

ACKNOWLEDGMENTS

I would like to thank Dr. Steve Lawson, my major professor, and Dr. Jeff Marion for their advice and support over the last two years. Also, I would like to thank Dr. Nancy McGehee for providing an “outside” perspective in her thoughtful review and comments. Thanks to Steve Bair, Backcountry, Wilderness, and Trails Manager at Shenandoah National Park for his input during the design of this study, as well as the logistical support and field assistance he provided; long live the “mouse house!” Also, I would like to thank Steve Bullock, Chris Carr, John Hedrick, Brett Kiser, Aurora Moldovanyi, and Clark Wright for field assistance. Last but not least, I would like to thank my parents, Randy and Geno Wood for their unwavering support in all that I do.

TABLE OF CONTENTS

LIST OF FIGURES	vii
LIST OF TABLES	viii
CHAPTER I: INTRODUCTION	1
Study Objectives	3
Works Cited	5
CHAPTER II: LITERATURE REVIEW	6
Introduction	6
Cliff Resource Impacts	7
Rock Climber Use and User Characteristics, Perceptions, and Management Attitudes	12
Conclusion	18
Works Cited	20
CHAPTER III: METHODS	22
Introduction	22
Resource Impact Measurement	22
<i>Recreation Site Assessment</i>	22
<i>Visitor-Caused Trail Assessment</i>	25
Visitor Observation Methods	27
<i>People at One Time (PAOT)</i>	30
<i>Behavior Observation</i>	30
<i>Ropes Across Trail</i>	31
<i>Total Daily Use</i>	31
<i>Length of Stay</i>	32
<i>Informal Observation</i>	32
Works Cited	34
CHAPTER IV: ASSESSING RECREATION IMPACTS TO CLIFFS IN SHENANDOAH NATIONAL PARK: INTEGRATING VISITOR OBSERVATION WITH TRAIL AND RECREATION SITE MEASUREMENTS	35
Introduction	36
Related Literature	37
<i>Cliff Resource Impacts</i>	37
<i>Visitor Observation</i>	38
Methods	39
<i>Study Area</i>	39
<i>Resource Impact Measurement</i>	41
<i>Visitor Observation</i>	43

	Results	46
	<i>Resource Impact Measurement</i>	46
	<i>Visitor Observation</i>	48
	Discussion & Management Implications	51
	Conclusion	54
	Acknowledgements	55
	Works Cited	56
APPENDIX A:	CLIFF SITE VISITOR IMPACT MONITORING MATERIALS	59
	Cliff Site Visitor Impact Monitoring Manual	60
	Cliff Site Visitor Impact Monitoring Form	72
APPENDIX B:	CLIFF TRAIL VISITOR IMPACT MONITORING MATERIALS	75
	Cliff Trail Visitor Impact Monitoring Manual	76
	Cliff Trail Visitor Impact Monitoring Form	82
APPENDIX C:	VISITOR OBSERVATION FORMS	85
	People At One Time (PAOT)/Behavior Observation Form	86
	Total Daily Use/Length of Stay Form	88
APPENDIX D:	INFORMAL OBSERVATION TRANSCRIPTS	90

LIST OF FIGURES

Figure 3.1. Little Stony Man Cliffs - recreational sites and trails.	23
Figure 3.2. Modified radial transect method used to measure recreation sites at Little Stony Man Cliffs.	24
Figure 3.3. Cross sectional area (CSA) method used to measure visitor-created trails at Little Stony Man Cliffs.	27
Figure 3.4. Little Stony Man Cliffs cliff-top observation zones, looking north.	28
Figure 4.1. Little Stony Man Cliffs - recreational sites and trails.	40
Figure 4.2. Modified radial transect method used to measure recreation sites at Little Stony Man Cliffs.	42
Figure 4.3. Little Stony Man Cliffs cliff-top observation zones, looking north.	44
Figure 4.4. Mean number of people at one time (PAOT) on Little Stony Man Cliffs cliff-top, by type of visitor and time of day.	49

LIST OF TABLES

Table 3.1. Sample Point Intervals for Trails <2400 ft (.45 mi).	26
Table 3.2. Number of Sampling Shifts, by Type of Observation Data, Day of Week, and Time of Day	29
Table 4.1. Impact Indicator Data for LSMC Recreation Sites	47
Table 4.2. Impact Indicator Data for LSMC Visitor-Caused Trails	48
Table 4.3. Mean Total Daily Use of LSMC Cliff-Top, by Day of Week and Type of Visitor	49
Table 4.4. Mean Length of Stay in Minutes, by Type of Visitor	50
Table 4.5. Percent of Observed Visitors Seen Trampling Soil/Vegetation, by Type of Visitor	50
Table 4.6. Percent of Observations of Soil/Vegetation Trampling, by Observation Zone and Type of Visitor	50
