

List of Tables

Table 2.1.	List of some plant species that may be considered as expression systems for recombinant vaccines ...	12
Table 2.2.	Human disease antigens being tested for plant-based production of vaccines ...	13
Table 2.3.	Classes of modern vaccine adjuvants, carriers and vehicles ..	17
Table 2.4.	Real and theoretical risks of vaccine adjuvants .	20
Table 2.5.	Cellular fate and effect of RTA, RTB and preproricin when expressed in tobacco protoplasts ..	27
Table 5.1.	Expression levels of ricin in transgenic tobacco plants divided in four categories based on band intensities ..	56
