Hello Kenneth:

As long as you mention in your thesis that part of this section was presented in the 14th USMVS I do not see any problem.

I hope that helps. Let me know.

Thanks,

Felipe

Subject: Copyright Permission for Griffin, 14th Mine Ventilation Symposium

Dear Mr. Felipe Calizaya,

I am completing a doctoral dissertation at Virginia Polytechnic Institute and State University (Virginia Tech) entitled "Comprehensive Design and Utilization of Atmospheric Monitoring Systems in United States Underground Coal Mines and Application of Risk Assessment." I would like your permission to reprint in my dissertation the following paper:

Comprehensive ventilation simulation of atmospheric monitoring sensors in underground coal mines

K.R. Griffin, K.D. Luxbacher, S.J. Schafrik, M.E. Karmis. 14th U.S./ North American Mine Ventilation Symposium. Salt Lake City, 2012. 509-516.

The requested permission extends to any future revisions and editions of my dissertation, including non-exclusive world rights in all languages, and to the prospective publication of my dissertation. These rights will in no way restrict republication of the material in any other form by you or by others authorized by you.

If these arrangements meet with your approval, please response to this letter in the affirmative.

Thank you very much,

Kenneth Griffin

Dear Kenneth Griffin:

This acknowledges receipt of your manuscript, *Ventilation Risk Management in Underground Coal Mines: Atmospheric Monitoring in the United States*, for the 2013 SME Annual Meeting and Exhibit.

Your manuscript will be preprinted prior to this meeting in digital copy, which will be available to you at the meeting.

The number assigned to your paper is 13-118. Please use this number in any correspondence with SME headquarters for faster service.

A copy will be available to you for shipment after the meeting if you do not attend. SME must receive a written request from you for this.

Sincerely,

Tara Davis
Membership and Marketing Manager

Dear Kathi Noland,

I am completing a doctoral dissertation at Virginia Polytechnic Institute and State University (Virginia Tech) entitled "Comprehensive Design and Utilization of Atmospheric Monitoring Systems in United States Underground Coal Mines and Application of Risk Assessment." I would like your permission to reprint in my dissertation the following papers:

A Review Of Atmospheric Monitoring Systems In Underground Coal Mines: Implications For Explosion Prevention. K.R. Griffin, E.C. Jong, K.D. Luxbacher, E.C. Westman. SME Annual Meeting, Denver, 2011. SME Preprint 11-127.

and

Ventilation Risk Management in Underground Coal Mines: Atmospheric Monitoring in the United States. Kenneth R. Griffin, Robert M. Liebe, Kray D. Luxbacher, Michael E. Karmis, Barry C. Ezell, Robin L. Dillion-Merrill. SME Annual Meeting, Denver, 2013. SME Preprint 13-118.

The requested permission extends to any future revisions and editions of my dissertation, including non-exclusive world rights in all languages, and to the prospective publication of my dissertation. These rights will in no way restrict republication of the material in any other form by you or by others authorized by you.

If these arrangements meet with your approval, please response to this letter in the affirmative.

Thank you very much,
Kenneth Griffin

Hello

unless these were published elsewhere in SME—Mining Engineering or Minerals and Metallurgical Processing Journal, we do not hold copyright—not on individual preprints. So you are free to reprint at will. We do ask that you include a line stating where the paper was initially presented and published. Let me know if you have questions. Thank you.

Tara,

Thank you very much for the quick response! I will mention the SME conference it was first presented at and include the preprint number.

Thanks again!
