DAVID V. CHAPMAN, III, BUSINESS MANAGER

PROF. G. T. BAIRD, FACULTY ADVISER

VIRGINIA POLYTECHNIC INSTITUTE

I AM A PART OF ALL THAT I HAVE MET...

... Yet all experience is an arch wherethro'
Gleams that untravell'd world, whose margin fades
For ever and for ever when I move."

... Tennyson

Come with us through the rainbow arch that frames the campus, the classrooms, the dances, the athletic games, and all the other college activities of Virginia Tech. You have made your mark on the school, and it has made its mark on you, no matter how long or how short your stay. We hope that this book will help you not only to remember your experiences here but also to look forward to the years that you may serve your Alma Mater.

ATHLETICS

TO A MAN WE ADMIRE

Although the students here at Tech are divided in many respects there is one activity where they find a meeting of minds—athletics—either through direct participation or watching from the side lines.

For some years they had been supporting an athletic program built around losing teams. Quite naturally, spirit and morale, an important factor in any organization, was on the downgrade.

However, in the winter of 1951, a man wise in the ways of athletic achievement came to our campus, looked the situation over, saw a challenge and accepted it. The resulting impact of this man assuming the leadership of Tech's athletic program will not soon be forgotten. In three short years, he has brought national recognition to a school which had been previously known in the very limited circles of good students making excellent employees. He started a new trend in the State of Virginia—that of having winning teams without sacrificing scholastic achievement.

Yes, we are a part of all that we have met, and for his part in giving the students of V.P.I. something to remember upon reaching Alumni status, the BUGLE dedicates its 58th edition to Frank O'Rear Moseley, Head Coach and Director of Athletics.

DR. WALTER S. NEWMAN
President

ADMINISTRATION

A MESSAGE FROM THE PRESIDENT

After you have left V.P.I., we know that you will contemplate assuming greater responsibilities. You will not only be making a living, but you will be conscious of the fact that you wish to make a definite contribution to the economic life of our nation. You, as an alumnus of V.P.I., will also want to be a contributing citizen in your community and assist in finding the solution of the social problems confronting our nation.

In making decisions in life, the average individual calls upon his past experiences. If you are like most of us, you will be thinking of those experiences which you encountered as a student here. It is the purpose of this institution, in its instructional program, to give you a chance to learn to think and to solve problems. Some of the tougher courses may mean most to you in later life.

You recognize now that many of the experiences that will mean a great deal to you are not necessarily all tied in with classroom and laboratory instruction. When I greeted you as entering students, I urged you to try to achieve a balance between study, recreation, social and religious activities. If you have been able to achieve this balance, you have done so by thinking and planning your activities.

While here and after you leave, you are bound to realize that every activity in which you have engaged has left its impression upon you and the theme of this year's Bugle, "I Am A Part of All That I Have Met," is undeniably true.

WALTER S. NEWMAN

THE CORPS

- CORPS
- CIVILIANS

MAJ. GEN. JOHN M. DEVINE
Commandant

A MESSAGE FROM THE COMMANDANT

The Corps of Cadets is an integral part of Virginia Tech and as such has an effect upon the institution itself as well as upon the lives of all the members of the Corps. By its organization and operation the Corps aims to teach loyalty and discipline and to develop in its members a deep sense of responsibility. The degree of its success is measured by the quality of the imprint made upon its members, an imprint which will never entirely disappear.

The quality of that imprint depends upon the effectiveness of the Corps in the accomplishment of its mission. The major part of the responsibility for the success of the Corps depends upon the Senior Class and its leaders. It is the Senior Class that must, by precept and example, set the standards which will insure the continued progress of the Corps, and guarantee the quality of the imprint left upon the character of its members.

You, the cadet, are literally a part of all you have met, and one of the most important meetings in your life so far has been the meeting with the Corps, I trust that what you have met here has made a significant contribution to the development of your character, to the growth of your intellect, and to the preparation for your life as a citizen of our country.

ASSISTANT COMMANDANT

LT. C. C. BEAZLEY
CAPT. W. F. DOBBINS
MAJ. L. C. OSTERDORF
COL. D. P. BARNETT

MR. R. H. GILES, SR.

H. P. MARRY	<i>Secretary</i>	B. KANTOR	<i>Public Relations Officers</i>
MR. ROBERT H. GILES		<i>Sponsor</i>	

The pleasures of serving you as officers of your student government can only be surpassed by our pride in being members of the Corps of Cadets. Our goal had been to preserve and better the Corps in its attainments of developing the well-rounded man; in bettering relations with the Civilian Student Body; and in the furtherance of V.P.I. through its Corps of Cadets. Credit for success goes to you, its members.

REGIMENTAL STAFF

In the last year of any major activity there comes a time when the past looms big and bold. Looking at this, we can only be envious of those who will hold our positions tomorrow. They, as we did, will enroll in a year-long course in leadership and problem solving. Our envy lies in that we have no more time at V.P.I. to apply those principles we have learned. We envy those who have the opportunity (and responsibility) of maintaining and molding a Corps of Cadets of which we will be proud graduates.

Writing thanks is insincere, but perhaps in these few words we can express a part of our appreciation to those capable cadet leaders who have been responsible for whatever laurels our service may deserve.

We are confident, even through many trying and disagreeable experiences, that the Corps, continuing in its sound purposes and ideals and under thinking and conscientious leaders, will remain the "living V.P.I."—a proud organization.

Seniors Informal

The Regimental Band has come to be looked upon as an organization to which Tech students and alumni can point with pride as a symbol of spirit on the campus. Besides performing the jobs which come to them in the line of duty as regimental band, the Highty-Tighties have always stood ready and willing to furnish their services in any other capacity in which they might be needed.

The long hours of practice to which the members of the band have become accustomed have paid rich rewards in the satisfaction that comes from a good performance. The precision drill and colorful half-time figures bring the band to the front during football season. The coming of spring brings with it twice as much work to the Highty-Tighties. Their spring concert tours plus the corps parades and reviews mean that they have to become two bands in one, equally ready to play any type of music that is required of them.

In addition to helping form the foundation of the spirit of V.P.I., the band does much to bring outside publicity to its Alma Mater. The band does not seem to let a year go by without performing some feat to widen the circle of its reputation.

FIRST BATTALION STAFF

We, the High and the Mighty Staff of the First Battalion, being of the soundest minds possible for members of the Senior Class, declare this instrument to be our "Last Will and Testament."

Lt. Col. A. S. "Little Eager" Agnor, leaves his tooth brush and tooth paste to cadets who don't have dilberry teeth. Major T. D. "Shutterbug" Moseley, gives his camera and equipment to cadets who are "sexorganic." Captain Barry "H. B." Kantor, bequeathes his booming "group" voice to cadets who work as foghorns. Captain T. B. "Tree" French, leaves his notes on tree limbs to cadets who climb trees to window peep. Captain W. E. "Judge" Shelton, gives his solemn look to any honest cadet who comes before his gavel. First Lt. A. G. "Designer" Cumming, bequeathes his drafting board to cadets who have to plan strategy for Saturday nights.

We also give and bequeath to the "infamous" Second Battalion Staff our precision marching, our neat and dilberry appearance, and our good looks. As a final bequeathal, we leave to the cadets who need assistance, aid, and plain help—Lt. Col. D. P. "Uniform" Barnett. We take with us 55 ALL.

Throughout its long and colorful history A Company has lived up to its motto: "Retreat Hell, We Just Got Here!", and with this in mind the men of Company A worked diligently this year to make it the best all-around Company in the Corps.

Under the leadership of our able Captain, Wayne "Moodles" Miller, the men of A Company have learned a great deal through their active participation in all parts of college life.

The chief reason for our success can be attributed to the magnificent way all classes cooperated in that spirit of brotherhood that is characteristic of the men of "Gay A."

As we look back on this year we can take pride in the fact that we have had our good times, and have upheld those fine Corps traditions which have been characteristic of all A Company men.

Company "B" is striving for the top! Yes, with winner's laurels for two straight years resting in the minds of the upperclassmen of Company "B," the freshmen want to take part actively also.

Participating in intramurals gives the boys a chance to show their athletic abilities. Drilling day after day brings out the military in others. Keeping tidy and clean rooms shows the good housekeeping of the rest.

The men of Company "B" are always fighting when the chips are down. Let it never be said that "B" Company gave up! If the men fail to reach the top, it will not be that they haven't given their best. The spirit that is shown in the cadence yells cannot be surpassed. The teamwork in the class helps make the company an outstanding one.

With Warren Thompson leading the way in the captain's position, the men under him can't go wrong. Jim Bishop, First Lieutenant, did a splendid job taking over for Warren during the winter quarter. Adding Skip Diehlman to the company helped Jim Hottle and J. C. Lewis find a card partner. With "Flop" Taylor student teaching part time, Bill Moon and Sherman McKinney took over temporary duties. Boyd Carr, First Sergeant, kept the company clerk well in line along with everyone else.

Company C, "Pride of the Corps," is well named, for it sets many policies and standards to be followed throughout the rest of the Cadet Corps. Ably led by Captain Johnny C. Fender of Iaeger, West Virginia, this company is always well represented in the Corps competition, athletics, scholarship, and many other school activities. The true spirit of brotherhood and companionship stands supreme in the hearts of the C Company "Cats," for they realize that only a sense of close unity can continue to make them one of the most respected groups on the V.P.I. campus.

"D" Company; second to none in the Corps. Although an Air Force Company militarily, the men of "D" are leaders in every college curricula. Each task handed to us was well accomplished through the prevailing determination and spirit.

Above the wild cries of "Tigers" and many other jealous competitors we are destined to win the coveted "Citation Chord." Through the able leadership of the "Padre and his Cadre," coupled with the spirit and untiring efforts of her men "D" has reached the top to stay.

It is our main desire to credit the school with having produced men she will be proud of for years to come. The men of Company D will bring credit to V.P.I. through the various military and civilian fields which they enter.

(Part 1)

BEN ABRAMOWITZ AND TED ADAMS - UGLIEST CADETS

"BE-BOP" BEAVAN - GRIPER

LAZIEST CADET - POSY VIPPERMAN

PETE LOTTS - TIGHTEST SENIOR OFFICER

MOST RANK HAPPY - "Y"

M. H. HUTCHESON - EAGEREST SOPHOMORE

GROSSEST RAT - W.O. CRAWFORD

"T.J." - BIGGEST PULLER

SECOND BATTALION STAFF

We, the members of the Second Battalion Staff, would like to express our appreciation and thanks for the cooperation we have received during the past year.

In spite of our being "grand-daddies" of four rat companies and "guardian-angels" (halos included) of "H" Company, we can honestly say that we have no gray hairs, or heart trouble, and we hardly ever need our canes. However, "Lemon" Reynolds fell by the way-side when he staggered the last mile to the altar.

Commanding the "Five Stones" was Denwood "Little-rock" Milby, the Ruth (less) commandant of the Second Battalion Kindergarten. Next in line we have Reginald "Lonely Hearts" Childers, a boy from the Star City (right state, wrong pew).

Found most of the time in the "flick," was our stalwart Adj., Dick "High-forks" Chewing, who proved that size is inversely proportional to grades. As S-4, we had Renon "Mea-der at Hollins" Hoge who is a yam dankee. The S-3 was Joe "Little-Sam" Glick, who proves that "actions speak louder than words," especially with women. Bringing up the rear was our assistant S-1, Lyman "Lemon" Reynolds, who had the audacity to forsake our love for the love of a woman.

Seniors Informal

This is Company "F." We believe that we are here for a purpose and that purpose is to train ourselves professionally and militarily so that we may take our place in the future—prepared.

We hate to call ourselves average, but we believe that we present by being average, a cross-section of the United States. We hail from all over our country—the North, the South, the East, and the West. But above all else, we know that we are from Tech and are Techmen. We feel too, that we are a representative group of Techmen striving together to boost our company, our corps, and above all—our school.

Look at this page carefully. In peace and in war, in military and in civilian life—these are the faces of America's leaders of tomorrow.

Seniors Informal

Through the years "G" Company has proven to be one of V.P.I.'s best. Last year's winner of the Kohler Cup and gold citation chord, we have set our aims even higher for '55. Company spirit runs high, and the motto of our school, "Ut Prosim," is our standard. It is the seniors' objective in "G" to supervise the activities and conduct of the company while the juniors and sophomores begin their training in instruction and leadership. Last but not least, the freshman class forms the backbone of the company as the freshman system builds men and leaders of the future. If teamwork, spirit, and determination are ingredients for success, June 1955 will find "G" of the Engineers on top again.

Seniors Informal

We of Company "H" are justly proud of the organization of which we are a part. Here men are treated as men. For boys not on scholarship, the prerequisites for this, the Athletic Company, are: good grades, leadership, recommendation from a coach, and a Monogram for juniors and seniors. Our Company's spirit and fraternity are envied by other companies and all classes alike here at Virginia Tech. The policy, as successfully enacted here in the Company, has not been based on the traditional threat and whip method but rather on the co-operation of men working together for better academic standing, better living circumstances, and better athletics.

Seniors Informal

"I" Company is an example of how initiative and co-operation can be combined to make an efficient running military organization. Commanded ably by Larry Zittrain, "I" Company has been always at the fore. We can proudly say that the only dispute that persisted during the year was by the seniors—whether to call "I" a battery or company. We have exhibited our "Esprit De Corps" by the remodeling of our lounge where an "I" man can proudly take his guests.

"I" Company is a personification of America—a tight knit band which works together, always keeping their sense of humor over all obstacles, "America and Freedom" watch "I," part of your backbone and spirit.

THIRD BATTALION STAFF

The passing of this school year has left signs of further change in the Corps of Cadets. If any word might be found to describe the past four years of the life of the Corps, that word is "Change." Change, reorganization, and revamping of ideas are healthy characteristics. However, we wish to pitch out this idea to the present underclassmen and to future V.P.I. cadets. It matters not where we stand but, in which direction we are moving. We, of the Third Battalion Staff, genuinely appreciate and kindly thank the cadets of the Third Battalion companies for their cooperation, support, and their prompt acceptance of those changes that have been a part of the changing Corps.

The Third Battalion was led by Lt. Col. "Booty" McFall. Mac calls Clintwood home and has proven loyalty to that place in many-a-argument. Theo provided the push when the going got rough. Second in command was Major "Herbie" Adams. Herbie kept us on the ball when things got lax. He comes from Montross, Va. Our Adjutant was Captain "Coop" Cooper. "Coop" pushed the paper through channels every night. Boones Mill, Va. is his home town. Captain "Sonny" Newman was to the needs of our outfit. Sonny was Supply Officer, coming from Falmouth, Va. He was the only married man on the staff. Captain "Curt" or "Bosh" Bishop was our Operations Officer and kept things running on schedule. He hails from Matoaka, West Virginia. First Lt. "Joe" Richards helped the adjutant and anyone else in the outfit looking for aid. Joe calls Princeton, West Virginia his home.

Seniors Informal

The men of Company "K," although integrated from many other companies throughout the Corps, have emerged as one of the bright spots of the Corps of Cadets. This success has been achieved through the united efforts of the three classes as one, not as three individual classes. Although having undergone the experimental conditions which prevails in the corps today, the men showed their strength of character and desire to succeed by their tremendous company spirit. The prevailing system, as set up by the administration, has tended to discourage leadership and initiative, especially on the upper quad. However, as we finish the year, we have a feeling of pride and of accomplishment that we achieved eminence under adverse conditions.

Seniors Informal

The "Marching Engineers" of "M" Company consists mostly of sophomores from last year's "C," "D," and "E" Companies and the returning juniors and seniors from last year's "M" Company.

The company is run on the idea of personal freedom with the men cooperating as a well-organized efficient unit. Under the leadership of our capable captain, J. Richard "Queeq" Steves, the company is destined to enjoy one of its most outstanding years.

FOURTH BATTALION STAFF

We, the officers of the Fourth Battalion Staff, better known as ZIP'S SPACE PATROL, would like to express our thanks to the men of the Fourth Battalion for helping to make ours the best battalion in the V.P.I. Corps of Cadets.

We sailed through the year under the able leadership of Commander Harry (Zip) Zahn, who hails from Williamsburg, Va. Always around to take charge, except when needed, was our executive officer, Bob (Gorsky) Gore, our only yankee, from Coraopolis, Pa. The hardest worker (?) on the staff was our "Mickey Mouse" adjutant, Steve Justis, who fought his way up from the Lynchburg forest. The operations were handled by our only expert on matrimony, Bob Jones from Blairs, Va. Bob Schmidt (R square-d) from Falls Church, Va. handled the supplies as only he could do under the circumstances. The job of assistant adjutant fell on the broad shoulders of our own "Lucille" (Ralph) Sweeney from Floyd, Virginia.

Upon this page is displayed the finest group of men in the VTCC, the men of Company "N." Company "N" is composed of contingents from three of last year's citation chord winning companies. It has been the aim of "N" Company, despite adverse conditions, to strive for a better and more united Corps.

Long to be remembered will be the musical renditions of "Loudspeaker" Saunders, "Short-Circuit" Shane, and "The Broadcast Must Go On" Hearn. The boastings of the "West by God Virginians," "Ain't Gonna Play No Drill" Spruce and "One Leg Longer Than The Other" Englmeier, and the accents of "Yankee Reb" Keating will also be remembered. Last but not least in our memories will be the meeting lectures of "Tool" Vipperman, and "I Wait Till The Last Night on my Design Problems" Barnes. This whole disabled cadre was ably led by "Sack-Hound" Smith.

Despite the flagrant names mentioned above, we the men of "N" Company have endeavored to combine our efforts into one mass effort called . . . SUCCESS.

The men of "O" Company have tried to make this company meet the high standards which are the basis of the Corps's many fine traditions. By each of us shouldering his own responsibilities, we feel that we will be a benefit to the Corps, to the company, and to ourselves. It is this spirit of cooperation that has made the "Flying O" one of this year's outstanding companies.

Our hard work during the year has been more than counter-balanced by the knowledge we have of a job well done. As members of the 1954-55 edition of "O" Company, we shall always remember the "forced" marches from the upper quad to the mess hall, the Monday evening "bull" sessions, the pep talks from our skipper, Woody "El Popo" van Valkenburgh, the many women we have loved and left, the gallons of alcohol we have consumed, and our awe inspiring fight song "Dirty Lil."

Our cadre is made up of the members of the Class of '55—the last of the "Old Corps": "Woody" van Valkenburgh, "Bobby" Lee, "Chas" Miller, "Pinch" Barham, "Duke" Dodd, "Nate" Higginbotham, "Garbo" Brannon, "Worl" Worley, "Are-Gee" Perdue, "Waas" Wassum, "The Warlar" Larrick.

CIVILIANS

DIRECTOR OF STUDENT AFFAIRS

You, the members of the Class of '55 have been a big part of all that the College knows. Your talents have contributed to the growth of the College and to the stimulation of the student body. We will miss you next year, but we know that the enthusiasm you have imparted to the underclassmen will enable them to continue the things you have started, and thus your presence will be felt even though you are away from the Campus.

May you continue to be a part of all that you know as you undertake the tasks for which you have been preparing yourself here at V.P.I.

CIVILIAN STUDENT BODY

We, the officers of the Civilian Student Body, wish to express our sincere gratitude for the assistance given us in carrying out the objectives of our organization.

This has been a successful year. Our emphasis has been placed upon the closer relationship among students, faculty and administration. The success which has been accomplished has been attained only through the whole-hearted support of all those involved.

Our parting message to those who will follow is that we should exhaust all efforts toward continued unity of organization, mind and purpose remembering that progress is our most important objective.

The V.P.I. German Club, established in 1892, is the oldest social organization on the Tech campus. Mindful of its traditions, the club has sought to provide dances that reflect the highest credit upon itself and upon the college.

Each member strives to create the utmost in hospitality and congeniality at each German

Club function, and promote graciousness to guests of the club, a prime duty and obligation.

The high personal integrity and ability of its members indicate that the high aims set forth at the time of its founding will continue to be maintained.

Since the founding of the V.P.I. Cotillion Club in 1913, this organization has worked to attain its purposes of improving the social conditions within the Student Body, improving the social relations between the Student Body and the Faculty of the Institute, and sponsoring non-profit dances during the scholastic year. In this forty-second year of service to

the school, the Cotillion Club continues to band together gentlemen of the college to carry out its purposes in a way worthy of its Alma Mater and of the organization.

The Cotillion Club sets as its goal the recognition of the value of a good social background for the well developed student, and through its functions works toward this goal.

The V.P.I. Glee Club is composed of civilians and cadets from all classes who are held together by a common bond of interest in music. One of the harder working organizations on campus, the club meets twice a week to rehearse and perfect its programs. Last fall the club produced several programs with the Radford College Choral Club; included were *Carmen* and the Christmas portion of *The Messiah*. In the winter and spring quarters, concerts were given in various Virginia cities and towns, and at several women's colleges.

Our thanks go to our director, Mrs. C. T. Holland, for the time, energy, and patience which she has put forth for our group. Through the combined efforts of the members and the director, the Glee Club distinguished itself again this year as one of the better musical groups from Virginia colleges.

SOUTHERN COLONELS

MEMBERS

Tommy Marek (stage manager and vocalist)—sings with a full yet tender style which has branded him tops in vocal circles throughout the state. He is a hard worker and always anxious to gain high refinement.

Sam Collier (lead trumpet and business manager)—guides the five-piece brass section with determined vigor. By no means the modest type, he swings frantically whenever the occasion arises.

Jerry Wallberg (trumpet)—plays with a serious depth of consciousness and gives the group its form shape and control. His remarkable ability is manifested by his overwhelming technique.

Jack Nelson (trumpet)—is the perfect picture of perseverance—a self-analyzing musician who is gradually commanding the solo spotlight.

Bill Holliday (lead Alto)—justifies his immense capabilities in a multitude of ways, finding recognition not only as an artist of smooth and facile tones, but also as an arranger of astounding efficiency.

Sunny Conner (tenor)—has broken away from the shyness which obscured his early playing and is now exploring the land of swing signals, hot and cool.

Glen Coplan (alto)—skillfully maneuvers his ideas of proper texture to the sax section in a manner natural to his flexible and unobtrusive style.

John Beafford (tenor)—continues to advance his training into realms of great augmentation. Not of unhidden talents, he is making commendable strides to a lustrous dance-band career.

John McCaleb (lead trombone)—demonstrates unequivocally his distinguished poise in an array of embellishments associated with his fluid style and inimitable range.

Bob Stewart (trombone)—creates a melodic line of sustained and violent sounds, mandatory to his key position in the ensemble, and steadily amplifies precision and balance.

Ron Southward (drums)—swings at any trend of jazz in the air. He is a root of unconceivable rhythm and fits the band with his brilliance and resolution.

Walt Kovecevic (bass)—initially a classicist, offers a heap of ideas, all of which reflect his great showmanship and sterling humor.

Woody Van (director and pianist)—is the priming element of the band and furnishes an imaginative idiom to the smooth and jump music he plays so emotionally.

Below the surface of the Southern Colonels music lies an insatiable desire of the musicians to create new and fresh sounds. Each member has blended his efforts into an ensemble of impeccable worth and fascinating interpolations of past and current hits. The band's fluidity and finesse has aroused undefined enthusiasm in all those who have enjoyed its effervescent features. Through diligent and untiring work, the Southern Colonels has received high degrees of recognition throughout the state of Virginia and will continue to retain its popularity for constantly enjoyable music.

The Maroon Mask is the dramatic society of VPI. Its main purpose is to provide an outlet for talent and interest in dramatics both on the stage and back stage. Of no less importance is the entertainment given to the student body and to the community by the work of the Maroon Mask. Loyalty, friendship, and cooperation are essential for such creative work and are all a part of the Maroon Mask. Three of our recent productions were; "Brother Rat," spring '54, "The Man Who Came To Dinner," fall '54, and "Night Must Fall," winter '55.

The student section of the American Society of Agronomy presents to Agronomy students, as well as other students of agricultural curriculums who choose to be members of this club, an educational program and an opportunity to promote fellowship and leadership.

Some of the agronomy activities this year include an educational trip to Tennessee, Mississippi, Louisiana, Alabama, and Georgia; a picnic; participation in the homecoming float parade; and an exposition for Agricultural Emphasis Week.

The Dairy Club was organized in the spring quarter of 1921. In the spring of 1938, the club was granted a charter by The American Dairy Science Association and has since been known as The Virginia Tech Chapter of the American Dairy Science Association.

The objectives of the club are: to develop and encourage leadership in the field of dairying; to bring the dairy students closer to the problems in the field of dairying by having educational programs; to promote fellowship among its members; to encourage activity by sponsoring both dairy cattle and dairy product judging teams; and to bring students and dairy-men of the state closer together by sponsoring Dairy Day.

*"Best of luck" to a
of a group. Hope you have
get back next year. I want
of life your last year. I want
to see you all.*

The purpose of the Forestry Club is to promote binding organizational fellowship for its members, to serve VPI, and to further inform the general public as to the need for organized, well-planned forestry and wild-life conservation. The club's activities include entry of a fleet in the Homecoming Parade, an annual 'possum hunt in the fall, a spring picnic, and the publishing of the club annual, the *VIRGINIA TECH FORESTER*.

Published four times a year, *The Tech-Nique*, V.P.I.'s student agricultural publication is now in its second year. Our semi-technical magazine is prepared by the students of V.P.I. for people interested in agriculture and its related fields.

Its function is to present new and interesting information to students, faculty, alumni, and professional agricultural workers; to unite the school of Agriculture by furnishing a common interest and a means of exchanging inter and intra-school information; to provide valuable, practical journalistic and editorial experience for students; and to further V.P.I.'s interests throughout the state.

The satisfaction of the production of a creditable magazine and the recognizably valuable experience gained is more than sufficient reward for the pleasant hours spent in the preparation of *The Tech-Nique*.

Being the youngest publication on campus has many disadvantages, probably the most serious of which is finding the where-with-all to pay the bills. The staff, both individually and as a group, made sure that there were no stones left unturned. We have increased our advertising, while at the same time, increased our circulation many times within the year. This has been no easy matter; each member of the staff and many other students whose names do not appear on this page deserve a lot of credit for their tireless efforts on behalf of our magazine.

We, the staff, feel that our publication is a tremendous success. We are confident that our magazine will take a permanent place among the publications of V.P.I. Because of our accomplishments, we are proud, but we would not lose sight of the splendid cooperation and assistance given us by Dean Dietrick, our Faculty Advisers, Mr. Michael and Mr. Bradley, and by many other faculty members. We will ever be grateful to each of them, and to the Smith-Douglass Company for their financial assistance.

In 1950, The Virginia Tech Agricultural Economics Club received a charter as the Virginia Student Section of the American Farm Economics Association. From that time on, the club has grown to a total of 28 members. It has continued to foster a more deeper curiosity and a keener understanding in the field of agriculture economics. As time marches on, the warmth of friendship and harmony among the faculty and students of the curriculum.

The Horticulture Club is a campus organization composed of students who express a profound interest in horticulture. Its function is both educational and social. Educationally, there are meetings at which visiting speakers talk about the different aspects which affect horticulture in various ways. Also there are campus horticulture shows several times during the year and on occasions the club takes part in horticulture conventions throughout the state. Socially there are meetings at which the members meet with the faculty on a social scale. At these meetings, the students become better acquainted with the faculty and also better acquainted with each other. The club is supported by the profound and commercial interests in Virginia and each year the club presents an award to the outstanding horticulturist in the state.

Rural Sociology is that branch of science which seeks to know and understand rural society through scientific methods. The Rural Sociology Club of V.P.I. is composed of students in the Rural Sociology curriculum. The club's purpose is to create more interest in Rural Sociology as a field of study and service and to promote a closer relationship among the students in this curriculum.

The Home Economics Club of V.P.I. was established to contribute to the social and professional development of the Home Economics student. The Club provides for the development of leadership and teamwork by social, business, and professional experience through the various aspects of club life.

The objects of the American Institute of Architecture are to organize and unite in fellowship the architects of the United States in order to advance the science and promote the profession of architecture. The purpose of the V.P.I. student chapter is to provide an organization in which the students in architecture may enrich their college courses by beginning those professional associations and contacts which, continued through life, are invaluable to the practicing architect. The student chapter should be a normal step to the successive grades of membership in the Institute.

The Virginia Tech chapter of the American Institute of Industrial Engineers was established on the campus to band together, with a common interest in their profession, the students in Industrial Engineering. The purposes of the organization are to promote acquaintances, to further the general knowledge and interest in the curriculum and to establish departmental participation in campus activities. It further broadens the students knowledge of his chosen field through motion pictures and guest speakers from industry throughout the country.

The purpose of the student chapters of the American Society of Civil Engineers is to afford the beginning of professional associations for the civil engineering student, and to help him prepare himself for entry into the profession.

The American Society of Civil Engineers gives the student a chance to see his chosen field in a light other than that of the classroom, never failing however, to emphasize the importance of the classroom and the values obtained therein.

The V.P.I. Student Branch of the A.S.M.E. holds the distinction of being the oldest student branch in Region IV of the National Society. It has been actively supplementing the curriculum in mechanical engineering since its inception in 1915. Bi-monthly, the society provides the student with a variety of timely non-Scholastic topics.

The organization provides a link between industry and the student, and introduces the brighter side of engineering.

DeBoskey, W. R.	Hearn, C. M.		Pardue, W. M.	Woodfin, M. E.

The purpose of the V.P.I. chapter of the American Society for Metals is to acquaint students who plan careers in the metals industry with the activities and aims of the national society. Lectures and movies presented during chapter meetings give the student a broader knowledge of his field than can be presented in the class room. This provides industry with better engineers for tomorrow.

The Virginia Polytechnic Institute student branch of the Institute of Aeronautical Sciences was organized April 3, 1940.

The purposes of this organization are the advancement and dissemination of knowledge of the theory and practice of aeronautical sciences; the provisions to students of the opportunity to become acquainted with the personnel and activities of the national organization; the fostering of professional consciousness and fellowship.

The Co-operative Engineering Society of V.P.L. was founded in the spring of 1954. The purposes of the organization are to promote public interest in the co-operative engineering program, to act as a liaison between the administration and the co-op students, and to aid freshmen co-op students in adjusting to college life and to familiarize them with the functions of the co-operative engineering program and with situations encountered in industry.

The student chapter of the American Institute of Chemical Engineers is the co-curricular society open to all students of chemical engineering at Virginia Polytechnic Institute. The club gives its members the opportunity to meet and deal with professional engineers and to work together to achieve a common goal.

The club meets regularly to hear speakers and to view motion pictures concerning the field of chemical engineering. Student membership affords an introduction to the national society prior to graduation and membership in the society after graduation.

The club is active on the campus, showing several projects each year during Engineering Emphasis Week. At the end of each college year the club and faculty meet at a picnic to create a closer student-faculty relationship.

The Barkhart Mining Society, Student Chapter, American Institute of Mining and Metallurgical Engineers, is an organization that brings the mineral industries student closer to the mineral industry. Movies of mining, metallurgy, and allied fields are the highlights of the bi-monthly social and business meetings. The climax of the year's program comes at the annual A.I.M.M.E. banquet which the students and many prominent leaders in the mineral industry attend.

The local student branch of the American Society of Agricultural Engineers has proven to be of much value to students at Virginia Tech who are enrolled in this curriculum. The club affords the opportunity to its members for leadership development, fellowship among the students who have similar interests, and closer relationships with the faculty of the department.

The programs are designed to be of special interest to people who have a common and sincere desire to aid in the development of agriculture through improved methods. Speakers are invited to present first-hand information concerning the work which is being done in their particular engineering field. Also movies of the most recent developments in agriculture are shown.

	Hunt, G. R.	Pugh, W. S.	Stanton, F. E.	

Prior to 1947, the building industry was without technically trained personnel for the field of production and distribution of building materials and equipment.

V.P.I. was one of the first colleges to establish a curriculum in Building Construction based on the recommendations of leading building industrialists throughout the nation.

The mission of this club is to promote fellowship and good will among the members, to encourage student interest in the curriculum, and to establish a better relationship between faculty and students.

By these means, this club helps the student to become a better man, both in his work and social life.

The purpose of the Society of American Military Engineers is to advance knowledge of the science of military engineering and to encourage and develop a spirit of cooperation between military and civilian engineers.

The programs of S.A.M.E. include discussions, socials, visiting speakers, participation in publications, and films made available by the Department of the Army Film Library.

Each year, the outstanding Senior R.O.T.C. student and the outstanding Junior R.O.T.C. student are awarded medals by the S.A.M.E. National Society.

Members of the Chemistry Club of V.P.I. are also student members of the American Chemical Society. This chapter is the second oldest student affiliate chapter in the nation. Activities throughout the year include movies, plant inspection trips, speakers, socials and demonstrations. Student affiliation helps the student in entrance into the national society and job procurement after graduation.

The Biology-General Science Club is made up of students interested in the biological sciences who are attending V.P.I.

The objects of the club are as follows: to bring undergraduates together in an effort to promote further interest in biological and related sciences; to gain a better acquaintance of developments in these fields; to meet fellow students with the same interests; and to broaden the scope of members.

Some of the activities of the club are as follows: field trips to observe practical application of biology; movies; speakers from other departments on the campus as well as from out town; and the mounting of interesting specimens in clear plastic to serve as teaching aids.

Directing and coordinating the activities of all recognized student publications; governing their major policies; and selecting their leaders for each year are the functions of the Publications Board.

The board is comprised of the publications heads of the *Va. Tech Engineer*, *The Bugle*, *The Virginia Tech*, *The Sentinel*, and *WVU*. In addition to these members, there are the president of Pi Delta Epsilon and four qualified faculty advisers.

This year we feel that much has been accomplished in every publication. We extend our best wishes for continued success to next year's board.

THE '55

Well, here it is--*The 1955 Bugle!* It represents the latest in a long line of fifty-eight yearbooks which started in 1895. Many, many hours of planning, preparation, and then 'burning of the midnight oil' have gone into this edition. We have strived to bring you a composite sample of the many interests and activities on our campus. The members of both the editorial and business staffs have worked hard and received little or no credit. This seems to make it a labor of love and sacrifice, but we of the staff feel that our efforts have been rewarded in this--the end product of our labor. We hope you like it too.

BUGLE

The Business Staff joins with the Editorial Staff in presenting to you this 50th edition of *The Bugle*. It was our responsibility to sell this book to the students and promote a well balanced advertising program, and in general to administer the financial affairs in such a way as to keep the profit as small as possible and still keep from winding up in "the red." We have in every way strived to make the 1955 *Bugle* a successful venture from the business standpoint and it is our sincere wish that you the recipient will enjoy it as much as we did our part in bringing it to you.

THE VIRG

We of the editorial staff of *The Virginia Tech* may be few in number—comprising less than one per cent of the total enrollment—but we feel that our job is one of the most important on campus. What is our job? It is simply to provide students, parents, faculty, and alumni with campus news, sports, opinions, and a laugh or two thrown in for good measure.

Blood, sweat, and tears weren't exactly shed during the last year in putting out the familiar Friday afternoon sheet, but quite a few less hours of study and sleep did result. These, however, were gladly given in order to bring you a paper which you would enjoy reading.

So, from the "Faithful Less-Than-One-Percent" to the "More-Than-Ninety-Nine-Percent," we hope you enjoyed our (and your) *Virginia Tech* as much as we enjoyed bringing it to you.

INIA TECH

The members of the Business Staff are an integral part of the successful operation of *The Virginia Tech*. These are the men whose work is not recognized by the majority of students and subscribers yet without whom the paper could not be published. The costs of printing are paid through the constant efforts of the Advertising Staff while the problem of distribution of approximately 900 papers is handled quickly and efficiently by the Circulation Staff. Throughout the year we have had the satisfaction of appreciation from the Editorial Staff and the fact of having been a part of *The Virginia Tech* in 1954-1955.

THE VIRGINIA

The Tech Engineer is a campus publication for the undergraduate and graduate engineers of Virginia Tech. Its purposes are: to entertain, to enlighten, and to serve its readers.

An effort has been made this year to delete the term "Engineering Journal," which has applied to the magazine in the past. By doing this we have doubled our sales and invoked favorable criticism, thus aiding our college by increasing its publicity.

TECH ENGINEER

While publishing the magazine the staff went completely mad. We had a lot of fun, gained invaluable experience, and were the victims of many 'close calls.' Technically, the magazine was a flop; financially, it was a gold mine (naturally we enjoyed our work). We'll have to admit though, we were tired of wearing our bullet-proof vests. However, "Madman" Robbins and "Punchy" Duma would like to wish everyone a Merry Christmas and a Happy Ground Hog Day.

STATION

The 1954-55 session saw the re-appearance of a well known hallmark on the Virginia Tech campus. Radio station WUVT began regular broadcasts after having been off the airways for almost one year. To the gratification of every Techman, popular songs, recorded by top musical artists, are heard once again. Periodic news broadcasts help the student maintain an excellent knowledge of current events. The introduction of sports broadcasts has opened an entirely new field in the Tech campus. Greater steps along this path are

foreseen for future college sessions. Interview programs aid the student in learning more about various college personalities, both student and faculty.

The WUVT staff has done an excellent job in placing the station back on a sound footing. Long hours on the engineering as well as the business end have paid off in a studio that every Techman can be proud of. Every member of the WUVT staff is looking to the future for bigger and better projects for Virginia Tech's own student station.

This organization was established at the first ROTC summer camp at Langley Air Force Base and was given the name of Arnold Society of Air Cadets. In May of 1950 the name was changed to the Arnold Air Society. In January, 1949, a squadron was formed at VPI and had the distinction of being the second squadron formed in the nation and was assigned the designation A-2.

The purpose of the Society is to recognize AFROTC students who have distinguished themselves by academic and military achievements, and to further the ideals of the US Air Force.

Omicron Delta Kappa recognizes and encourages achievement in scholarship; athletics; social and religious affairs; publications; and speech, music, and dramatic art.

Five indispensable qualifications for membership are: character; leadership; and service in campus life; scholarship; fellowship; and consecration to democratic ideals.

The Alpha Omicron Circle at V.P.I. was established in 1933. One of the basic functions of ODK is serving the community and teaching its members to revere the motto, "That I may Serve."

Pershing Rifles is a National Honorary Military Society whose purpose is to encourage, preserve, and develop the highest ideals of the military profession and to recognize these ideals in college R.O.T.C. students.

In its ninth year at Virginia Tech, Company E-5 has enjoyed its most successful season to date. The unit, comprising fifty-six men, was awarded first place in the annual Apple Blossom and Apple Harvest Festivals, and another first place in the Regimental Drill competition in Philadelphia. In individual honors, Company Captain Thomas T. Thompson, was proclaimed the outstanding com-

pany commander in the twenty-one company regiment.

Company E-5 has staged exhibitional drills at the Tobacco Bowl in Richmond, the VPI-W, Va. football game, and at the annual Boy Scouts of America Jamboree in Roanoke. The unit also participated in the Homecoming Parade and presented an exhibition honoring the Class of '04. Much credit for the tremendous success during the past year is due to the capable guidance of Captain G. T. Morris and Captain J. F. Barrett, to whom Company E-5 shall continue to look for sound counsel.

Scabbard and Blade, national honorary military society, was founded in 1904. The society is composed of the outstanding senior officers in the Cadet Corps in the different colleges and universities of the nation. It seeks to encourage and develop those attributes of military appearance, ability, and personality combined with that breadth of interest necessary to make an officer and a gentleman. Company I, Seventh Regiment, was installed on the V.P.I. campus in May, 1938. Its membership is restricted to those who show exceptional qualities of leadership. The purpose of the society is to promote any ideals which might contribute to the development of the essential qualities of good and efficient officers.

SIGMA GAMMA TAU

The Sigma Gamma Tau Society was formed on February 20, 1953 at Purdue University by a merger of the two national honorary aeronautical engineering societies, Tau Omega and Gamma Alpha Rho. All members of the two parent organizations became, at that time, members of the new society, Sigma Gamma Tau.

The purpose of Sigma Tau is summarized in the preamble of the society's national constitution, which states: "The Sigma Gamma Tau Society is established to recognize and honor those individuals in the field of aeronautics who have through scholarship, integrity, and outstanding achievement been a credit to their profession. The society seeks to foster a high standard of ethics and professional practices and to create a spirit of loyalty and fellowship, particularly among the students of aeronautical engineering."

The name Sigma Gamma Tau, signifies the merger of the parent organizations into a single strong organization which will continue to promote the ideals of those two societies.

The persons eligible for membership include aeronautical engineering students in the upper one-third of their senior or upper one-fourth of their junior class, graduate students who met the above requirements as undergraduates, and also the individuals in the aeronautical engineering profession who have made worthy contributions toward the advancement of the profession.

The members may be joined together in chapters or clubs. Chapters are named after the schools in which they are established. Clubs are named after the cities in which they are organized. Chapters may be established in colleges or universities offering an aeronautical engineering curriculum where such curriculum or option is approved by the Engineers Council for Professional Development.

The symbol (key), certificate of membership, seal and ritual of the Society are prescribed in the Constitution. The colors of the Society are red and white.

The Tau Beta Pi Association was founded at Lehigh University in 1885 by Edward Higginson Williams, Jr., to mark in a fitting manner those who have conferred honor upon their Alma Mater by distinguishing scholarship and exemplary character as undergraduates in engineering, or by their attainments as alumni in the field of engineering, and to foster a spirit of liberal culture in the engineering colleges of America. Since its installation in 1933, the Virginia Beta Chapter has consistently worked to promote the ideals of the Association on the campus of V.P.I.

PHI KAPPA PHI

The Honor Society of Phi Kappa Phi was founded in 1897. There are 65 chapters in the United States. Its purpose is to emphasize scholarship and character in the thoughts of college students and to foster the significant purposes for which institutions of higher learning have been founded. Phi Kappa Phi has tended to stimulate mental achievement by recognition through election to membership. This membership is limited to those students who are among the upper one-eighth of their class. Only one-tenth of any class, however, may be elected. The V.P.I. Chapter was installed in 1921 with fourteen charter members. Since that time there have been 1580 members elected.

Alpha Sigma Mu, the metallurgical engineering honor society, was founded at the Michigan College of Mining and Technology in January, 1932. On November 26, 1941, the Gamma chapter was installed at VPI. The Greek letters, Alpha Sigma Mu represent the arts and sciences of metals. Its purposes are to recognize the scholastic attainments among students of metallurgical engineering or outstanding attainments among alumni and to be an effective link among students and the industrial metallurgical organizations.

CHI EPSILON

Chi Epsilon, a national honorary civil engineering fraternity, was founded at the University of Illinois in 1922, based on those characteristics of the individual engineer deemed fundamental to the successful pursuit of an engineering career. The Virginia Tech Chapter was installed on April 15, 1941.

The fraternity fosters the development and exercise of fundamentally sound traits of character and technical ability among engineers which will work towards a higher standard of service offered to humanity by the engineering profession.

PHI LAMBDA UPSILON

Phi Lambda Upsilon was founded as an honorary chemical society in March, 1899. The Alpha Theta Chapter was installed at VPI in February, 1933. The aims and purposes of the society were from its inception "the promotion of high scholarship and original investigation in all branches of pure and applied chemistry." Election into Phi Lambda Upsilon is based strictly upon high scholarship and good character. The membership is drawn from the chemistry, chemical engineering, and bio-chemistry curricula. To recognize scholarship, each year the chapter presents an award to that sophomore in a chemical curriculum who has the highest quality credit average for the first five quarters.

PHI SIGMA

Phi Sigma, National honorary society, was founded March 17, 1915, at Ohio State University. The Alpha Psi chapter was installed at VPI in 1949.

The object of the society is to promote interest in biological research and to afford opportunities for fellowship between students and faculty members in agronomy, animal husbandry, biology, dairy husbandry, and poultry husbandry. Although originally designated as an honorary biological research society, it is not to be considered as a working guild of biologists interested in research. In effect, election to Phi Sigma is an opportunity for better work, rather than merely election to an honorary society.

The Baptist Student Union is the youth organization that serves as a connecting link between the V.P.I. campus and the Blacksburg Baptist Church. The purpose of the B. S. U. is to serve the college community by promoting spiritual development of students through Christian comradeship, witnessing, Bible study, prayer, church membership, denominational loyalty, and kingdom advancement. It seeks to make college life Christian, spiritually pre-eminent, student friendships happy, and student Christianity maximum.

The Hillel Club, an affiliate of the B'nai Brith Hillel Foundation, helps the Jewish college student to carry on his activities in a Jewish atmosphere while in school. Through our club the members get cultural, inter-faith, religious, and social activities. It also helps to bring a better understanding between the Jewish and Non-Jewish students.

Founded by Sir George Williams of London in 1844, the Young Men's Christian Association came to the United States seven years later. In 1872, when the Virginia Polytechnic Institute was established, the Y.M.C.A. was the first Christian society of students and professors to be organized on the campus. For eighty-two years, it has operated effectively, seeking to enrich the spiritual life of many thousands who have attended Virginia's land-grant college.

Affiliated with the National Council of the Y.M.C.A., Tech's Christian Association attempts to integrate its program with the total educational process through democratic procedures; recognizing worship, study, and action as essential to spiritual growth.

The Wesley Foundation is the Methodist Church at work on the Virginia Tech campus. Seeking to make Christianity real and vital to Techmen, the organization is directed by a full-time minister to students and serves through the local Methodist church. A student center provided for use by Wesley Foundation members serves as their "home away from home" while at VPI. The program is student centered, seeking to enrich the spiritual lives of members by providing a medium of worship and fellowship through which the highest ideals and aspirations of Christian minds can be expressed and understood. All Methodist students at Virginia Tech are considered members of the Wesley Foundation, and are invited to participate in its program.

The Westminster Fellowship is composed entirely of Presbyterian college students with adult advisers. It exists to provide a bond among Presbyterian students on the campus. It provides them with a bit of social and spiritual life that may be lacking in their everyday living.

All Presbyterian students are considered to be members of the Westminster Fellowship.

The purpose of the L.S.A. is to afford a means whereby Lutheran students in America may consider and act upon their common problems in the service of Jesus Christ in conformity with the common faith of the Lutheran Church of America.

On the campus the above and emphasis are to strengthen and unite Christian students in their faith through the use of the Bible, prayerfully and in groups, through groups, through regular church attendance, through frequent reception of Holy Communion, and through fellowship in the L.S.A. of America, to encourage support of the Church and its work here in our world today, and to afford the opportunity for cultivating friendship and social life on a Christian level.

The Newman Club is an organization of Catholic culture and fellowship. Its purpose is threefold: religious, intellectual, and social. The practice of religion is not something that can be shelved during a student's college years but must be continually studied and used if the student is to show any spiritual growth. By discussing present day affairs, a student grows intellectually; and by meeting and talking with Catholics, a student becomes acquainted with other students of his own faith.

Representing the nation's largest apple growing area, the Apple Club consists of students from the northern counties of Virginia and the West Virginia Panhandle.

The Apple Club strives to promote good will and fellowship among its members, and to aid new students in becoming acquainted with college life. Regular meetings and smokers are held on the campus and other social activities are held during vacation periods. The highlights of the years activities are the annual Christmas dance, the spring vacation banquet-dance, and the June picnic honoring the graduates.

The V.P.I. Rifle Club promotes interest in all phases of smallbore rifle and pistol firing. This year activities have included intramurals, picnics, movies, coaching of inexperienced members, and outdoor shoots to familiarize members with military and other high-power weapons.

An added stimulus this year was the membership of co-eds, something new to this club.

The Danville Club was organized for the development of good-will and fellowship among the residents of Danville and the surrounding territory. Its activities have consistently increased in both membership and social functions. Most outstanding of these is the annual Christmas party.

Membership consists of cadets and students of the Civilian Student Body. Among these are students who have entered V.P.I. at Blacksburg after completing their first two years of study at V.P.I. Branch, Danville.

The Hampton Roads Club is the oldest and most active of V.P.I. sectional clubs. The club is composed of students from Newport News, Hampton, Warick, Phoebus, Bull Island, Williamsburg, and surrounding territory.

The club annually sponsors three dances at home as well as its formal private Christmas Ball with the Peninsula Alumni Chapter.

The purpose of the Hampton Roads Club is to promote good will and fellowship among its members, to aid new students in becoming acclimated to college life, to promote a better understanding between the Cadet Corps and the Civilian Student Body, and to foster a closer relationship between the alumni and students of the Hampton Roads area.

The Norfolk Dance Club, formed in the fall of 1945, consists of students from the Norfolk area. The club is strictly social, and operates on a non profit basis. The main purposes of the club is to broaden the students social and campus life, and to promote a stronger bond of friendship and a greater unity among the Norfolk area students.

The functions of the club include annual Thanksgiving and Christmas dances, held in Norfolk during the holiday seasons. Quarterly socials are held with the Tidewater Club of Radford, and other social functions are held throughout the year for the pleasure of the club members.

The Peanut Club is one of the many sectional clubs on the Tech campus. Any student residing in the cities of Suffolk, Smithfield, or Franklin, and in the counties of Nansemond, Isle of Wright and specified sections of Surry and Southampton is eligible for membership. The club operates on a non-profit basis and the business of the club is of a strictly social nature. Meetings are held every other week at which time business is discussed, followed by a movie or refreshments. The highlight of the year is the annual Christmas dance held in Suffolk.

BLACK DIAMOND CLUB

OFFICERS

J. E. ROBERTSON *President* B. L. THOMPSON *Secretary*
 P. T. SIRONKO *Vice-President* J. E. BEARD *Treasurer*

Cooke, E. M.	Harman, C. D.	Miller, G. W.	Stacey, J. S.	Yost, O. B.
		Muney, H. S.		

The Black Diamond Club is one of the youngest sectional clubs on the V.P.L. campus. It was organized in the Spring of 1947. Our organization is composed of students from Mercer and McDowell counties in West Virginia, and Blaine and Tazewell counties in Virginia—the heart of a great coal empire. The purpose of our club is to provide a strong fellowship and a greater unity among the students from this area while in school and after entering professional fields.

Our outstanding social event of the year is the annual Christmas Dance. Other activities include movies, smokers, and club parties.

The V.P.L. Cave Club, a branch of the National Speleological Society, has been on the Tech campus for more than twelve years. Its purpose, aside from aiding the scientist in his search for knowledge of caves and data concerning them, has been to discover, map, and explore new caves in Virginia. In particular, the members have done considerable research on New River Cave, near Goodwin's Ferry, Virginia, where the above picture was taken.

One of the high-lights of the year was the week-end trip to an Indian Burial Cave near Tazewell, Virginia. When first discovered several years ago, the club did a considerable amount of excavation there and unearthed many bones and relics of a pre-Revolutionary battle between two Indian tribes. Although nothing really significant was accomplished on this trip, members returned laden with bones and tales of adventure.

Non-members were often invited on its regular weekly field trips. They discovered a few new caves and explored Starvos Cave. This cave, the largest in this section of Virginia, is famous for its two 80 ft. waterfalls and its tremendous main chamber, a magnificent room 150 ft. high and 1,000 ft. long. Caves such as this and many others enabled members to learn and practice the principles of safe rope-work and staging. Though a bit wet and muddy at times, the trips were thoroughly enjoyed by all.

The Richmond Club is one of the best mediums through which boys from the Richmond area can meet together in a carefree atmosphere and really get to know each other. The Richmond Club ended last year's school session with a very successful picnic held at Beaufort Springs immediately after school was out. The Richmond Club had a very nice party after the V.P.I. vs. Richmond game held in Richmond on October 16 at the William Byrd Hotel. This party ended a very nice trip for the Corps of Cadets, since they attended the game. When we went home for the Thanksgiving holidays, a dance was held at the Hotel John Marshall with music furnished by Newton Thomas and his Orchestra. Soon after this, we went home again for the Christmas vacation, which we started off with a Christmas dance at the Richmond Hotel with Newton Thomas and his Orchestra furnishing musical entertainment. We concluded the fall quarter events by celebrating 1955 with a New Year's Eve dance at the Bon-Air Community House. The Richmond Club has always strived to provide entertainment and pleasure for its members and other Tech students, and in the future years we will continue to work to prove beneficial to V.P.I.

The Seminole Club is composed of students from Martinsville, and Henry and Patrick counties and was organized to promote closer relations between students from these areas by sponsoring and carrying on social functions.

The object of the Apollo Club is to promote interest in competitive weight-lifting as a sport, and body building as a means of physical improvement. Although the organization is very young, it is one of the most active clubs on the campus. The Apollo Club maintains a modern, well-equipped gym which is open to all students.

ATHLETICS

ATHLETIC DIRECTOR

This past year has seen the athletic program at Virginia Tech progress in a most gratifying manner. One in six students participate in intercollegiate athletics, indicating an increasing number of young men are anxious to include sports in their quest for a well-rounded college life.

We in the athletic department have been pleased with other signs of progress made during the 1954-55 session. Our attendance at athletic events has increased, showing a wholesome interest on the part of the students, alumni and friends in our teams. We have enjoyed a good measure of success in our participation with other intercollegiate teams and our aim for a well-rounded program is nearing a desired level.

With regard to the latter, the 1954 baseball team won the Southern Conference championship and gained the right to represent this district in the NCAA playoff. Our football team went through the 1954 season undefeated, marking the first time since 1918 that such an accomplishment had been made. And our wrestling team won the Southern Conference dual meet and tournament championships in marching through the season unbeaten.

The athletic department offers a broad program for participation on the intercollegiate level. Eleven sports draw an estimated 500 participants. The activities are football, cross country, wrestling, basketball, swimming, indoor track, rifle, baseball, tennis, golf and outdoor track. The rifle team, the newest activity, is under the direction of the ROTC unit but is sponsored by the athletic department.

Intercollegiate sports are constantly filling a need at Virginia Tech. We intend to continue to strive and im-

prove our program for the benefit of our students, who would be forced to spend their leisure time elsewhere in the event a well-rounded program was not offered for their participation and enjoyment.

The Virginia Tech Monogram Club is composed of men who have been awarded a monogram in one of the varsity sports. Letters and sweaters are given to the members by the club in recognition of their achievement in sports. The purpose of the organization is to maintain a close bond of fellowship among varsity athletes at Virginia Tech; to foster and promote athletics at Virginia Tech in every way possible, and to encourage prospective athletes of good character to attend this institution.

FOOTBALL—UNDEFEATED—1954

Enough praise cannot be given to the 1954 Virginia Tech Football Squad. With a mediocre season last year and many vacancies left in the starting lineup due to graduation, the forthcoming campaign was not looked on with confidence by even the more loyal Gobbler supporters. To the thunderous approval of all, the Gobblers from Blacksburg marched on to an impressive undefeated season, winding up as the number 18 team in the nation. A change could be seen in the season opener when the

wolfpack from N. C. State was humbled by the Hokie Eleven, 32-21. Powerful Wake Forest and Clemson fell before the Gobblers by one-sided scores. National recognition came to V.P.I. as Richmond and Virginia were knocked off as the season reached the halfway point. A stubborn William and Mary team held the Gobblers to a 7-7 tie, the only blemish on their first undefeated season since 1918. Fired up, the speedy Tech Squad trumped George Washington and Waynesburg, and resoundingly closed out the season by smashing V.M.I. 49-6. The final record was eight wins and one tie. Although V.P.I. did not play in a post season bowl, she lifted herself to the deserved recognized position among colleges throughout the nation.

Left to right: Moseley, Youngling, McEver, Satterfield, Genito, Chapman, and Redding.

V.P.I. 32 — N.C. STATE 20

Led by Howie Wright's two touchdowns, the Gobblers opened the season by stomping N. C. State 30-21. The wolfpack drew first blood as they stopped a Tech drive of 60 yards and marched to pay dirt in ten plays from their own 39.

However, on the first play from scrimmage in the second quarter, Johnny Dean handed off to Howie Wright on the Tech 37, and Howie covered the remaining 67 yards on a spectacular run. Dickie Beard kicked the first of four successful conversions and the game was tied-up.

The whole Gobbler forward wall played tremendous ball. They held the pack without a first down in the second and third periods. The Tech backfield pounded out 317 yards on the ground and made 19 first downs. Dean, Beard, Wright, and Petty showed great display of power during the afternoon contest.

Divers on the way

Tech's Co-Captains receiving Tobacco Bowl trophy

V.P.I. 32 — WAKE FOREST 0

Too much good could not be said about Tech's football team and their performance in whitewashing the "Demon" Deacons of Wake Forest in their Tobacco Bowl debut, 32-0.

Tech's first score came in the first period when Johnny Dean went over from the one after a series of carries by Beard, Burke, and Anderson.

In the same period after a series of line plunges by Burke, Cranwell hit Howie Wright clear behind the

Forest defenders and the speedy halfback scampered over the goal.

Early in the second half, Wright took the ball on a pitchout at the 34 and ran 54 yards for the third tally. With two great runs on pass interceptions followed by consistent gains all afternoon Howie Wright was selected as "Player of the Week." Excellent teamwork in the execution of plays was displayed by the entire Hokie Squad.

BURKE

KERFOOT

All Southern Conference

WRIGHT

V.P.I. 18 — CLEMSON 7

Tech's underdog football Gobblers strutted to trash the Tigers and gain an 18-7 decision on to the Clemson gridiron, and proceeded on this hot afternoon.

Spearheaded by the swift-striking light brigade with this year's ace yardage machine Howie Wright, and the top rusher of the 1953 season, Dickie Beard, leading the assault, the Gobblers took command in the early stage of the tussel and then had to use all of it's defensive maneuvers after the half to halt a retreading Tiger Eleven.

The Gobblers played an alert and defensively cautious game in the first half which resulted in their trio of tallies. Coach Frank Mosely described this display on football progress as the best performance that he had seen. A forward wall of determined huskies and a greased trio of backs have resulted in the ruin of three A.C.C. teams by Tech in three weeks.

V.P.I. 19 — RICHMOND 12

Led by Dickie Beard and Tom Petty, the Gobblers squeezed out a 19-12 victory over the hard fighting Richmond Spiders.

The Techmen had to come from behind as all the scoring was done in the first half. Beard and Wright took turns smashing down to the 30 after the opening kickoff. Dean took over and made the score 6-0 for Tech.

Dean and Wright left the game in the second quarter with leg injuries and left Tech with only 2 experienced backs. Billy Cranwell took over the quarter job and put Tech in a 19-12 lead at the half.

The second half was featured by brilliant line play. The Gobblers were knocking on the door as the game ended. They had moved to the Richmond 3. The injuries to the backfield were increasingly felt during the remainder of the season.

team victory for the Gobblers and no player really stood out above the others. Hayes Burlison and Don Divers, substituting fullbacks, contributed heavily to the Tech ground attack along with Dickie Beard who intercepted 3 U. of Va. passes.

V.P.I. 6 — VIRGINIA 0

The injury-riddled Hokies defeated a strong University of Virginia team 6-0 at Victory Stadium in Roanoke. Tech scored early in the second period and then sat on the lead to outlast Virginia in a ding-dong defensive battle. Both teams played it to the hilt right up to the last whistle with the stronger Hokies emerging on top.

In the second period after a series of short runs, Cranwell connected on two passes. The latter pass, caught by end, Grover Jones, resulted in the day's only score. Tech's crippled light brigade pushed the improving Cavaliers around all afternoon but lacked the final push needed to score more frequently. It was a

Man of the hour on the move

Beard moving hard for an attempted score

Divers on the mouse after picking off a stray pass

V.P.I. 7 — WILLIAM AND MARY 7

Before 16,000 homecoming fans Virginia Tech's Gobblers rambled all over Miles Field but went nowhere in particular as they had to settle for a 7-7 tie with a band of hustling Indians from William and Mary.

Ranked 14th in the nation, the highly regarded Gobblers had to come from behind in the last 4 minutes to match the seven points hung up by W & M on a 55 yard run following an intercepted pass.

Tech scored the hard way with Billy Anderson scampering over on a triple reverse. The Gobblers chalked up 366 yards to the Indians 88 yards, but inside the enemy 20 a surprising defense spoiled most scoring opportunities.

Indians moving in to stop an evasive Techman

RICHARDS
CUBA
HAREN

Luke beaming behind his armful of equipment

V.P.I. 20 - G. WASHINGTON 13

Tech uncovered a new weapon, the pass, and fired it effectively to record a 20-13 victory, thus spoiling the homecoming of G. W.'s Colonials. Cranwell and Anderson connected on 6 out of 7 pass plays, 3 of them for TDs.

After stalling a G. W. drive in the first period Tech started a field-length drive which ended in an 18 yard TD pass to end, Grover Jones. With their paydirt appetite still hot, Tech recovered a Colonial fumble and marched on to a 14-0 score. The TD came as the result of a 28 yard pass play from Cranwell to end, Tom Petty who was waiting in the end zone behind the surprised Colonials.

The last score came when Cranwell whirled on the snap, handed off on the double reverse and watched Anderson start to sweep right end, hesitate and then pass to end Roger Simmons for 22 big yards. Following a line smash by Hayes Burleson, Anderson took a handoff, and while the befuddled Washingtonians watched helplessly, passed to big Bob Luttrell who was standing in the end zone diagonals for 6 points.

WOLFENDON SCRUGG
CRICKSHANK

V.P.I. 20 — WAYNESBURG 6

Tech kept its undefeated records intact by handing out a 20-6 drubbing to a stubborn Waynesburg college. For twenty-nine minutes the Yellow Jackets fought Tech while holding an impressive 6-0 lead. With one minute to go in the half, Cranwell clicked with a pass to end Tom Petty, and Frank Webster kicked the conversion to give the Hokies a 7-6 halftime lead.

Beard clutches the ball and sets sail

Dickie Beard again turned in a stellar performance. The durable all around back passed for one touchdown, punted out of bounds on the Yellow Jackets 2 yard line in his only punting attempt, intercepted a Jacket pass and ran 79 yards for another touchdown. He was ably assisted by the fine work of 10 other Gobblers in his TD jaunt.

Beard side-stepping an opponent

V.P.I. 46 — V.M.I. 9

Virginia Tech kept Hokie followers with a funny "not again this year" feeling in their throats during the opening quarter of the military classic on Thanksgiving Day, and then proceeded to batter the V.M.I. football team until it was ashambles and gasping.

Sophomore fullback Don Divers was named the outstanding player of the day as he intercepted 2 Keydet passes and ran 42 and 67 yards for the touchdowns.

Look what we have!

SINK
HEADS

GEORGE JONES
HOBICK

Five big Techmen slammed over the V.M.I. goal for touchdowns in the lavish scoring barrage. Tom Petty scored twice along with Divers, as Beard, Dave Ebert and Bobby Scrugges scooted over for two tallies. Practically everyone on the bench saw action in the second half. Thus a happy ending marked the end of a successful year of football at Tech.

Divers scoots into end zone for another score

Scruggs sweeping left end for T. D.

FRESHMAN FOOTBALL

Not to be outdone by their big brothers, Tech's baby Gobblers turned in a sterling performance for the year with a record of four wins with only one defeat. With one of the finest groups of players in the schools history, all indications point to an even better season next year

when the frosh move up to the varsity.

The season was opened with an impressive 18-6 victory over the frosh from Emory and Henry. With end Bill Tilling and backs Corbin Bailey, Frank Webster and Barry Frazee away with the varsity, the Gobblers started

slow, but came on in the second half to score eighteen big points.

The biggest crowd ever to see a frosh game in Miles Stadium witnessed the Techmen emerge on the top side of a 23-20 hard fought battle with the freshmen from Duke. The Gobblers with two much speed, power, and depth took the game away from the much publicised "Dukes" despite a fine passing attack shown by the Duke quarterback.

The only loss of the season was delt by a powerful West Virginia squad in a much contested game. It proved that the deceptive ball handling of the Tech backfield was too great for even the officials to follow as one T. D. was called back when the confused officials couldn't keep up with the play. The game was close either way, with West Virginia gaining a 20-13 victory.

Virginia, with a strong second half could only come up on the short end of a 37-21 score at Charlottesville. At the half, Tech led 34-7 and substituted freely in the last half.

With one of the greatest exhibitions of football tactics ever displayed by a freshman team in Miles Stadium, the Gobblers buried rival V.M.I. underneath a stunning 58-0 whitewashing.

It would be hard to single out any individual stars on this years freshman squad, because of the large number of great players. The backfield was at least two deep in every position with talented backs. As with the backs, many linemen will make bids for first string positions on the varsity next fall.

COACH REDDING

SWIMMING

With 2 outstanding wins and only one loss (a 43-41 heartbreaker) so far this season, Coach Dick Redding's tank men appear to be headed for another good season. The win's were over Davidson, and William and Mary, while U. Va. upset the mermen in a close one. Co-Captain John Lineweaver and backstroke-title-holder George Ross

have scored several first and several second place finishes thus far during the young season. Other outstanding swimmers this year look to be freshmen James and Grossman and retiring varsity members, Harlan, Anderson, Meyer, Snyder, and Co-Captain Jim Parrish.

CONRAD KNIGHT, GLEN JUSTICE, BILL MAYES, JACK POND, JOHN McCALDER, MATT McCULLOCH, STAN RYSEX

BASKETBALL

It was not expected that Tech would have a championship basketball team this season. The team was young and too inexperienced to be able to post a good season record when the South was having its best year as far as top talent in a majority of other schools was concerned. With the emphasis on football, wrestling, and baseball, the Gobbler basketekers have to take a back seat for at least another year. The rebuilding process is in full swing with a good group of freshmen joining the improving varsity next year.

The Gobblers started off strong with a 4-4 record. From that point a string of 17 straight defeats was hung on the luckless hokies, until finally being broken during the last week when victories were chalked up against the Citadel, V.M.I., and high scoring Virginia. The games were not as bad as might be believed. While playing on the home court several close contests were fought with only a few points separating the winning and losing teams. Against Furman, West Virginia, Richmond and William and Mary, power houses of the conference, the outcome was not known until the final gun had sounded. With a more experienced squad next year and a fine group of new talent expected, the outcome of these close games could turn the next season into a winning one.

Junior "Moose" Mathews was the big gun in the Tech scoring department for the second straight year. However, several other boys improved with each game and have been rated as sure stars in future seasons at V.P.I. Abe Coates, 6' 4" sophomore, showed good form under the boards and displayed fine accuracy in close. Jim Howel, Dick Vincent, and Dave Kuhn played outstanding floor games for the Gobblers. Hemmings, Quillen and

COACH "RED" LAIRD

Snyder proved their worth from outside with long set shots.

With a poor season under their belts and consistent ball players expected, the Lairdmen are confident of a much better season on the courts next year.

Va. Tech's Frosh cagers had a fair season in spite of several handicaps. Coach Laird could schedule only 5 games because several freshmen were needed on the varsity squad. After losing a close game to Washington and Lee, 52-50, the frosh came right back to trounce

Coates grabbing a rebound

the same W & L squad on their home court. Other win's were posted over the Keydets of V.M.I. and over Danville Extension. The only losses came at the hands of the same strong V.M.I. and W & L. squads. This gave the freshmen an over-all record of 3 win's against 2 defeats.

In spite of having so many good men away with the varsity, the frosh put on an excellent performance. With these men moving up to the varsity next year and good freshmen talent expected in, next season should prove to be a good basketball year for Tech.

TRACK 1954

Co-Captained by Bill Blake and Ashton Violette, last years track team came away with many laurels. The Gobblers placed second in the Southern Conference meet held here at Miles Stadium. Bee Lankford was Tech's top man in the high and broad jumps while Frank Hardy was a consistent winner in the mile and 2-mile races. Ronnie Binner, Bill Blake, Tom Richards, Allan Booe, Bill Cox, Dickie Beard, Bob Glover, and Dave Carter turned in excellent performances during the season to the credit of their school and to themselves.

Next season the cindermen should be stronger but will be weak in the dashes and the hurdles. However, Coach Dick Redding expects to recover the Big Six title. The frosh also enjoyed an excellent season and should fill many vacancies on the varsity. Coach Redding is especially happy because of the revision of the freshman rule stating that freshmen may now compete on varsity squads in the Southern Conference. With the building program in full swing many good freshmen are anticipated next season.

Bottom: Freshman track team—Kitchen, Arnold, Glover, and Violette—winning relay team of the Southern Conference.

COACH "RED" LAIRD

BASEBALL — 1954

Coach "Red" Laird's nine proved that baseball is back at Tech to stay. V.P.I. had one of the smoothest working nine's of any college. They showed this by waltzing to the Southern Conference and Big Six titles and then defeating Clemson in 2 straight games to add the Atlantic Coast title

to their impressive record. On June 5, the moundsmen journeyed to Winter Park, Florida in order to play Rollins College in the NCAA District 3 finals.

The season was a very impressive one with Tech whipping everyone on the schedule at least once.

Left to right:

First row: Burke, Wright, King, Mitchell, White, Scruggs, Wolfe.

Second row: Anderson, Clarke, Simmons, Beard, Balderson, Tedrick.

Third row: Dean, Myers, Williams, Avery, DeHart, Coach Laird.

Beard steals third

Catcher Howie Wright

Loaded with good talent, the combination won both the hazardous close games and supplied the fans with the lopsided white washings, too. Howie Wright, Tech's great catcher, was the big gun in the hitting department winding up with a .378 mark. Following close behind were center fielder Leo Burke, .357, Jim Clark, sparky second baseman, .310, and A. O. Smith, first baseman, .290. Wright obtained the most hits with 28, Burke with 24, Clark, 18, Mitchell, 17, and Smith, 16 followed

close behind. Tech wound up with a 10-4 Southern Conference record, good for a title in any conference.

Jim Beard again was the hokies leading moundsman posting 6 wins against only 2 losses. Beard was an all around credit to the team, batting .285, high for a pitcher. Julian King won 4 while losing only one, and Johnny Dean wound up with 2 victories against only 1 defeat.

JIM BEARD, pitcher

Another great baseball team is seen for next spring. Jim Beard, A. O. Smith, Julian King, and Mitch Tedrick will be gone, but 3 good frosh hurlers coming on and with the likes of Wright, Burke, Scruggs, Anderson, Clarke, Dean, Simmons, and Wolke still around, Spring can be looked forward to with the greatest of confidence.

WRESTLING — UNDEFEATED

Not to be out done by the football men, the Gobbler wrestlers went through an exciting undefeated season. With a record of 8-0, the matmen were only slightly terrific. In early spring the conference leaders journey to Lexington as favorites in the annual Southern Conference Tournament. Exactly half of the foes that faced the talent of V.P.I. lost by pins. Three men on the grappler squad, Carson, Swindell and Taylor won all of their matches. Carson did his the hard way, pinning all eight men that faced him.

Here is a sport where individual talent prevails, and Tech had plenty of it this year. John and Roy Wright, Al Carson, Armand Taylor, Bob Swindell, Kenny Williams, Frank Brinn, John Smith, Reggie Childers, Bill

Heineman and Jim Locke must be mentioned because of their fine performances in giving Tech and Coach Frank Teske their first undefeated season since 1925. Tech defeated in succession such power houses as Washington and Lee, V.M.I., Davidson, and West Virginia in the Southern Conference. In addition to these, Duke, North Carolina, and Virginia of the Atlantic Coast Conference, plus Marshall College, have fallen to the Techmen. All of this years team will return next year, so watch out rivals.

The freshmen baby grapplers had an undefeated season also, scoring wins over Virginia and North Carolina while V.M.I. was able to squeeze out a tie.

GOLF — 1954

In regular match play this year, Tech's Gobblers had a successful fling of it and showed a record of 4 wins against 3 defeats.

Despite disappointing play in the Southern Con-

ference Tournament, Coach J. P. Newman holds that a good job was turned in by his performers. High praise goes to aces Bill Deemer, R. E. Foutz, and Jack McGregor who left the team in June via a diploma.

A talent loaded freshman squad moves up next year with hopes of a better season already anticipated.

With mostly freshmen and sophomores on the squad, next year appears to hold more success in store for the Gobblers. Max Bryant, Henry Hutch-

inson, Chuck Moyers, and Fletcher Bryant deserve credit as the standouts on this year's team.

TENNIS—1954

Tech's netmen coached by W. L. Buchanan won 2 and lost 3 last season. After blanking Bridgewater 9-0 in its opening match, the Techmen lost to Virginia, Washington and Lee, and William and Mary.

RIFLE

At this point, it appears that Tech has produced another fine team in this year of the new look in sports.

The V.P.I. Varsity Rifle Team is undefeated having successfully out-fired teams from West Virginia University, V.M.I., and the University of Virginia. In addition to the varsity, Tech boasts of three other rifle teams: the R.O.T.C. Team, the AROTC Team, and the Junior Varsity, all of which are undefeated as this book goes to press. Such formidable opponents as Maryland, Georgetown University, and the United States Naval Academy must be conquered before that shout of success can prevail.

Tommy Gilligan, Milton Kingsbury, and Captain Bob Daley are the consistent men on the varsity squad. Following closely on their heels are Gay, Shriver and Gwynn in the marksmanship department.

OPPORTUNITY

awaits top technical men in the
world's largest factory of its kind

It's not the kind of opportunity that assures the most mediocre man a rocket-like rise to the "top". But it is the solid kind of opportunity that recognizes merit and offers steady progress to any ambitious, willing-to-learn, intelligent VPI Graduate who wants a future in a great Southern industry fast coming into its own.

Engineering, Chemistry, Selling, Advertising, General Business Administration — in these and other fields at The Lane Company, there are sturdy and much-used "ladders to the top" awaiting the *right men*.

VPI colors fly today at a number of key posts in the Lane organization: President, Plant Manager, Production Control Manager, Plant Engineer, Territorial Sales Representative . . . these to mention a few. Thus, the VPI Graduate now launching his career in the Company finds an especially congenial "Alma Mater" atmosphere to make him feel at home right from the start.

Don't judge opportunity by its distance . . . sometimes the *biggest opportunities* are closest to home!

LANE'S MODERN FURNITURE PLANT symbolizes the brilliant future for one of the South's youngest, fastest growing industries. These modern departments keep the highly geared LANE organization functioning at peak efficiency:

NEW YORK, N. Y.

To the Members of the Class of 1955

Greetings and hearty congratulations from more than seventeen thousand former students and their Alumni Association. Best wishes for a long, happy, and useful life as **Techmen**.

Through its local chapters and especially through its central office on the campus, the V.P.I. Alumni Association looks forward to serving you. It welcomes you into alumni status. It offers you the proud mantle of alumni stewardship to keep and to enhance.

Remember: If a great Alma Mater is in your dreams you must help make her great.

LEXINGTON, VIRGINIA

MORE than ever before, quality has become
an important factor in College Annuals.

Everything to express skill, technique, artistry, is revealed in our prints.

They are the only material proof of our ability, the only visible
evidence of the value of our photographs
and workmanship.

LYNCHBURG, VIRGINIA

A Memorable Year

•

• Congratulations to the Student Body and Faculty of Virginia Tech upon the completion of another outstanding year of accomplishments.

• The Staff of your annual has worked exceedingly hard to give you a superb book that portrays the highlights of memorable activities. To preserve this excellent literary and photographic record, the best grades of material have been combined with skilled workmanship to provide the finest quality yearbook.

• We are very proud that the 1955 Staff selected us to help design, print and bind the BUGLE. We have earnestly endeavored to fulfill the confidence placed in us.
