

To my dear wife Lija

Acknowledgments

I would like to express my sincere gratitude to my advisor, Dr. Fred C. Lee for his guidance, encouragement and continuous caring support during my graduate studies. The extensive knowledge, vision, creative thinking, and careful research attitude of Dr. Lee have been the source of inspiration and encouragement for me throughout this work. I am really prided and grateful to be one of his Ph.D. students, and to gain such an invaluable learning experience here.

I am so grateful to Dr. Milan M. Jovanović. Many in-depth discussions with him have invaluable shaped every part of this work. He is so patient to teach me how to write a nice paper and how to conduct a careful research. Besides, I would like to thank my other committee members, Dr. Dan Chen for helping me develop the graduate background in magnetic and EMI design, and Dr. Jason Lai, Dr. Guo-quan Lu and Dr. Yilu Liu for their help and encouragement on my research and education. I also would like to thank Dr. Dushan Borojevich, one of my favorite professors in Virginia Tech.

I am especially indebted to the members of Delta Power Electronics Lab for their support over the years. I wish to thank Dr. Laszlo Huber for his constant discussion with me on this research as well as his help to improve my writing skill. And I still remembered that I learned to build my very first power transformer years ago from him. Also, thanks to Dr. Yungtaek Jang for his help when I was setting up my first S²PFC hardware prototype.

I must thank all my friends and the members of the excellent CPES group, including the faculties, staffs and students. The friendship, enlightening discussions, and the overall atmosphere center spirit have made my stay at CPES pleasant, enjoyable and unforgettable. Specially, thanks to the members of our previous PFC group, Mr. Alex Uan-zo-li, Mr. Fengfeng Tao, Mr. Qun Zhao, and Dr. Jinrong Qian for the very helpful exchanges of thoughts and experiences. - By the way, Alex made a really good PWM controller for me. - Also thanks to Dr. Gary Hua, Dr. Xunwei Zhou, Dr. Xingzhu Zhang, Dr. Qiong Li, Dr. Wei Chen, Dr. Richard Zhang, Dr. Hengchun Mao, Dr. Kunrong Wang, Dr. Kun Xing, Dr. Michael Zhang, Mr. Robin

Chen, Dr. Pit-leong Wong, Mr. Peng Xu, Mr. James Liu, Mr. Peter Barbosa, and Mr. Francisco Canales for their help on my M.S. and Ph.D. research. I would also like to thank Prof. Zhongcao Zhang, Dr. Dehong Xu, Prof. Shipeng Huang and Dr. Zhaoming Qian in the EE department of Zhejiang University. They helped me to start my undergraduate education in Power Electronics.

This work is dedicated to my dear parents, Tieqiao Zhang and Huiming Chen, for their love and constant support during the past years. - Mom and dad, I got my Ph.D now! - Thanks to my dear brother Jinsong and sister Xiaoping too, who has been taking good care of my parents.

Most of all, to my dear wife Lijia, who has always been there with her love and encouragement during the past years.

This research work is supported by Delta Fellowship, provided by Delta Product Corp. Taiwan.
