

Figure K.1: Experimental load / Experimental load with NDS® pilot hole vs. pilot hole / lag screw diameter (DF & capacity)

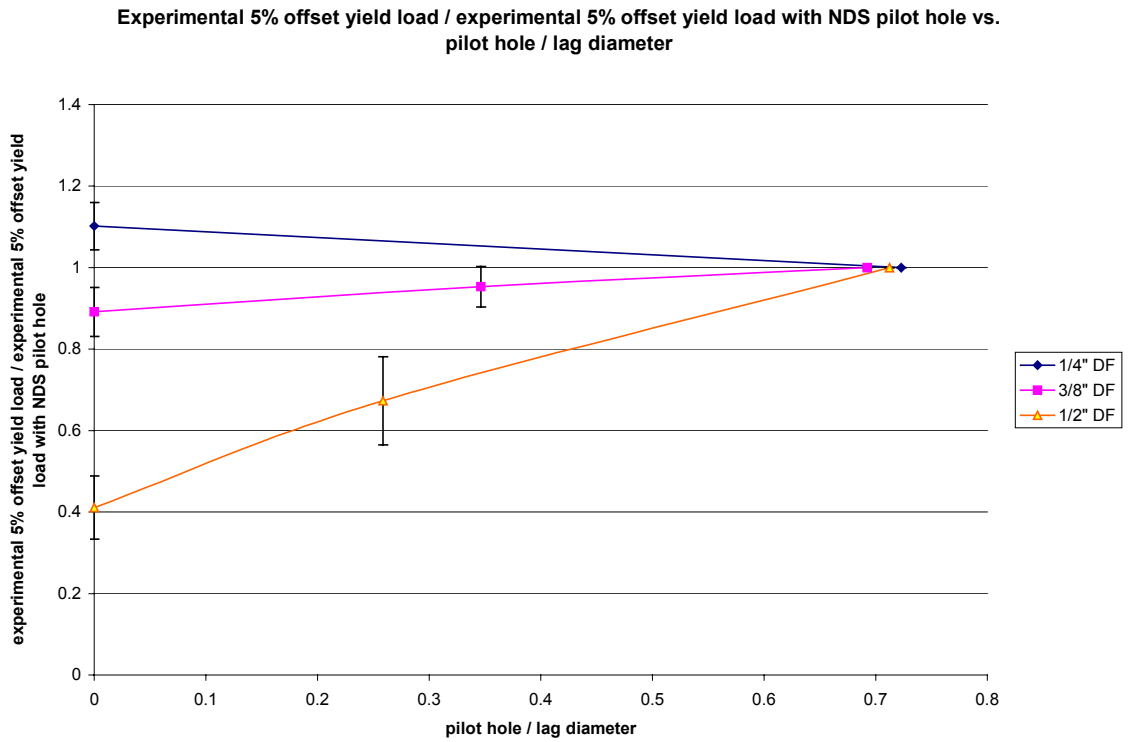

Figure K.2: Experimental load / Experimental load with NDS® pilot hole vs. pilot hole / lag screw diameter (DF & 5% offset yield load)

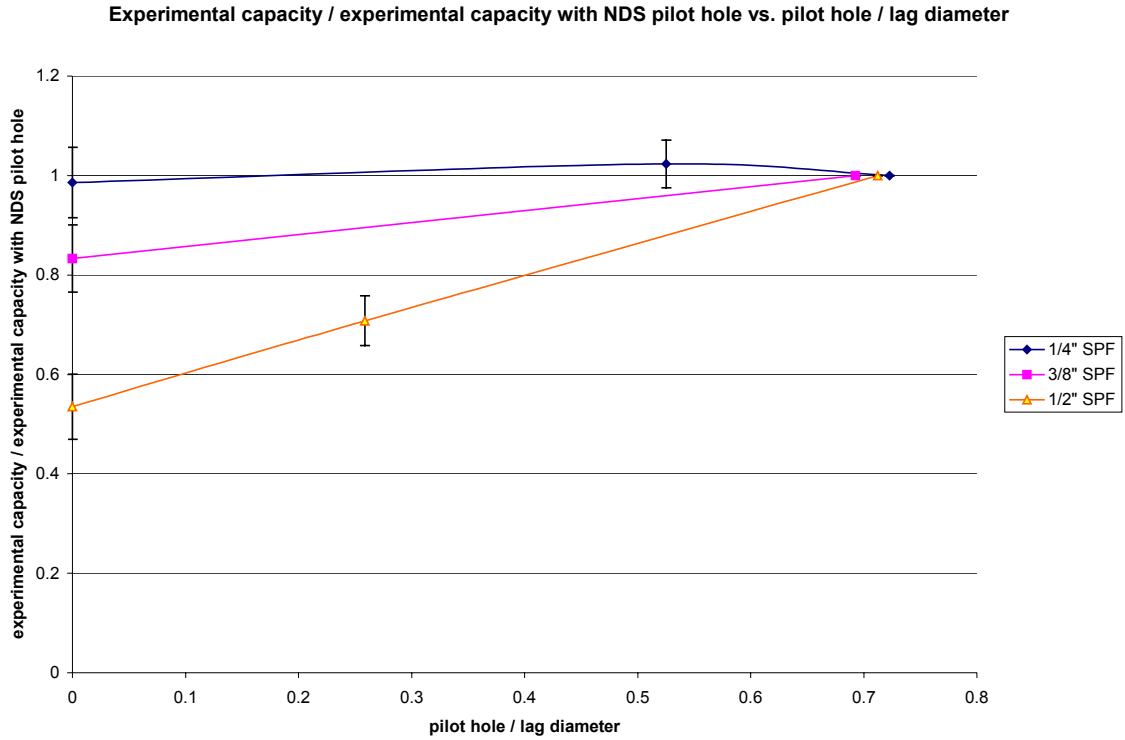

Figure K.3: Experimental load / Experimental load with NDS[®] pilot hole vs. pilot hole / lag screw diameter (SPF & capacity)

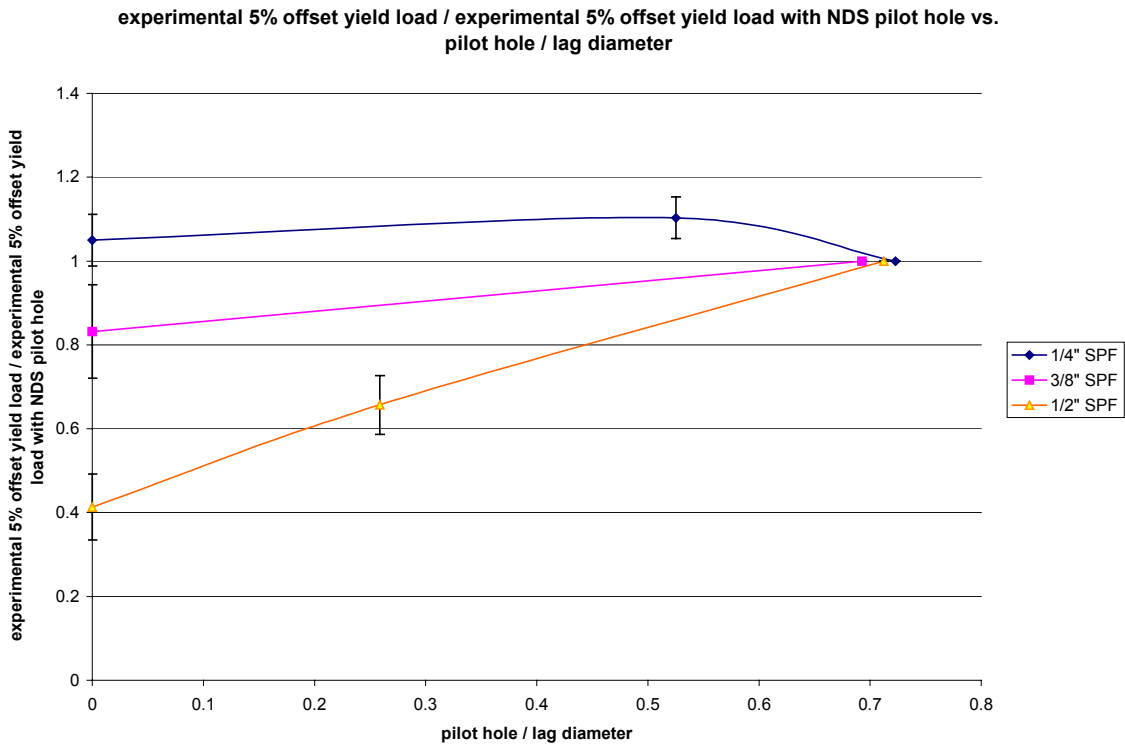

Figure K.4: Experimental load / Experimental load with NDS[®] pilot hole vs. pilot hole / lag screw diameter (SPF & 5% offset yield load)
