

TABLE OF TABLES

I Controlled/"Living" Free Radical Polymerizations

Table 1	GPC Data of Cleaved Polystyrene from Functionalized Silica.....	27
---------	---	----

II Supramolecular Assemblies

Table 1	Potassium Cation Binding Strengths and Rates for Various Ligands.....	49
---------	---	----

Table 2	Chemical Shifts of Diester BMP32C10 Upon Complexation with Paraquat Diol.....	64
---------	---	----

Table 3	Association Constants for the Complexation of Diester BMP32C10 with Paraquat Diol.....	65
---------	--	----

Table 4	Changes in Enthalpy and Entropy for the Complexation of Diester BMP32C10 with Paraquat Diol.....	66
---------	--	----

Table 5	Chemical Shifts of Hydroxymethyl BMP32C10 Upon Complexation with Paraquat Diacid.....	69
---------	---	----

Table 6	Association Constants for the Complexation of Hydroxymethyl BMP32C10 with Paraquat Diacid.....	70
---------	--	----

Table 7	Changes in Enthalpy and Entropy for the Complexation of Hydroxymethyl BMP32C10 with Paraquat Diacid.....	71
---------	--	----

Table 8	Chemical Shifts of Diacid BMP32C10 Upon Complexation with Paraquat Diol.....	73
---------	--	----

Table 9	Association Constants for the Complexation of Diacid BMP32C10 with Paraquat Diol.....	73
---------	---	----

Table 10	Chemical Shifts of Hydroxymethyl BMP32C10 Upon Complexation with Paraquat Diester.....	75
----------	--	----

Table 11	Association Constants for the Complexation of Hydroxymethyl BMP32C10 with Paraquat Diester.....	75
----------	---	----

Table 12	Chemical Shifts of Cryptand 10 Upon Complexation with Dimethyl Paraquat.....	79
----------	---	----

Table 13	Association Constants for the Complexation of Cryptand 10 with Dimethyl Paraquat.....	81
Table 14	Changes in Enthalpy and Entropy for the Complexation of Cryptand 10 with Dimethyl Paraquat.....	82

III Polymeric Supramolecular Assemblies

Table 1	Hill Coefficients and Association Constants for the Binding of DAB <i>dend</i> (24C8) _n with Dibenzyl Ammonium (PF ₆).....	117
Table 2	Chemical Shifts of DAB <i>dend</i> (32C10) ₄ Upon Complexation with Paraquat Diol (2 PF ₆).....	125
Table 3	Chemical Shifts of DAB <i>dend</i> (32C10) ₁₆ Upon Complexation with Paraquat Diol (2 PF ₆).....	125
Table 4	Values for the Binding of Paraquat Diol (2 PF ₆) by DAB <i>dend</i> (32C10) ₄	127
Table 5	Values for the Binding of Paraquat Diol (2 PF ₆) by DAB <i>dend</i> (32C10) ₁₆	128
Table 6	Hill Coefficients and Association Constants for the Binding of DAB <i>dend</i> (32C10) _n with Paraquat Diol (2 PF ₆).....	130
Table 7	Chemical Shifts of Protonated DAB <i>dend</i> (32C10) ₁₆ Upon Complexation with Paraquat Diol (2 PF ₆).....	133

Appendix I The Importance of Binding Constants: Theory, Models, and Discussion

Table 1	Extrapolation of Single-site Binding to Multi-Site Binding Models.....	150
Table 2	Statistical Influences on K _a for Multi-Site Hosts.....	151
