

Acknowledgements

The graduate process has truly been a journey. I could not have reached this point in the journey without the support of family, friends, and colleagues. To Art, who has been family, friend, and colleague, I am thankful for your example, your energy, and your love and encouragement over the past few years. To Frankie, John, Cindy and TK, and Jackson, I am thankful for your unconditional support and love for many years. To my Alexandria family, thank you for helping me become a person worth knowing. Gloria, Ethel Marie, Bobby, Frank, Marilyn, Darcy, Jim, and Katrina — you are making a town become a home for me. Also, for help above and beyond the call of friendship in getting the data analysis and dissertation management process moving along — thank you Sue, Ted, Frank, Gloria, and Bobby.

The years at Virginia Tech have been a personal and professional coming of age for me. Thank you to the faculty, especially in Family and Child Development, and students who have been there for the learning, sometimes painful, often glorious — always a net gain. I want to mention in particular Rosemary Blieszner for her inspiration and example of excellence and grace. I also want to say that the Dissertation Support Group — T.J., Phyllis, Karen, Paula, Susan, Nancy, and Beth — was a necessary part of this project reaching completion. To Mala — thank you for your example. To my clinical mentors — Alan, Lydia, Mary-Eve, Sue, Saliha, Jan, Joe, Jim, Bud, Mike, Steve, Chuck and Laurie — thanks for demonstrating your skill.
