PENG LEI

Peng Lei was born on January 25, 1958, in a small village of Shaanxi Province, northwest China. After graduated from high school, he had worked in the village to do farm works for three years. In February of 1978 he attended Southwest Jiaotong University located near the beautiful Emei Mountain, southwest China, and got his Bachelor degree in Applied Mathematics in December of 1981. He continued his study in the Institute of Atomic Energy in Beijing, China, and obtained his Master of Science degree in Mathematics in June of 1984. Since then, he worked as an Assistant Researcher in the institute and served also as a guest instructor in the Graduate School of Nuclear Industry Ministry of China until August of 1988. Between August of 1988 and May of 1993, he studied in Department of Mathematics, VPI&SU, and obtained his Doctor of Philosophy degree in Mathematics. He jointed the Department of Industrial and Systems Engineering of VPI&SU in August of 1993, and worked at Center of Transportation Research (VPI&SU), Information Systems and Insect Studies (VPI&SU), and Electronic Data Systems, Inc. later on. His research interests include Nonequilibrium Statistical Mechanics, Transport Theory, Functional Analysis and Operator Theory, Differential and Integral Equations, Kinetic Theory, Planning/Scheduling Research, Transportation Research, Object-Oriented Analysis/Design, and Linear/Nonlinear/Integer Programming.
