Shane,

As discussed a few months back, I know pictures of construction being done in the Central Plateau of Haiti are not easy to come by, so you have my permission to use any of my construction photos that pertain to your thesis. Let me know if you need anything else.

Thanks,
Nick Mason

Subject: Shane Larkin Thesis - A Church for Cange, Haiti

Clark and Nick,

As you may remember from a few months back, we discussed the possibility of me including a few of your photographs from your time in Haiti in my thesis book. I have now completed the book and attributed a few of the photos to you in the "List of Figures". I had listed the photos as being "used with permission", so the Graduate School would like to have an email on file that this permission has been granted. I have attached a copy of the thesis book for your information, so you know which of your images I have used. Could you please send me a short email stating that I have your permission to use these images? Please let me know if you have any questions or need additional information. Thank you.

Shane,

In response to your email request below, you have my permission to use any and all photos from my trip to Cange, Haiti, in your Graduate Thesis.
