ACKNOWLEDGEMENTS

I would like to graciously thank a number of people who lent their support, expertise, patience, and guidance to me during this study.

To Dr. Robert Richards and Dr. Carroll Bailey Jr., co-chairmen of my doctoral committee, my sincere appreciation for you guidance and interest in this study. Thank you also for your constructive criticism and useful suggestions and encouragement throughout the research. A special thanks to Dr. Mary Yakimowski, for your time and support and professional assistance in the development and completion of this project. You were ever-present and will always be the “Energizer Bunny”. To Dr. Tina Dawson, Dr. Glen Earthman, and Dr. Richard Salmon, my remaining committee members, my humble gratitude and sincere thanks for your concrete concepts and theories, wise counsel, and excellent suggestions which will aid in future administrative growth.

Special appreciation is extended to Dr. Bailey and the faculty and staff of Hunt-Mapp Middle School, my professional home since its existence. Thank you for the love, extra push, and constant encouraging words. To Linda Ridenour, magnet facilitator, thank you so much for your willingness to share resources and friendship.

To Portsmouth Public Schools, I would like to express my gratitude for allowing the study to be conducted within the system.

I extend deep appreciation to my sister Violin Norfleet-Smith, other family members, and a countless number of friends for their prayers, assistance, faith, and support.
Realizing that this study is meaningless, without the acknowledgment of the One who made it all possible, thanks be unto God for keeping family and friends in good health, and giving me peace of mind throughout the completion of this study.
