

VORTICITY MODELING FOR THE FLOW OVER SURFACE-MOUNTED PRISMS

LIHAI QIN

Thesis Submitted to the Faculty of the Virginia Polytechnic Institute and State
University in Partial Fulfillment of the Requirements for the Degree of

Master of Science

in

Engineering Science and Mechanics

M.R. Hajj, Co-Chairman
D.T.Mook, Co-Chairman
S.A.Ragab, Committee Member

April, 2001
Blacksburg, Virginia

Keywords: Vorticity Modeling, Bluff Body, Prism, Vortex Element, Turbulence,
Vortex Shedding, Numerical Simulation
