

Assessment of Infrared Thermography as NDE Method for Investigation of FRP Bridge Decks

by

Marybeth Miceli

Thesis submitted to the Faculty of the
Virginia Polytechnic Institute and State University
in partial fulfillment of the requirements for the degree of

Master of Science

in

Materials Science and Engineering

John C. Duke, Chair

John J. Lesko

Richard E. Weyers

November 27, 2000

Blacksburg, VA

Keywords: infrared thermography (IRT), nondestructive evaluation (NDE), fiber-reinforced plastic (FRP) composites
