

Vita

Semere Bereketab was born in Asmara, Eritrea. He came to Virginia Tech to pursue higher education. He received his B.S. degree from Virginia Tech in 1997 in Aerospace engineering. During this time he did research with Dr. Devenport on axial Delta wing vortex wakes and Tip-leakage vortex from a turbine cascade. He decided in 1998 to continue to pursue his Masters degree in the field of experimental fluid dynamics.
