

**Optimal Vehicle Path Generator
Using Optimization Methods**

by

Peeroon (Pete) Ramanata

Thesis submitted to the Faculty of the

Virginia Polytechnic Institute and State University

in partial fulfillment of the requirements for the degree of

Master of Science

in

Mechanical Engineering

Approved:

Mehdi Ahmadian, Chairman

Pushkin Kachroo, Co-Chairman

Douglas J. Nelson

April 15, 1998

Blacksburg, Virginia

**Keywords: Optimal, Path, Time Minimization, Tire, Force
Maximization, Optimization, Vehicle, Dynamics, Inverse Vehicle Model,
