Dear Prof. Al-Khwaji:

It is our pleasure to grant you permission to use the ASME paper “New Mathematical Model to Estimate Tissue Blood Perfusion, Thermal Contact Resistance and Core Temperature,” by Abdusalam Alkhwaji, Brian Vick, and Tom Diller, Journal of Biomechanical Engineering, Volume 134, pp. 1-8, 2012, as cited in your letter for inclusion in a Dissertation entitled Computational and Experimental Modeling of the Bioheat Transfer Process of Perfusion in Tissue Applied to Burn Wounds to be published by Graduate School at Virginia Tech.

Permission is granted for the specific use as stated herein above and does not permit further use of the materials without proper authorization. As is customary, we request that you ensure full acknowledgment of this material, the author(s), source and ASME as original publisher. Acknowledgment must be retained on all pages printed and distributed.

Many thanks for your interest in ASME publications.

Sincerely,

Beth Darchi
