Dr. Lehoucq,

I am writing you because I would like to use a picture you included in a presentation into my Master's thesis. I found the presentation online and is attached here. I would like to use the picture on slide 8 about the local and nonlocal models, if it was possible, into my thesis named "Analysis of composites using peridynamics", written at Virginia Tech under the supervision of my advisor Dr. Gary Seidel. Thank you in advance for your help and I hope it will be no problem. I am a big fan of your work and I really appreciate what you did for the field fracture mechanics.

Best regards,

Corrado Degl'Incerti Tocci

Subject: Copyright permission

To whom it may concern,

my name is Corrado Degl'Incerti Tocci and I am in the process of submitting my Master's thesis at Virginia Tech. In my thesis I used a figure from the following paper:

Seleson, P., Parks, M., Gunzburger, M., and Lehoucq, B., "Peridynamic as an upscaling of molecular dynamics," Multiscale Modeling Simulations, Vol. 8, No. 1, 2009, pp. 204-227,

which I accessed through SIAM website and I believed was published by SIAM. I could not find information on the website on how to ask the copyright permission, therefore I am writing you to understand who I should ask permission to, and if there is a specific way I should do it. Thank you in advance for your help.

Best regards,

Corrado Degl'Incerti Tocci
