

Vita

Feihe Huang was born in Shaodong, Hunan, China in 1973. He obtained his Bachelor of Polymer Materials Science and Engineering from Hefei University of Technology in July 1996 and Master of Polymer Chemistry and Physics from University of Science and Technology of China in July 1999. After one-year study at University of Washington, he transferred to Virginia Polytechnic Institute and State University and joined in Gibson's group in the August of 2000. He got the degree of Master of Science in Chemistry in August 2003. He finished his coursework and research for the Doctor of Philosophy in Chemistry during the spring of 2005 with the aid and guidance of Prof. Harry W. Gibson. He will join in Prof. Peter J. Stang's group at University of Utah as a postdoctor. His research interests are in the field of supramolecular chemistry.
