

Vitae

I (Brian Victor Thurmond) was born on December 1, 1972 in Aiken, SC. I left Brookland-Cayce High School in Cayce, SC after my sophomore year to complete high school requirements at the South Carolina Governor's School for Science and Math in Hartsville. After completing an undergraduate degree in chemical engineering at Georgia Tech, I went on to pursue a Master of Science degree in chemical engineering at Virginia Tech and a law degree from the College of William and Mary. I aspire to teach chemistry and coach basketball at the high school level someday while making a meaningful impact in the lives of others just as my mother (Gwen Thurmond), Terry Rivers, Dr. Clyde Smith, Fred Nims, John Bowers, Dr. Jon Johnston, and Jamie Emert have in my own life.
