

VITAE

Jerome C. Couche was born on January 24, 1974 in Paris, France. After graduating from high school in 1992, he enrolled at the "Universite de Technologie de Compiegne", France, where he earned his Bachelor of Science in 1997. In 1996, Jerome joined the Vibration and Acoustics Laboratories at Virginia Tech, where he started a master degree in mechanical engineering. During his master degree, Jerome was also involved in projects for the Ford Motor Co., and Lockheed Martin, where he earned valuable experience. His current research project deals with implementing MSI double amplifier actuators to the active control of automobile interior noise.
