

Table of Contents

List of Figures	Page vii
List of Schemes	viii
List of Structures	xi
List of Tables	xiv
List of Abbreviations	xv
I. Natural products as medicines	1
1.1 History and the earliest known medicines to man	1
1.2 Types of natural products	3
1.2.1 Natural products from microorganisms	4
1.2.2 Natural products from marine organisms	5
1.2.3 Natural products from animal sources	6
1.2.4 Natural products from plant sources	7
1.3 Plant based anticancer drugs	8
1.4 International Cooperative Biodiversity Group (ICBG)	13
1.5 Bioassays	15
1.5.1 Mechanism-based assays	15
1.5.2 Cell-based assays	16
1.6 A2780 Bioassay	16
1.7 Methods for structure determination	19
References	20

II. Cardiac glycosides from <i>Strophanthus boivinii</i>	25
2.1 Introduction	25
2.1.1 Previous studies on <i>Strophanthus</i> genus	25
2.1.2 Structure and chemistry of cardiac glycosides	28
2.2 Results and Discussion	30
2.2.1 Isolation of boivinides A-C and digitoxigenin 3-O- β -D-glucopyranosyl-(1 \rightarrow 4)- α -L-acofriopyranoside	32
2.2.2 Structure elucidation of boivinide A	34
2.2.3 Structure elucidation of boivinide B	41
2.2.4 Structure elucidation of boivinide F	47
2.2.5 Structure elucidation of compound 4	51
2.2.6 Antiproliferative activity of compounds 1-4	54
2.3 Experimental section	54
2.3.1 General experimental procedures	54
2.3.2 Cytotoxicity assays	55
2.3.3 Plant material	55
2.3.4 Extraction and isolation	55
References	58
III. Triterpenoids from <i>Grewia</i> sp.	61
3.1 Introduction	61
3.1.1 Chemical investigation of <i>Grewia</i> sp.	61

3.1.2 Structure and chemistry of triterpenoids	63
3.2 Results and Discussion	66
3.2.1 Isolation and structure determination of compound 1 and 7 β -hydroxy-23-deoxogessic acid (2) from <i>Grewia</i> sp.	66
3.2.2 Structure elucidation of compound 1	68
3.2.3 Structure elucidation of compound 2	74
3.2.4 Antiproliferative activity of compounds 1 and 2	79
3.3 Experimental section	79
3.3.1 General experimental procedures	79
3.3.2 Cytotoxicity assays	80
3.3.3 Plant material	80
3.3.4 Extraction and isolation	80
References	82
IV. Other plants	85
References	87
V. Conclusions	88
