Daniel,

You have permission to use the figures, given that you give appropriate credit to the author.

Please let me know if you need further formal authorization.

Happy new year,

Adolfo Recio

Subject: Copyright permission to use your CHREC diagrams in my thesis

Hi Adolfo,

For my master's thesis submission to the ETD, I need formal permission to include copyrighted figures.

I am using the following figures that you posted on the CHREC wiki for my thesis:

The block diagram of the digital modulator on: <http://www.ccm.ece.vt.edu/cgi-bin/twiki/view/CHREC/AdaptiveModulation>

The ASM figures for the Multiplier and Low Pass FIR on: <http://www.ccm.ece.vt.edu/cgi-bin/twiki/view/CHREC/DownConverter>

Please let me know if I have permission to use these figures in my master's thesis, A Model-Based Approach to Reconfigurable Computing. If you could just email me back letting me know, I would appreciate it.

Here is the rest of the formal copyright info:

The requested permission extends to any future revisions and editions of my dissertation, including non-exclusive world rights in all languages, and to the prospective publication of my dissertation by UMI Company. These rights will in no way restrict republication of the material in any other form by you or by others authorized by you. Your signing of this letter will also confirm that you the copyright to the above-described material.

Thank you,

Daniel Taylor
