

## **Hong Zhuang**

1311 Giles Rd., #1, Blacksburg, Virginia 24060  
W:(540) 231-8224, H:(540) 552-3966, E-Mail: hzhuang@vt.edu

---

### **EDUCATION:**

**Ph.D., Chemistry**, May 1998, Emphasis: polymer chemistry.  
Virginia Polytechnic Institute & State University, Blacksburg, VA.

Major Advisor: Dr. James E. McGrath.

Title of Dissertation: Synthesis and Characterization of Thermoplastic and Thermosetting Polyimides.

**MS, Chemistry**, May 1995, Emphasis: adhesion science.  
Virginia Polytechnic Institute & State University, Blacksburg, VA.

Major Advisor: Dr. James P. Wightman.

Title of Thesis: The Influence of Surface Properties on Carbon Fiber/Epoxy Matrix Interfacial Adhesion.

### **RESEARCH ACTIVITIES:**

- Synthesis and characterization of end functionalized thermosetting polyimides with designed processing and curing temperatures
- Synthesis and characterization of thermoplastic polyimides with high fire resistance potential
- Synthesis and characterization of reactive functionalized thermoplastic polyimide as a toughening material for brittle epoxy and bismaleimide thermosets
- Investigation of interfacial adhesion, and the effect of surface treatment and surface properties on adhesion and adhesion durability
- Material characterization by spectroscopic, chromatographic, thermal, and mechanical behavior
- Synthesis, purification, and characterization of novel monomers for network formation and improving fire retardancy of polymeric materials
