Fair Use Analysis for Pearre, Figure 5 and Figure 6

This appendix contains the fair use analysis conducted using the University of Minnesota's 'Thinking Through Fair Use' tool (<https://www.lib.umn.edu/copyright/fairthoughts>). Everything in this appendix was copied directly from the website quoted in previously.

Your Fair Use Analysis

Work considered: Pearre, N.S., et al., (2011), "Electric vehicles: How much range is required for a day's driving?," Transportation Research Part C: Emerging Technologies, Vol. 19, Issue 6, Dec. 2011, pp. 1171-1184.

Date: 06-18-2012

Here's your "Thinking Through Fair Use" results! As a reminder, these results have not been analyzed or processed in any way, except to format the input you provided into one document. These results don't claim to tell you whether a proposed use is fair or not, and do not constitute legal advice. For formal legal advice, please contact an attorney.

You thought that **purpose** was *strongly favorable* towards fair use.

You highlighted these elements as relevant to your proposed use:

Favors Fair Use

Weighs Against Fair Use

Educational, scholarly, and research uses,
and/or news reporting

Notes: Used only to give background supporting background research to thesis topic.

You thought that **nature** was *strongly favorable* towards fair use.

You highlighted these elements as relevant to your proposed use:

Favors Fair Use

Weighs Against Fair Use

Published source
Factual or non-fiction source

Notes: Published in an factual, non-fiction academic journal

You thought that **amount** was *strongly favorable* towards fair use.

Favors Fair Use

Weighs Against Fair Use

Proportionally small excerpt, extract, or clip
Portion used is peripheral or not significant to the entire work
Only as much as absolutely necessary for a favored purpose

You thought that **market** was *somewhat favorable* towards fair use.

You highlighted these elements as relevant to your proposed use:

Favors Fair Use

Weighs Against Fair Use

User owns lawful copy of the work (bought or otherwise legitimately acquired)
Use stimulates market for original work
No way to pay or seek permission for your use

Easy to redistribute, or to make additional copies of the product of your use (i.e. digital file, online use)

When looking over your results, remember that **no single factor is decisive** of fair use. There also **may be other relevant considerations**, specific to your use, that do not appear in the results from this general-purpose tool. Many considerations are relevant, and only by looking at the whole picture, across all the issues, can you make a reasonable guess about whether your use is fair or not!
