Publication:

The Effect of Technology on Social Interaction in Local Community Organizations
(2002) Master's Thesis, Virginia Tech.

Brief Research Statement:

The broad category my research activities lie under is social impact of computing. Within this, my specific interests and work has focused on the effect of the Internet and Internet-related technology on interpersonal communication. This work adds to an already large body of research done on the Blacksburg Electronic Village (BEV) and, more recently, on projects such as EPIC, Moosburg and, CommunitySim.
