

QUIZIT Database Web Interface: Add new user

Please enter the student's information in the fields below. Remember to fill out **all** the fields. Here is a short explanation of what each one means:

- **ID:** Simply a unique login identifier. Each of your students will have to remember this when logging into the system. This should be 15 characters long, maximum.
- **Password:** Password assigned to student. Maximum of 8 characters.
- **Cookie:** A session identifier. Usually some sort of code, like a social security number, that can be printed later when you report the grades, for example.

ID	Password	Student Code
