Subject: Permission to Reuse Author's Own Material in doctoral thesis

Hello, my name is Jonathan Resop, and a technical note that I am the first author on has recently been accepted for publication to the Journal of Hydraulic Engineering (Ms. No. HYENG-7085R1).

I intend to use this manuscript as a chapter in my doctoral dissertation, which I hope to defend this summer.

I read on your website that an author can reuse their own manuscript for their doctoral thesis is free of charge. I'm just writing to confirm that I have permission to do this, and see if there is anything else that I need to do. Any information would be appreciated. Thanks.
