

Acknowledgements

I would like to express my gratitude to my advisor, Dr. Muhammad Hajj, for his understanding and support during the course of my study at Virginia Tech. His advice and expertise with respect to this research were highly appreciated. I would also like to thank Dr. Henry Tieleman for his patient guidance and detailed explanation during my research work. Thanks are also given to Dr. Saad Ragab, for his remarkable courses in fluid mechanics. His thorough and insightful lectures in the subject of both theoretical and computational fluid mechanics made me learn a lot during this period. I am very grateful to Dr. Hajj, Dr. Tieleman and Dr. Ragab for making time during their busy schedules to serve on my committee.

I would like to thank my parents for their love, encouragement and support throughout my life. I would also like to thank my sister and brother-in-law for their advice and support over the years.

I am also thankful for my fellow graduate students and friends: Yanhua Chen, Lihai Qin, Senthil Vel, Piergiovanni Marzocca, Jialin Xiang and Zhanming Qin, for their kind help.
