

Dedication

I would like to dedicate this work to the memory of my Grandmother and Grandfather, Annamille Lucas Prillaman, and Samuel Philip Prillaman. They showed me that the love of learning lasts a lifetime. But most of all their love for me and pride in my accomplishments continues to inspire me to reach my goals and follow my dreams.

Acknowledgements

I would like to thank my committee members, Dave Dugas and Carol Birch-Brown for their support, guidance and reading recommendations throughout this study. I would also like to thank Dr. Joan McLain-Kark my committee co-chair, for all of her input, direction and advice. I have tremendous respect for her knowledge and experience in interior design research. A special thank you goes to Brad Whitney, my committee co-chair, for his support and enthusiasm for this study. It was a wonderful opportunity to work with someone possessed of such a creative mind.

Many thanks go to Dr. Anna Marshall-Baker at the University of North Carolina in Greensboro for all of her ideas and encouragement.

I would like to thank my mother and father for their friendship and unconditional love.

I would like to thank Lisa Allison-Jones for her advice and friendship throughout my graduate studies. There is a unique bond between friends who attend graduate school together and support each other start to finish.

Finally, words cannot express my gratitude to my best friend Elizabeth Tompkins for encouraging me every step of the way.
