

**Sensor Networks: Studies on the Variance of Estimation,
Improving Event/Anomaly Detection, and Sensor Reduction
Techniques Using Probabilistic Models**

Philip Allen Chin

Thesis submitted to the faculty of the Virginia Polytechnic Institute and State
University in partial fulfillment of the requirements for the degree of

Master of Science
In
Mechanical Engineering

Michael J. Roan
Alexander Leonessa
Cory M. Papenfuss

(June 15, 2012)
Blacksburg, VA

Keywords: direction of arrival, source localization, Cramer-Rao bounds, distributed
sensor network, sensor reduction, event monitoring, event detection, anomaly
detection, direction of travel, joint probability, geospatial intelligence, correlation,
classifier
