Trench Data

As of November 17, 1999, the Oneida groundwater interception (GWINT) system trench has recovered an estimated 1,092,780 gallons of water since startup. During 1999, approximately 0.33 M gallons of water was recovered. Below is a summary of totalizer meter flow readings recorded January 1999 to date:

Date	Totalizer Reading (gallons)
01/26/99	377,560
02/25/99	437,360
04/01/99	554,750
04/14/99	570,760
06/08/99	613,750
06/14/99	613,760
06/30/99	657,680
08/12/99	682,110
10/19/99	692,840
11/17/99	703,280
02/11/00	897,190

Date	Trench Output (gallons)
Feb-98	120,002
Mar-98	100,000
Apr-98	89,998
May-98	60,001
Jun-98	50,000
Jul-98	10,001
Aug-98	4,997
Sep-98	3,000
Oct-98	1,997
Nov-98	1,504
