Dear Ms. Chase:

This is to confirm that the study you and Dr. Daisy Stewart, and Dr. Lisa Driscoll submitted for review to the Institutional Review Board, "The Relationship of Mind Styles to Consumer Decision Making Styles," has been given expedited approval. The protocols you submitted are approved for use with human subjects through September 16, 2004; please be advised that you will need to have the protocol re-reviewed by the Institutional Review Board if you wish to continue using it to collect data after that date. Please contact me or Janet Hahn in the Office of Sponsored Programs & Grants Management if you make any substantive changes to the protocol that has been approved, as the committee would need to review and approve these changes.

As the principal investigator for this project, you are ultimately responsible for seeing that the study is conducted in an ethical manner and for filing all reports related to this project (including the end of year/project report. Please make sure that you obtain/retain the information needed for these purposes, as outlined in the IRB manual. Feel free to contact me if you have any questions about this aspect of project management. Also, please remember that all work involving human subjects is subject to the standards for the protection of human subjects established by the IRB and Federal Regulations. Don't hesitate to contact me or Janet Hahn if you have any questions about application of these standards to your project.

Best of luck with your study.

Sincerely,

Joseph S. King, Ph.D.
Chair, Radford University Institutional Review Board
for the Review of Human Subjects Research

cc: Dr. Daisy Stewart, Dr. Lisa Driscoll, Ms. Janet Hahn

Appendix J
The Gregorc Mind Styles[®] Learner Characteristics Extenda-Chart

Due to copyright specifications, permission was not granted from Dr. Anthony Gregorc to include a printed sample of this document for this study. Each Extenda-Chart includes more detailed descriptions of each mind style and learning characteristics associated with these styles. These Extenda-Charts are used to supplement assessment of the Gregorc Style Delineator[®].

Printed copies can be ordered from the following address:

Gregorc Associates, Inc.
