Hi John,

I'm a PhD student at Virginia Tech and am finishing a dissertation involving the use of 3D virtual environments for learning purposes. I'm writing to ask your permission to include two images from your site in my dissertation document. The document will be a publicly available research document and, of course, I will cite your web site.

Here are the two specific images I'd like to include:

Please let me know.

Thanks,
Eric

Hi Eric,

Please go right ahead and do so. Glad to have helped you out.

I would also be curious to read our paper when it is published.

All the best,

Dr. Dede,

I'm a PhD student at Virginia Tech and am finishing a dissertation involving educational virtual environments. I'm writing to ask permission to include a couple images of the ScienceSpace worlds in my dissertation document. I'd like to include an image of MaxwellWorld and one of NewtonWorld that I found at http://www.virtual.gmu.edu/ss_photos. Can you let me know if this is OK?

Thanks,
Eric

Hi Maria,

I'm a PhD student at Virginia tech and am finishing a dissertation involving educational virtual environments. I'm writing to ask permission to include a couple images of the virtual playground in my dissertation document. I'd like to include images from your 2010 Virtual Reality paper (DOI 10.1007/s10055-006-0035-5) as examples of VEs used for conceptual learning. More specifically, I hoped to use the left image of Figure 4 and the middle-left image from Figure 5. I would cite the source. Can you let me know if this is OK?

Thanks,

Eric

Dear Eric,

Sure.

I am attaching the pictures that I believe you want to include, for your convenience.
Good luck with the completion of your dissertation; I would be interested in reading it after you're done.

Best wishes,

Dr. Dickey,

I'm a PhD student at Virginia Tech and am finishing a dissertation involving educational virtual environments. I'm writing to ask permission to include an image from Active Worlds in my dissertation document as an example.

Specifically, I'd like to include Figure 2 from:

Dickey, M. D. (2005). Three-dimensional virtual worlds and distance learning: two case studies of Active Worlds as a medium for distance education. *British Journal of Educational Technology*, 36(3), 439–451.

Can you let me know if this is OK?

Thanks,
Eric
