Dr. Beegle,

I am a graduate student at Virginia Tech working for Dr. Wade Thomason studying nitrogen management in corn. I would like to include Figure 2 from the extension article Agronomy Facts 12: Nitrogen Fertilization in Corn (publication # CAT UC049) into my thesis that was authored by yourself and Mr. Durst. If I gain copyright permission from yourself, Mr. Durst and PSU I think this figure would be a valuable visual aid in my manuscript.

Sincerely,

--

to me

Justin,

You have my permission to use this figure. I think that as long as it is properly attributed you are welcome to use it.
