
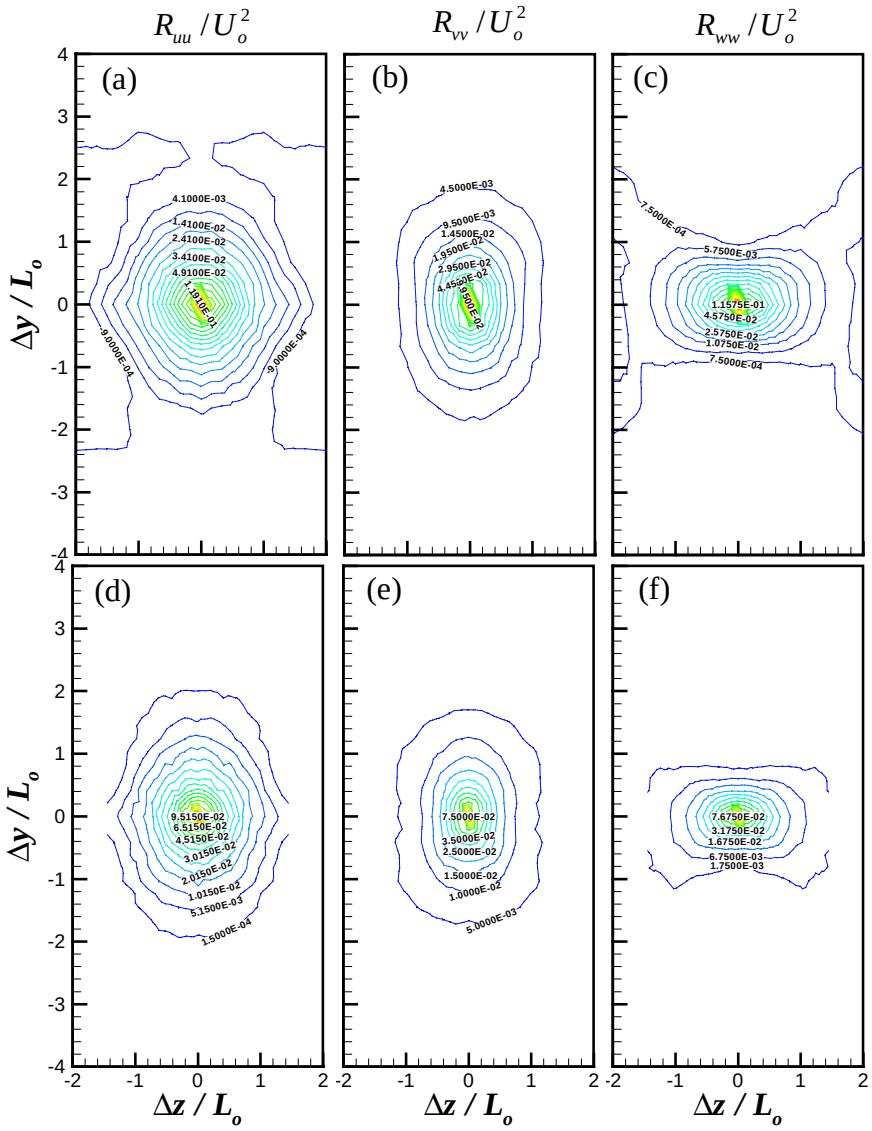

Figure 3.67 Zero time delay correlation components for the plane wake at *x/d* = 126 in (a), (b) and (c) and at *x/d* = 450 in (d), (e) and (f)

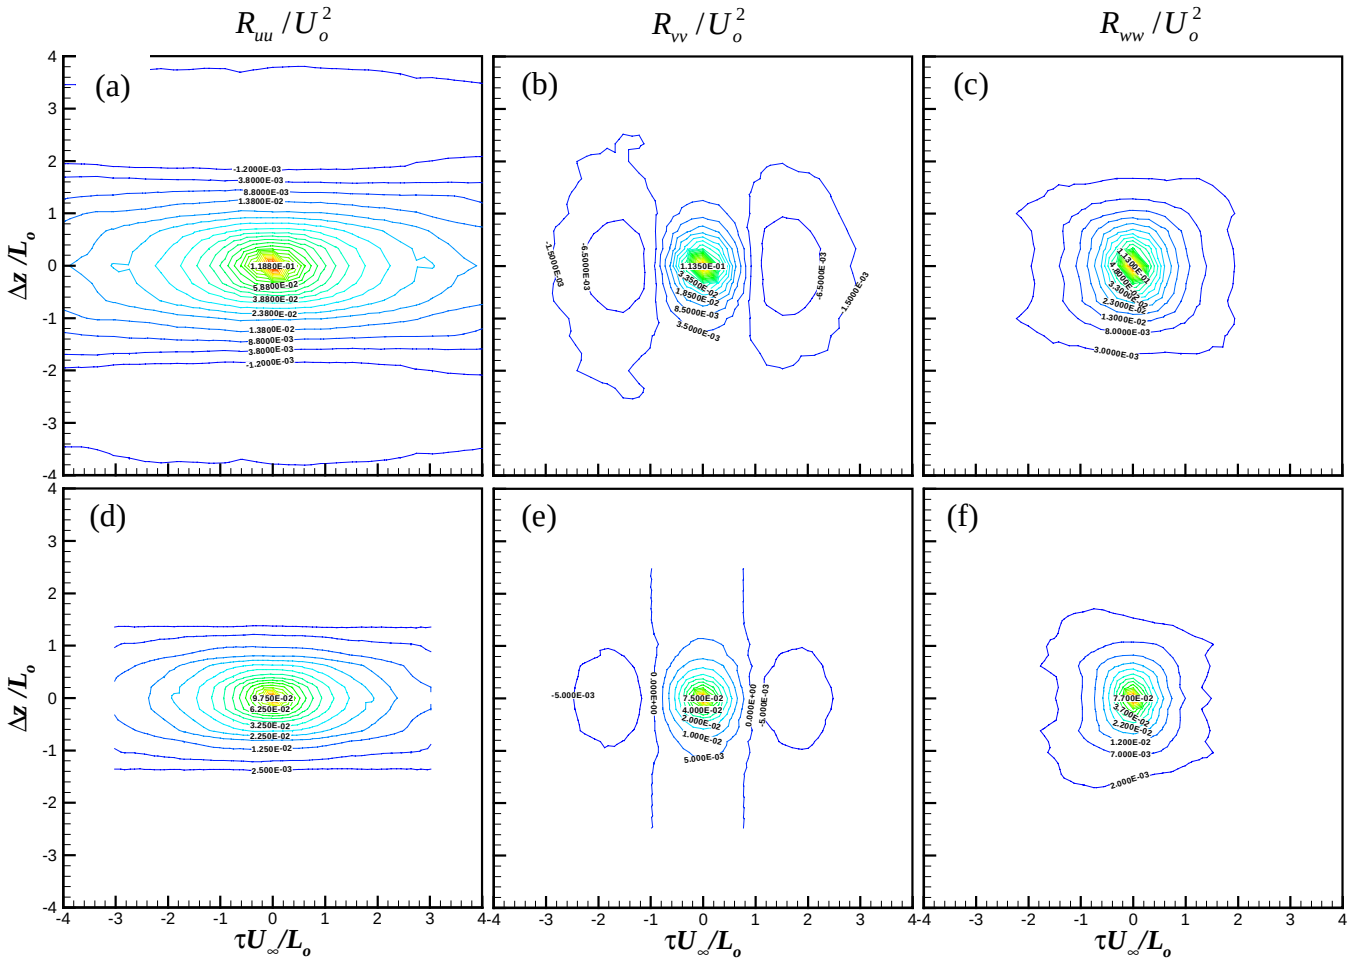

Figure 3.68 Zero Δy separation correlation components for the plane wake at x/d = 126 in (a), (b) and (c) and at x/d = 450 in (d), (e) and (f)

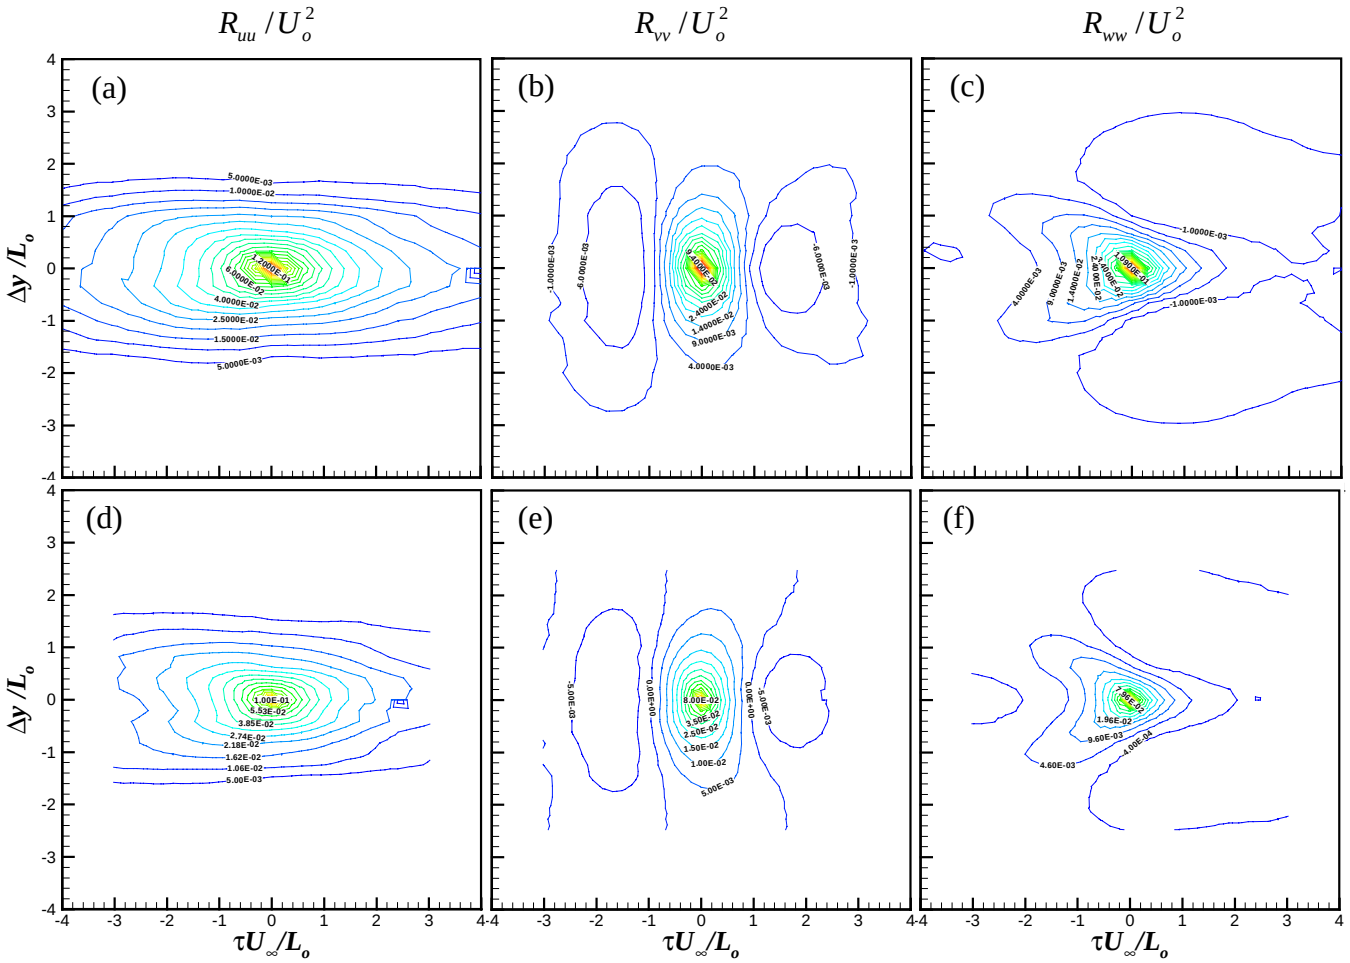

Figure 3.69 Zero Δz separation correlation components for the plane wake at x/d = 126 in (a), (b) and (c) and at x/d = 450 in (d), (e) and (f)

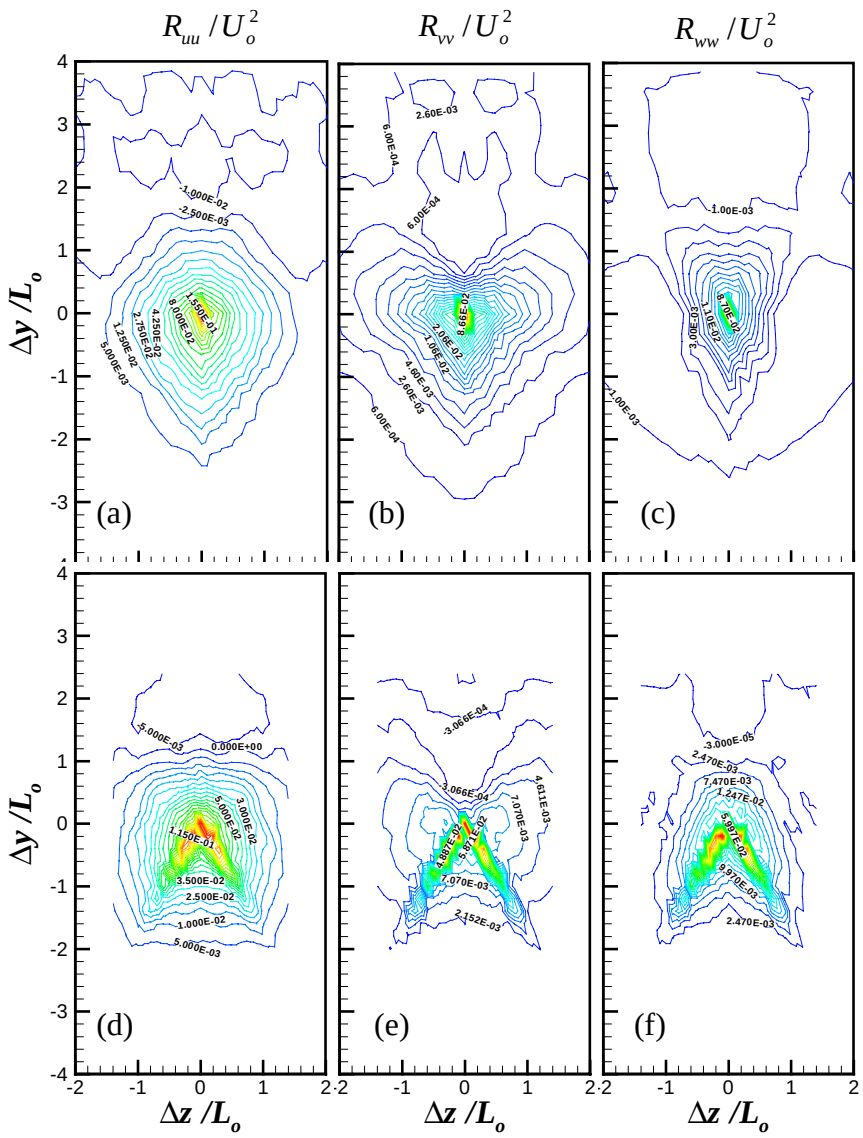

Figure 3.70 Zero time delay correlation components for the ring wake at *x/d* = 126 in (a), (b) and (c) and at *x/d* = 450 in (d), (e) and (f)

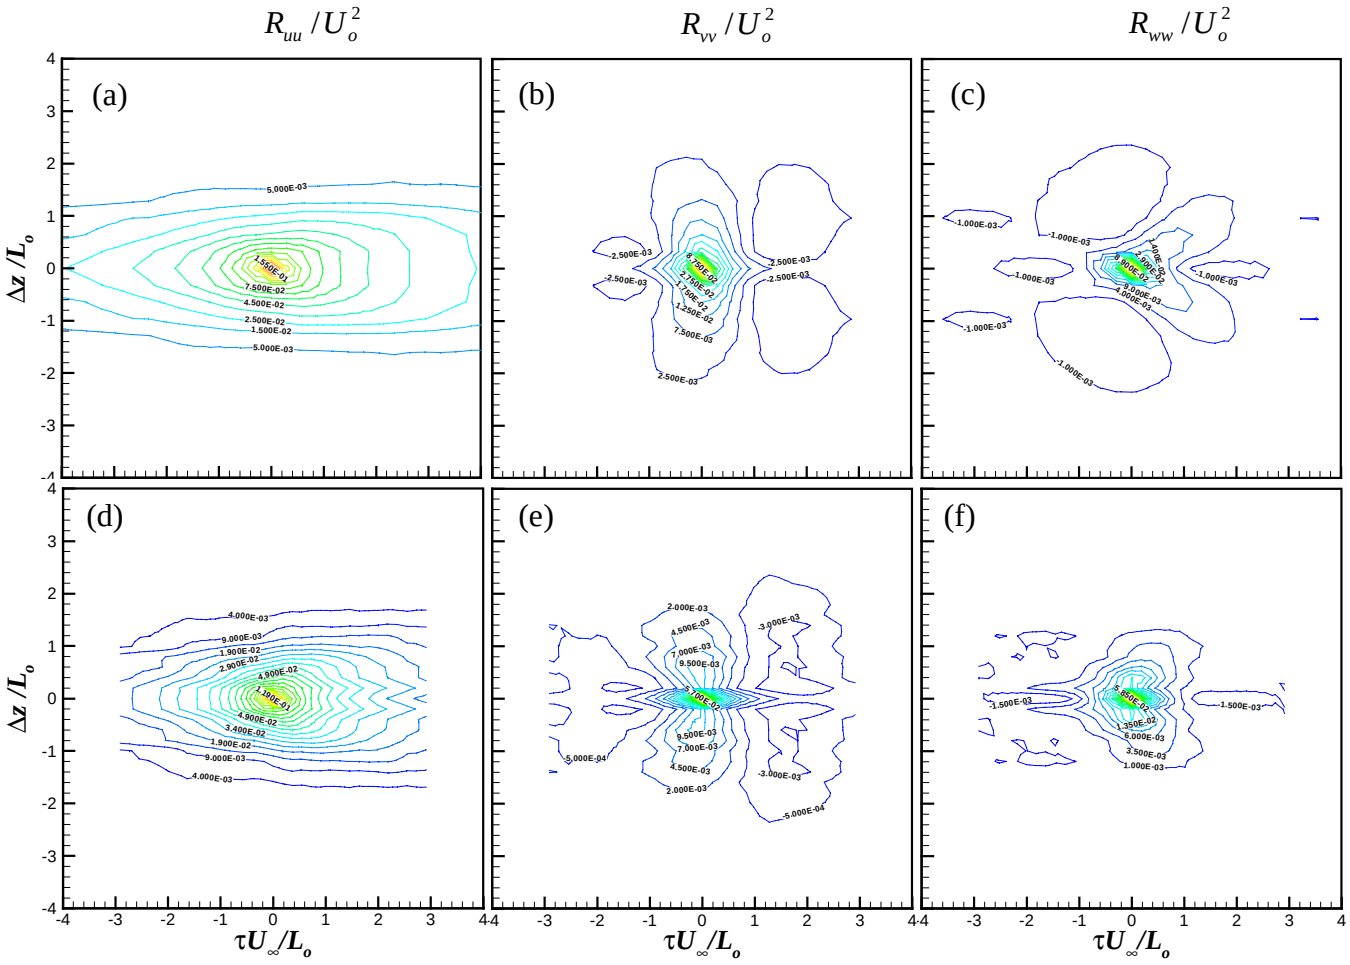

Figure 3.71 Zero Δy separation correlation components for the ring wake at x/d = 126 in (a), (b) and (c) and at x/d = 450 in (d), (e) and (f)

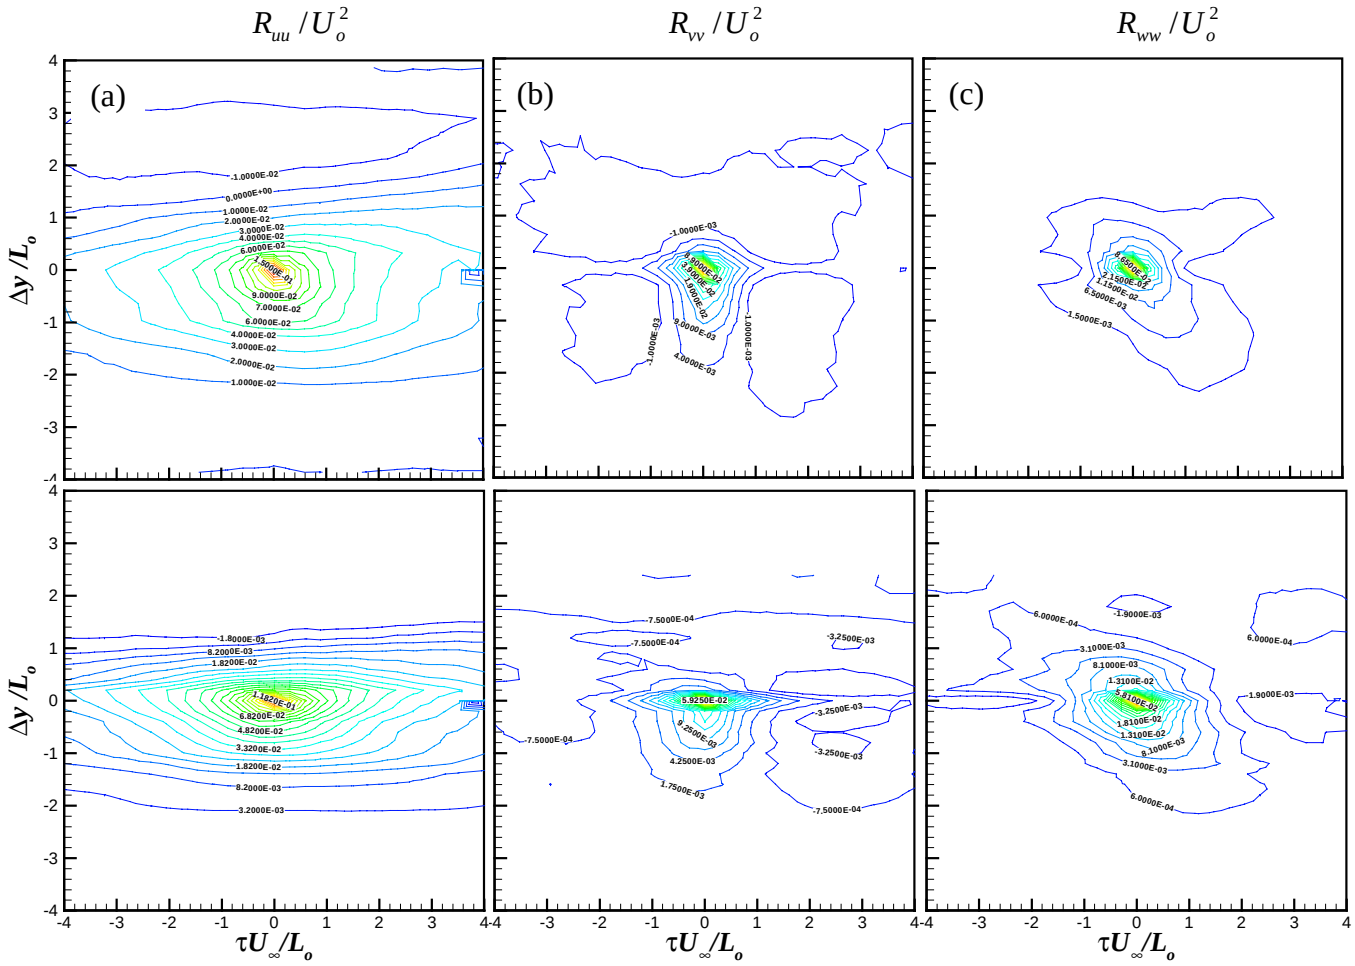

Figure 3.72 Zero Δz separation correlation components for the ring wake at x/d = 126 in (a), (b) and (c) and at x/d = 450 in (d), (e) and (f)
