Hello,

I'm in the process of completing my dissertation at Virginia Tech. A portion of my dissertation includes the work we published in the proceedings of the 2010 Pacific Symposium on Biocomputing. I would like to obtain permission to use this article in my dissertation. The article details are:

Ball, D.A., *et al.* (2010) Co-design in synthetic biology: a system-level analysis of the development of an environmental sensing device. *Pac. Symp. Biocomput.*, 385-396

I am the co-first author of the work, Matthew W Lux. Permission in email form would be ideal. Please let me know if there is anything else I can do to facilitate this process.

Thank you,
Matthew Lux
