Dear Inez:

As a follow-up to our telephone conversation, please accept this letter as my permission to use the Goal Orientation Index, the visual of the Conation Cycle, the definitions of Cycle categories, and other information from my work in your dissertation research. It has been a pleasure to have worked with you on your project. In addition, Dr. Carol Baker, Director of Tests and Measurements for the University, has been pleased to have been of assistance. If there are any further ways in which we can be helpful, please do not hesitate to contact either of us.

Best wishes as you conclude this rigorous process. I look forward to finding out about the results of your work and feel confident that you are making a valuable contribution to the research in your field.

Sincerely yours,
