and All American Joe Palumbo, U. Va. Ki is pictured holding the trophy with Coach Alf Satterfield, Tech, as the great Sammy Baugh looks on. Baugh made the presentation.

Basketball

John Cantrell, captain Tech squad, was selected as a guard on the All Big-Six basketball team.

The 1951-52 edition of Tech basketball didn't fare too well, winning only four games in twenty tries. Losing seven of his first eight men as a result of graduation, Coach Laird had to rebuild his squad with only Johnny Cantrell back. Laird used the following men besides Captain Cantrell as his starters: Charlie Hall, Mickey Smith, Charlie Eaton, Bill Cox, Ollie Green, and Bill Bolton. Cox and Bolton were freshmen.

The Gobblers started off by losing their first nine games in a row. GWU broke their 20 game home victory streak. But then on the Blacksburg court, U. Va. became the first victim of the Lairdmen as they fell 90-62. Charlie Eaton hit for 35 points, tying the court record set by "Tex" Tilson last year.

After two more losses, Tech bounced back and built up a three game winning streak, downing Richmond, W. & L., and VMI. However, West Virginia, led by All-American Mark Workman, came to town and dropped the Hokies 99-82, which started a new five game losing streak.

Left to Right: Cantrell, Petty, Ferguson, Bolton, Eaton, Jennings, Cox, Hall, Green, Steingasser, Grimes, Smith, Anderson.

Tech closed out their season with a close 82-83 loss to Hampden-Sydney on the local court. Center Emerson Johnson sparked the Tigers to victory as he set a court record by pouring 40 points through the hoops.

Although the Techmen compiled the worst record of any court team of the past few years, there were some bright spots during the season. Many of the games were close and Tech always went down fighting.

Captain Johnny Cantrell was the play-maker of the team and a new star was discovered in Charlie Eaton. Cantrell's fine all around play earned him a place on the All Big Six team. The little guard tallied 256 points for a 13 point average per game.

Forward Eaton led the Tech scorers with 308 points, good enough for a 15 point average per game. The Radford push-shot artist earned a place on the second string All-State team as a result of his play.

Mickey Smith, Olie Green, and Charlie Hall all played good sound ball. Smith and Hall are rebound artists. Two new cagers were discovered in freshmen Bill Cox and Bill Bolton. Both of these men hit for 20 points or more in several games.

Swimming

Coch Lon Onesty's swimming team had a fair year, winning two meets and losing five. Wins came at the expense of W & L and Davidson while the losses were to N. C. State, U.N.C., V.M.I., Duke and U. Va.

In the state meet, which was held in Blacksburg, the Hokies came in third behind V.M.I. and U. Va. Although points were not scored in the Southern Conference, Techmen finished in the upper brackets.

Mae Jones and Ben Miller were the top individual performers on the team. Both men are veterans of last year's squad. Miller performed in the sprints while Jones was a sprinter and distance man. Co-captain Bill Nisley and John Haydon did well in the breast stroke and Jim Allen, the other Co-captain and Johnny Ellison performed well in the diving.

The freestyle relay combination of Miller, Jones, Phil Emmons and Bill Valentine was beaten only once during the regular season. They knocked several seconds off of the school record. With freshman Johnny Lineweaver subing for Valentine in the SIC meet, this quartet finished second behind Duke, and broke the school record again.

Wrestling

The Virginia Tech wrestling team had one of the finest teams of recent school years. Led by Howie Wright, who as a freshman was outstanding, and Mac Bullard, captain, the squad compiled a record of five wins and three losses.

Every man on the squad, with the exception of Sammy Cook, won more matches than they lost. Tops, as far as individual performances during the regular season, records belong to Jack McNicol, Wright, and Bullard. McNicol lost twice, Bullard once, with Wright undefeated in 167 pound competition.

Others who did well for first year men were Al Motley, Jack Deaton, and Cook. Ben Chambers, veteran grappler, once again had a good season, coming in second in 177 pound division in the Southern Conference Tournament.

Coch Teske, in his first year as wrestling coach, was quite instrumental in the team's accomplishments. The squad as a whole had two freshmen, one sophomore, three juniors, and two seniors, which gives an indication to watch out for them again next year.

Track 1951

The thinclads of Virginia Tech, under the tutelage of Coach Onesty, for the third consecutive year won the annual state track meet held at Lexington.

For the second year in a row, the cindermen from VPI were pushed to the limit by the strong aggregation from U. Va., with Tech winning the meet by virtue of the last event, mile relay. Sparked by Stu Johnson, who tallied 11½ points; Don Cochran, first place javelin; Jack Miller, two-mile winner; and "Pouchie" Bryant, who tied for first place in the high jump; the Gobblers did not win the meet until the combined efforts of Johnson, Hass, Hardy, and Mottley brought home the bacon in the mile relay, which gave the orange and maroon the margin of victory.

Tech's efforts in the state indoor track meet were not as successful as they witnessed in the earlier outdoor meet. Lacking sufficient training facilities the Gobblers placed

Co-Captain Cochran

Co-Captain Johnson

third in the meet. The squad also placed high in the Washington Evening Star meet.

The highlight of the season, however, was accomplished individually, when during the '52 indoor track season Stu Johnson and Jack Miller were invited to the Baltimore Invitational Meet. Stu left all contenders standing at the pits as he romped home first in the 600 yard run. Miller also gave a fine showing as he placed fifth among the nations best milers. Other individual feats were accomplished by Don Cochran, who placed high in both the Southern Conference as well as the Southern Conference-Southeastern Conference meet.

Besides all individual and team accomplishments, the team ended the season undefeated.

Freshman Track 1951

The freshmen track team of Virginia Tech started the season in full stride by trouncing the Virginia yearlings, 71-16; but V.M.I. swamped Tech in their second and last meet by a 78-44 count.

Competing in the state meet, the frosh squad placed second, with the VMI "Rats" once again on top.

The highlight of the season was the high jump record set by freshmen Bee Lankford, with a 6 foot 5 inch jump, for an all time team and Miles Stadium high.

Standing: Manager Huff, Cumming, Tucker, Strang, Moore, Windler, Meyers, Gill, Coach Katherman.

Rifle Team

In their first full year of inter-collegiate competition, the VPI rifle team, under the direction of Major Elliott Katherman, compiled a fine record. Led by captain Eddie Harnsberger, Tech had other fine shooters in Bill Hoeck, Tom Gilligan, Jack Barton, Bob Sayre, and Dave Garthoff. Losing only one man from this year's squad, chances look pretty good for next year.

The team won seven postal matches without a loss, and also won seven out of eight shoulder-to-shoulder matches, losing only to top-ranking Maryland.

The team reaped a great honor when it won the William Randolph Hearst Trophy for the Second Army with a score of 939 out of a possible 1000 points.

Lacrosse 1951

The second season of Lacrosse at VPI showed a definite improvement in the style of play, but it was not noticeable in the records, the team going winless for the second year in a row.

Playing such fine teams as Kenyon, W. & L., and Delaware, Coach Hickey's and Cabbie's squad found it mighty rough going, especially against Delaware, who had All-American Don Swan.

With the increase of interest each succeeding year, the Gobbler's stickmen look for better teams within a reasonable time, although they are greatly handicapped by inexperience, lack of coaching, and equipment.

Sitting: Waller, Lester, Johns, Pearson, Kirkley, Hoffarth, Smith.

Kneeling: Manager Brohawn, Lowe, Swanson, Bush, Dixon, DeBoskey, Burroughs, Calkin, Manager Terry.

Standing: Comogys, Drummond, Ovelman, Onofrietti, Purcell, Bowman, Harper, Perry, Trainer Kasner, Coach Cabbie.

Baseball 1951

Wingo on deck.

Despite the loss of 13 lettermen, who helped to win the Northern Division of the Southern Conference in 1950, the Gobbler nine ended the '51 season with a fair 8 won and 11 lost record.

Lacking depth, the mound staff of Cal Schadel and Troy Moore got little support if any from the bull-pen, and in most cases what each man started, he had to finish on his own, without any relief. Toward the end of the year Bob Garman came into his own as a twirler, and became the third competent starter on the team.

Ed Pierce, Sterling Wingo, and Cal Schadel led the squad in run producing base hits, with each of them batting near or well over .300.

Newcomers to the squad were Fishburne, Jennings, Lampert, Henretty, and Yelton. All these men with a year experience behind them, should play bang-up ball in the 1952 season.

If Schadel and Moore can be amply replaced on the mound, and Wingo and Slayton, in the outfield, as well as at the bat, Tech could very easily repeat the feat they accomplished back in 1950, by winning the Northern Division of the Southern Conference.

Sterling Wingo, for the second year in a row, was named to the All Southern Conference team.

First Row: Schadel, Pierce, Lampert, Blair, Fishburne, Yelton, Jennings, Garman.

The golf squad, losing most of their varsity veterans, compiled a record of one win and eight losses.

However in the tournament for the state championship, Tommy Fox and Harold James finished ninth and seventh respectively. Fox was named captain for the coming 1952 season.

With only one returning letterman on the tennis squad, the team did as well as can be expected, winning only once out of ten matches.

Inexperience and such foes as Washington and Lee, William and Mary, and University of Virginia, caused plenty of trouble for the green squad, who in many instances were shut out in match play.

A Message...

TO THOSE WHO ASPIRE:

With the emphasis of our economy on production, graduates of technical schools, such as Virginia Tech, have an exceptional opportunity to get started on their careers in the field of their choice. The college man who has demonstrated leadership and technical ability in his studies and campus life is being sought out and trained for rapid advancement to management positions. The opportunity at Virginia Tech to train for the better job openings is unique in many respects. Combined with an excellent academic curriculum is a broad program of student activities which provides a practical approach to leadership development.

All classroom and campus activities are on a democratic basis, which gives each student an equal opportunity. In the voluntary campus activities, he must start at the bottom rung of the ladder and as a graduate he is accepted as one who recognizes that he must earn his way upward step by step. The tradition of hard work prevails on the campus. Limited social life coupled with rigorous schedules creates an attitude of industriousness and work habits essential to success on the job. Participation in numerous student government activities, honor societies, curricular clubs, sectional clubs, cadet corps, publications, dramatics and social clubs provides training in the practice of good human relations. An opportunity for development in religion, the social sciences and civic responsibilities is offered by the Y.M.C.A., an integral part of campus

The opportunities at Virginia Tech beyond an academic education are elective with the individual. The student who will seek out these and apply himself to them will build an excellent sub-surface for his road to the top. The Publication Board is the administrative body governing all of the recognized publications at VPI. The student membership is composed of all publication heads, the president of Pi Delta Epsilon, and a representative from each of the student bodies. The faculty is represented by the Director of Student Affairs, and three other members selected by the board.

The purpose of the Board is to govern the major policies of each of the publications, to direct and coordinate their activities, and to select the publication heads for each year.

The major activity of the Board this year has been to assist and direct the reorganization of the student radio station, WUVT.

The Board wishes to thank all of those who have made it possible to again have publications at VPI.

This book, THE 1952 BUGLE, is the end product of a year's hard labor by the editorial staff. Thousands of torturous yet happy hours were spent in assembling and editing the material. Late hours, deadlines, picture problems, disappointments, surprises; they were all part of the editorial staff's job.

Our goal was to surpass former BUGLES which have won state and national recognition. We have made layout changes, added humor, overcome financial difficulties and done our best to satisfy every student's desires, in order to make THE 1952 BUGLE the best. We hope you like it.

Throughout its many years of unflinching service to Tech students, *The Virginia Tech* has not been just another college newspaper. Every issue has been an earnest attempt to give both complete campus news coverage and unadulterated student opinion. The fact that our paper has maintained a high position among college newspapers year after year has been ample proof of successful endeavor.

Untiring devotion on the part of every staff member has made possible the continuance of past excellence. Much credit goes to those whose only reward for long hours of hard work has been the warm, heart-felt feeling of a job well done.

These are the boys behind the stage who make it possible to print *The Virginia Tech*. Working in conjunction with the editorial staff, they provide the publication with advertising and circulation services.

Very few people realize the importance of the staff and yet their service is just as much a part of the success as is the service of those who toil with their brains and pencils.

The loyalty and integrity of each of the men on the staff has made it possible to publish *The Tech* with success.

The engineering magazine of VPI, *The Virginia Tech Engineer*, presents the recent trends of interest in the fields of science and engineering both on and off the campus. Articles of general interest are written for the *Engineer* by students, faculty members, and alumni. A broad picture of engineering accomplishments and campus events is presented to the readers. Published five times a year, the magazine presents a cross-section of the progress made at VPI.

In August of 1951, the studios of WUVT were the scene of a disastrous fire.

Since school opened in September, much work has been directed to the relocation and reconstruction of the student station. Through the concentrated efforts of the staff members, WUVT strives to bring to the campus the best in musical entertainment and informative news. It is the purpose of WUVT to provide the facilities necessary for the training of those students who may wish to launch a career in some phase of commercial radio.

The Honor Society of Phi Kappa Phi was founded in 1897. There are 54 chapters in the United States. Its purpose is to emphasize scholarship and character in the thought of college students and to foster the significant purposes for which institutions of higher learning have been founded. Phi Kappa Phi is intended to stimulate mental achievement and recognition through election to membership. This membership is limited to those students who are among the upper one-eighth of their class. Only one-tenth of any class, however, may be elected. The V. P. I. Chapter was installed in 1921 with fourteen charter members. Since that time there have been 1392 members elected.

Pi Delta Epsilon is our national honorary journalistic fraternity. The V. P. I. Chapter is the second oldest honorary fraternity on the campus, having received its charter May 1, 1930. Members are selected from those juniors and seniors who have distinguished themselves by outstanding ability as staff members of campus publications. The fraternity has as its objectives the promotion of student participation in undergraduate publications and the elevation of the cause of journalism.

The Tau Beta Pi Association was founded at Lehigh University in 1885 by Edward Higginson Williams, Jr., to mark in a fitting manner those who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character as students in engineering, or by their attainments as alumni in the field of engineering, and to foster a spirit of liberal culture in the engineering colleges of America. The Virginia Beta Chapter was installed at V. P. I. in 1935 and has consistently worked for the best interests of the students and faculty of the School of Engineering.

Alpha Zeta recognizes achievement by the undergraduate and graduate student in all fields of agriculture. Members are chosen on the basis of their qualities of scholarship, leadership, and personality. The organization's services include establishing a closer bond between the many branches of agriculture, the promotion of agriculture as a science, and the further development of the qualities necessary to a modern agriculturist. Alpha Zeta strives for improvement of agriculture both on the campus and in the outside world, by the development of a better qualified graduate.

Scabbard and Blade, national honorary military society, was founded in 1904. The society is composed of the outstanding senior officers in the Cadet Corps in the different colleges and universities of the nation. It seeks to encourage and develop those attributes of military appearance, ability, and personality combined with that breadth of interest necessary to make an officer and a gentleman. Company L, Seventh Regiment, was installed on the V. P. I. campus in May, 1933. Its membership is restricted to those who show exceptional qualities of leadership. The purpose of the society is to promote any ideas which might contribute to the betterment of the Corps of Cadets, and preservation and development of the essential qualities of good and efficient officers.

Eta Kappa Nu, the electrical engineering honor society, was founded in 1904 at the University of Illinois. The first Beta Lambda chapter was installed at V. P. I. Although the qualifications for membership distinctly stimulate and reward high scholarship, Eta Kappa Nu also has a broader purpose. As conceived by its members for nearly half a century, its aim is to assist its members throughout their lives in becoming better men in their chosen profession and better citizens. The main purpose is to promote fellowship among electrical engineers and to advance the profession at all times.

Chi Epsilon, a national honorary civil engineering fraternity, was founded at the University of Illinois in 1922 on the assumption that a fraternity with the broad principles of scholarship, character, practicality and sociability would be an incentive to greater achievements in the civil engineering profession.

The fraternity fosters the development and exercise of fundamentally sound traits of character and technical ability among engineers which will work towards a higher standard of service offered to humanity by the engineering profession.

Pershing Rifles is recognized throughout the United States as a national honor military society which is established primarily for honor by O. T. C. The society is dedicated to the perpetuation of military proficiency and leadership. Company E-100, located at the Virginia Polytechnic Institute, was first organized July 1, 1943, under a charter granted by the National Headquarters of Pershing Rifles.

The organization participates in the Tobacco, and Apple Blossom Festivals, attends the President and the Governor's inaugurations, furnishes a firing squad for Armistice Day Ceremonies, operates a cadet corps uniform exchange, and holds a dance once a year.

The BLOCK AND BRIDLE CLUB is an honorary organization whose objectives are to promote a higher scholastic standing among students of Animal Husbandry, to promote more interest in intercollegiate judging contests, to bring about a closer relationship among men pursuing some phase of Animal Husbandry as a profession, and to encourage students to take up the study of Animal Husbandry. The local chapter of the BLOCK AND BRIDLE CLUB received its charter in December, 1935 and has been very active on the campus since that time.

Among the activities which the BLOCK AND BRIDLE CLUB sponsors are judging contests, a "Little International Livestock Show", an annual banquet, and two informal dances. A new project this year was an Alumni Banquet which was held in Richmond on October 3, 1951. Seventy-three student and Alumni members attended the banquet and acclaimed it a great success. The club plans to continue all of these activities in the future.

Although the Block and Bridle Club is primarily an Animal Husbandry organization, there are included in the membership men from many other curricula.

The Gamma Alpha Rho Society was founded in recognition of the need of distinguishing in the field of aeronautics those who by their scholarship, integrity, and achievement in aeronautics, have conferred honor upon their Alma Mater. Further, this Society is to promote better understanding between the students and faculty and to develop a high plane of professional attitude, producing among undergraduates especially, a better code of professional ethics. In attaining this, the Society is to act as a means of organizing aeronautical activities of both scientific and social nature.

Phi Lambda Upsilon was founded as an honorary chemistry society in March, 1899 at the University of Illinois. The chapter at V. P. I. is the Alpha Theta chapter and was installed in 1933.

The aims and purposes of the Society are, "the promotion of high school chemistry, the original investigation in all branches of pure and applied chemistry." Public lectures or programs are held during the academic year and the organization presents an annual award to that sophomore student enrolled in chemistry or chemical engineering who has the highest quality credit average for his first five quarters.

Sigma Delta Psi, national honorary athletic fraternity, encourages health and symmetrical bodily development. Before election, every member must pass a series of all-round tests of physical ability. The national fraternity was founded in 1912 and the V. P. I Chapter was installed in 1938. In 1940-41, competing against sixty leading colleges and universities of the country, the V. P. I. Chapter won the national award. The very rigid entrance tests present a challenge to any athlete and provide for development of the body along with intellectual growth.

Phi Sigma, national honorary biological science society, was founded on March 17, 1915, at Ohio State University, and the Alpha Psi chapter was installed at V. P. I. on May 21, 1939. Since its affiliation with the national society, the campus organization has been known as Phi Sigma.

The purpose of the society is to promote interest in biological research and to afford opportunities for fellowship between students and faculty members in agronomy, animal husbandry, biology, dairy husbandry, and poultry husbandry. Although originally designated as an honorary biological research society, it is now considered as a guild of biologists interested in research. In effect, election to Phi Sigma is an opportunity for better work, rather than merely election to an honor society.

Sigma Pi Sigma is the only national physics honor society. Its chapters are restricted to colleges and universities of recognized standing which offer a strong physics major. The chapters receive into membership physics students and a few others in closely related fields, irrespective of their membership in other organizations, when such students attain high standards of scholarship, professional merit and academic distinction. Membership is conferred upon no basis of selection other than scholastic or professional record. Both men and women students are eligible for membership. Reception into the society is consummated without formal pledge or secret-order training.

Alpha Phi Omega is a service fraternity, whose primary purpose is to render service to campus, community and nation. A definite program is maintained that directs the activities of members and pledges toward the benefit of their fellowmen.

The stated purpose of the fraternity is to assemble college men in the fellowship of the Scout Oath and Law, to develop friendship and to promote service to humanity. To successfully follow this purpose, four fields of activities are entered: service to the student body and faculty, service to youth and community, service to members of the fraternity and service to the nation as participating citizens.

Tau Kappa Alpha, national honorary forensic fraternity, is dedicated to the cultivation of effective speaking. It recognizes that like many other good things, oratory has been abused by charlatans and misused by seekers of selfish power. This organization seeks to preserve it as an instrument of a free people to perfect their freedom, and to quicken their hopes and ideals. To these ends, the national organization, in cooperation with the local chapters, strives to encourage and promote good speaking.

Members are elected on basis of scholarship, character and sustained effort to perfect themselves as speakers.

Concurrently with the founding of the Virginia Polytechnic Institute in 1872, the V. P. I. Young Men's Christian Association was born. Since its inception, this Christian organization has grown with the college, meeting the needs of many of its students for real Christian fellowship. Each year the association carries out many laudable campus and community projects which give the members a real sense of Christian accomplishment. The Y. M. C. A. welcomes all students and presents a great opportunity for Christian service and leadership.

Underclassmen make up the membership of the Y. M. C. A.'s Junior Cabinet. These younger students learn by practice the ways in which the Christian Association serves the campus and community. One can observe them doing playground work, helping high school Hi-Y's, or teaching children in the mission on Brush Mountain. Not infrequently they will be found promoting a party for freshmen, leading a vesper service, participating in a Bible Class, or taking part in a barracks discussion led by a member of the faculty. Those who give evidence of leadership are usually chosen to fill vacancies on the Senior Cabinet, which directs the religious affairs from year to year at Virginia Tech.

The purpose of the Lutheran Student Association is to afford a means whereby Lutheran students in America may consider and act upon their common problems in the service of Jesus Christ in conformity with the common faith of the Lutheran Church of America.

On the campus the aims and emphasis are to strengthen and sustain Christian students in their faith through the use of the Bible, privately and in groups, through prayer, through regular church attendance, through frequent reception of Holy Communion, and through fellowship in the Lutheran Student Association of America, to encourage appreciation of the Church and its teachings in our world today and to afford the opportunity for cultivating friendships and social life on a Christian level.

The Westminster Fellowship consists simply of those who participate in its varied activities. Composed primarily, though not exclusively, of Presbyterian students, it seeks a common fellowship in Christ through the local church.

The main activity of the group consists of a supper meeting and program each Sunday night of the school year, but many other activities, such as going on deputation and to conferences, teaching Sunday School classes and helping in outpost services, holding outings and dance parties, all contribute to the many fold activity of the group.

A central guiding core is given to the program by the council, composed of the officers and chairmen of the committees in charge of various phases of the program. This council holds semi-annual retreats and weekly meetings, and seeks in cooperation with adult advisors and the minister-to-students to so function as to provide a welcome home in Christ to the students of V. P. L.

The V. P. I. Debating Society is an organization composed of the students of the College who are interested in intercollegiate debating. The purpose of this organization is to stimulate interest in debating and to aid students in their public speaking and presence of mind. Debates are held with other Colleges throughout the year. Before each debate, elimination contests are held to select the most capable persons to participate in that debate. By this method of selecting debaters, everyone is encouraged to deliver a speech on the current topic. All students are urged to join this club and to share in its benefits.

Many questions have arisen as to what DeMolay is. The general purposes of the order, to which only young men between the ages of 14 and 21 years are eligible, are few. While secret signs, words and modes of recognition are used, DeMolay has no secrets from the world as far as its central purposes are concerned. The members are banded together for mutual improvement, to help each other live clean, manly, upright, patriotic lives, which will be a credit to their parents and friends. In the meetings are inculcated only those principles which are in harmony with this exalted purpose. One of the cardinal teachings of DeMolay is devoted championship of the public schools.

Membership is largely composed of boys in the college here. However, several boys from the high school are members, and they are the ones who will be the future officers of the chapter. DeMolay is not a Masonic organization but is sponsored by a Masonic body. The sponsoring body here in Blacksburg is Hunter's Lodge, A. F. & A. M.

The V. P. I. Short Wave Club was formed in order that students interested in amateur radio could pursue their hobby jointly. Although the club began functioning in a group in 1928, it was not until 1936 that it was formally organized.

The major activity of the club is the operation of its own radio station, W1KPV. This station has communicated with other stations in nearly every country in the world.

In order that its members may become licensed radio operators, the club offers preparation for the government examination. Code classes are held daily and a talk on some phase of radio is an integral part of each meeting.

The Apple Club consists of those students from Warren, Clarke, Farguier, Frederick, Loudoun, Page, and Shenandoah counties in Virginia, and adjoining counties of West Virginia. The club was founded in 1911; previously, students from this section were members of the Shenandoah Valley club. Inactive during the World War II period, it was reorganized in the Fall of 1947.

The Apple Club strives to promote fellowship among its members, and to aid in the indoctrination of those members who are new on the campus. To achieve this, dances and parties are held during vacations, in addition to smokers and regular meetings held on the campus.

The Black Diamond Club is one of the youngest sectional clubs on the V. P. I. campus. It was organized in the spring of 1947.

Our organization is composed of students from Mercer, McDowell, Bland, and Taxewell counties—the heart of a great coal empire.

The purpose of our club is to provide a stronger fellowship and a greater unity among students from this area while in school and after leaving.

The Capital Club is one of the largest and most active sectional clubs on the campus. The main objective of the club is to promote lasting friendship and fellowship among the students of V. P. I. The club was organized in 1929, and since the absorbing of the Alexandria and Arlington Clubs in 1947, it has drawn its members from the greater Metropolitan Washington area.

Activities include: at least one social per quarter with the Capital Club of Radford, smokers, parties, and dances, aside from the regular bi-weekly meetings. Through these club activities the members are drawn closer together.

The Eastern Shore Anchor Club was organized on November 6, 1904, by the students of the Eastern Shore of Virginia and Maryland attending V. P. I. Following World War II, the club expanded to include students' wives and students from the Eastern Shore of Delaware as members. This club endeavors to promote good fellowship among the boys and girls of that locality. Each year the club awards a scholarship to a "worthy high school graduate of the Eastern Shore." Several social functions were sponsored during the past year, the successful Annual Christmas Dance held at Wilkins Beach Hotel being the highlight of them all.

The Hampton Roads Club is the oldest and most active of V. P. I. sectional clubs. The club is composed of students from Newport News, Hampton, Phoebus, Bull Island, Williamsburg, and surrounding territory.

The club annually sponsors five dances at home as well as its formal, private Christmas Ball in conjunction with the Peninsula Alumni Chapter.

The purpose of the Hampton Roads Club is to promote good will and fellowship among its members, to aid new students in becoming acclimated to college life, to promote a better understanding between the Corps of Cadets and the Civilian Student Body, and to foster a closer relationship between the alumni and students of the Hampton Roads area.

The Lonesome Pine Club, composed of students from the border counties of Virginia and Kentucky, derives its name from "The Trail of the Lonesome Pine," and it is one of the oldest sectional clubs on the Tech campus. The object of the club is to promote goodwill and fellowship among all members of the Lonesome Pine Club, to aid new students in becoming acclimated to college life, and to promote a deeper understanding between the Corps of Cadets and the Civilian Student Body. Friendship fostered in the club is strengthened thus while developing today the leaders of tomorrow.

The purpose of the Lynchburg Club is to foster a closer relationship among the students of Lynchburg and vicinity.

The Lynchburg Club has long been an active organization on the campus. In September, 1947, the club was reorganized after an inactive period during the war. The club sponsors several activities during the year; the principal ones being the annual Thanksgiving Dance and the annual picnic in June. Also popular are the between-quarters parties.

The Northern Neck Club is made up of students attending V. P. I. from Northumberland, Lancaster, Westmoreland, and Richmond Counties. The club was formed to provide aid to boys coming to Tech from this area. By the little things that have been done to make the "long four" a bit easier, and to promote friendliness among students, we feel that we have achieved our goal.

The Peanut Club of Virginia Polytechnic Institute is one of the oldest sectional clubs on the Tech campus. Any student residing in the cities of Suffolk, Smithfield, and Franklin and in the counties of Nansemond, Isle of Wight and specified sections of Surry and Southampton counties is eligible for membership. The club operates on a non-profit basis and the business of the club is of a strictly social nature. Meetings are held bi-monthly at which time the business of the day is discussed, with smokers and general get-togethers being held several times each quarter.

Probably the most important function of the club is held during the vacations between quarters. This usually consists of a dance, held at a centrally located place so as to be easily reached by every member of the club and their guests. During the registration period and the first quarter of a new student's life at V. P. I., the members of the club render valuable assistance in many various ways, aiding the new student to become acclimated to his new found college life.

The Richmond Club of V. P. I. was formed January 6, 1891 as a purely social organization, to include all men from the Capital City and vicinity. Club activities have not been confined strictly to "a brand new party every hour," but have included civic projects such as the contest it sponsored in the spring of 1940 in which the school chose their "Alma Mater." The Club is proud of the Christmas Mother families sponsored each year as well as the good fellowship created among students from Richmond.

The Roanoke Club, composed of students living in the Roanoke Area, is an extra curricular club for the purpose of promoting fellowship and goodwill among the students from this area, both at home and on the campus.

The major social events sponsored by this club are five "Big" dances, including the one following the V. P. I.-U. Va. Game, the Thanksgiving Dance and the Christmas Dance; and the annual Spring Picnic. Through these, and other activities, we hope that we have added a bit of enjoyment to the long four years of academic work.

A Message...

TO THOSE WHO ASPIRE:

Social and extra curricular activities should broaden the training of college men and give not only leadership training, but an opportunity to gain experience in working cooperatively as a member of a group for a common cause.

The bookworm who makes high academic grades, the over-indulged athlete who devotes all of his time to athletics, and the playboy who fails to take anything seriously are types to be avoided.

Rewards in after life are generally in direct proportion to responsibilities assumed and the manner in which they are discharged. One must be able to "get along with people" and deserve their confidence.

Employers scrutinize very closely the records outside of the classroom. They want well rounded men, who can not

Tom Clemmer was outstanding at V. P. I. while participating and leading in the many campus activities which go to make up the well rounded man. The success he enjoyed after graduation in business and civic affairs is best illustrated by the following statement which appeared in an editorial after his death:

"Mr. Clemmer was a fine example of the type of citizen who seeks no public honors or office, yet renders immeasurable service to his people. He was a friend and neighbor to all who came within his energetic orbit. He was constructed of mercy, kindness and consideration."

Active and serious participation in campus life will broaden the student and give him those intangible qualities which will enable him to be outstanding, regardless of where he may go or what he may do.

The Cotillion Club has been in existence on the campus of V. P. I. since 1913. Since its founding, the club has constantly endeavored to improve social conditions on the campus and the social relations between the student body and the faculty. Through the efforts of a congenial and representative group of men, the Cotillion Club has realized a significant achievement toward raising the standards of this phase of campus life.

It is the hope of the Cotillion Club to continue in its efforts to further advance the importance as well as the quality of the social relations and activities on the campus of Virginia Tech.

1952 marks a red-letter year for the German Club, as it heralds in a new year and our Sixtieth Anniversary. From an obscure beginning in 1892, when a small group of students organized the group and named it after a style of dancing popular in the "90's," to 1952, when every known style of dancing seems to be popular, the German Club has grown and prospered. It has prospered, however, not financially so much as it has prospered in the realization that it has been performing a small task for the students of V. P. I.

The Southern Colonels reorganized in February, 1951, and is known as the oldest dance orchestra on the V. P. L. campus, having first been organized in 1924. Since its beginning and its recent reorganization, the Colonels have played excellent dance music here at Tech and at other schools all over Virginia and neighboring states. The orchestra has been at all times progressive and has kept abreast of the changing trends in modern dance music. As a means of giving talented Techmen an opportunity to play with a professionally styled musical outfit and by providing their fellow students with a source of recreation, the Southern Colonels Orchestra have been a real asset to V. P. L.

"The V. P. L. Glee Club is a semi-social, semi-cultural group of civilians and cadets interested in singing. The club functions are: to make several tours in the state; to sell Glee Club records of the school songs; to sing at school functions; and to participate in the state choral competitions.

The club is yet in its infancy—this being only its sixth year. To gain recognition since its organization in 1946 by Mr. C. J. Hesch, has been hard work. Yet, very rapid progress has been shown and under the new and inspiring direction of Mrs. C. T. Holland a very successful future is anticipated."

The Maroon Mask is the dramatic society of V. P. I. Its main purpose is to provide an outlet for talent in dramatics both on stage and back stage. Of no less importance is the entertainment afforded the student body by the work of the Maroon Mask. Loyalty, friendship, and cooperation are essential for such creative work. With these aims in mind, the Mask proudly presents each production.

OPPORTUNITY

awaits top technical men in the world's largest factory of its kind

It's not the kind of opportunity that assures the most mediocre man a rocket-like rise to the "top". But it is the solid kind of opportunity that recognizes merit and offers steady progress to any ambitious, willing-to-learn, intelligent VPI Graduate who wants a future in a great Southern industry fast coming into its own.

Engineering, Chemistry, Selling, Advertising, General Business Administration—in these and other fields at The Lane Company, there are sturdy and much-used "ladders to the top" awaiting the right men.

VPI colors fly today at a number of key posts in the Lane organization: President, Director of Engineering and New Product Development, Plant Manager, Territorial Sales Representative . . . these to mention a few. Thus, the VPI Graduate now launching his career in the Company finds an especially congenial "Alma Mater" atmosphere to make him feel at home right from the start.

Don't judge opportunity by its distance . . . sometimes the biggest opportunities are closest to home!
