

## Use of Copyrighted Material

Chapter 1. Figure 1.

[Fair Use]

James, T. *Characterization of Transcriptional and Post-transcriptional Regulation of lin-42/period During Post-embryonic Development of C. elegans*. (Doctoral Dissertation, Virginia Polytechnic Institute and State University, 2012), pg. 34.

Fair Use Determination:

Purpose and Character of Use. This figure was used for non-profit purposes, specifically for research and scholarship.

Nature of the Copyrighted Work: This figure was previously published as part of a dissertation and contains factual material only.

Amount and Sustainability: This figure consists of a small portion of the overall work. This figure was used only to provide general background information on which the basis of my own work is built.

Effect: This figure was obtained lawfully and will not affect the market or potential market of the copyrighted work. Additionally, no similar copyrighted figure has been marketed by the copyright holder.

Finally, this figure was specifically generated for general use by Banerjee laboratory members.

Chapter 1. Figure 2.

[Fair Use]

James, T. *Characterization of Transcriptional and Post-transcriptional Regulation of lin-42/period During Post-embryonic Development of C. elegans*. (Doctoral Dissertation, Virginia Polytechnic Institute and State University, 2012), pg. 30.

Fair Use Determination:

Purpose and Character of Use. This figure was used for non-profit purposes, specifically for research and scholarship.
